Dear Mr. Reed:

We have received your letter to us requesting an extension of time for the above referenced permit. However, we cannot grant you an extension of time on this permit as it has already been extended once on September 17, 1976. Therefore, unless you file proof of beneficial use on or before January 9, 1978, your permit cannot be reinstated.

I would suggest that you file proof on the portion of the project you have finished at the present time since we are not accepting any new filings for appropriation of water in the Upper Boise River basin.

If you have any questions, please contact me.

Sincerely,

Dear Mr. Reed:

One of the conditions of approval of your water Permit No. 63-7484 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Johnson:

Enclosed is a copy of your approved Application for Permit No. 63-7484. We direct your attention to the conditions of approval as listed on the fourth page.

Be sure to note that a special condition requiring you to install and maintain a measuring device at your point of diversion has been placed upon your permit. We are enclosing a letter describing different types of measuring devices accepted by this office.

You should also be aware that if and when this Unnamed Stream is tributary to the Boise River, the delivery of your water would be subject to the control of the Boise River Watermaster. In years of short supply, this would mean there would be no water available to fill your right.

If you have any questions regarding this matter, please let us know.

Very truly yours,

BOBBY D. FLEENOR
