Re: Permits No. 63-7476 & 63-7477

Dear Mr. & Mrs. Morris:

As you will recall, the above referenced permits were issued to you as follows:

Permit 63-7476

Approved 10/19/71 for 0.04 cfs from a well for domestic purposes;
proof of beneficial use due on or before 10/1/76.

Permit 63-7477

Approved 10/19/71 for 0.04 cfs from Beaver Creek for domestic
purposes; proof of beneficial use due on or before 11/1/74.

This office recently received your application for extension of time under permit 63-7477 which lapsed on November 6, 1974. Your application for extension of time states that proof was not made due to the fact that the well has not yet been drilled. You will note above, however, that this permit covers water from Beaver Creek and not a well.

Please advise this office as soon as possible if it was your intention to request an extension of time to complete the Beaver Creek permit.

Sincerely,

D. Darlene Reich

Dear Mr. & Mrs. Morris:

One of the conditions of approval of your water Permit No. 63-7477 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Morris:

Enclosed are copies of your approved Applications for Permit No. 63-7476 and 63-7477. We direct your attention to the conditions of approval as listed on the fourth page, especially that this right is subject to all prior water rights.

On this particular stream, there may not be water available at all times since Beaver Creek is a tributary to the Boise River and in years of short supply, could be controlled by the Boise River Watermaster.

If you have any questions regarding this matter, please contact us.

Very truly yours,
