Dear Mr. Huitt:

One of the conditions of approval of your water Permit No. 63-7461 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

In reply to your letter of September 15, 1971, the water source which we wish to utilize is ground water. Here in South Boise there is an extremely high water table during the summer, and well to the depth of 15 to 17 feet as we plan to have dug would have an ample supply of water for irrigating purposes.

I trust this is sufficient information to enable you to complete processing of the permit.

Sincerely,

Mrs. Timothy C. Huitt

Dear Mr. Huitt:

In the final evaluation of your application for permit, the Department has some questions as to your source of water supply. Under item #2 of the application, you have indicated the source as being seepage water. We would at this time request that you define your source more specifically, such as ground water, waste water, a spring, an unnamed spring, etc.

As soon as we are in receipt of this information, we shall continue with the processing of this permit.
