NOTICE OF APPLICATION
FOR WATER PERMIT
Notice is hereby given that Faye L. & Jerald Tiffany, Route No. 6, Box 222, Nampa, Idaho have on February 3, 1971 submitted Application No. 63-7392 for a permit to appropriate 12.96 cubic feet per second of water from a ground water source by means of well, surface irrigation, pump, and motor within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 27, T. 1N, R. 1W, B.M., Ada County to be used from April 1 to November 1 for the irrigation of 648 acres within all of Sec. 27, T. 1N, R. 1W, B.M.
If issued, this permit will be subject to all prior water rights. Protests against the granting of the permit must be filed with the Idaho Department of Water Administration, Statehouse, Boise, Idaho, 83707, on or before March 8, 1971.

ACTION OF STATE RECLAMATION ENGINEER

I, R. KEITH HIGGINSON, Director of the Dept. of Water Administration, State Reclamation Engineer of the State of Idaho, hereby APPROVE application for amendment for Permit No. 63-7392.

Witness my hand this 3rd day of December, 19 71.

R. Keith Higgins
State Reclamation Engineer

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF CHANGING THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 63-7392

ORDER

WHEREAS, the above numbered permit was approved with the condition that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on July 1, 1978, the Department adopted a new water measurement condition which states: "An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department"; and,

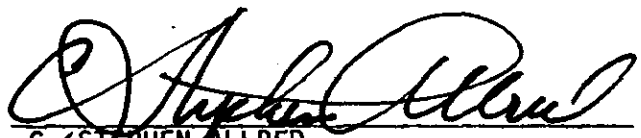

WHEREAS, the former condition required the permit holder to purchase and install a measuring device or hire a professional engineer to certify the rate of diversion; and,

WHEREAS, the measuring device condition effective July 1, 1978, requires less capital expenditure by the permit holder; and,

WHEREAS, to be equitable to holders of permits issued prior to July 1, 1978, the new condition should be retroactive;

NOW THEREFORE, it is hereby ordered that the condition of approval of this permit related to water measurement is hereby changed as follows: "The permit holder shall either install a measuring device or provide a certified measurement by a professional engineer or install an access port or other device as specified by the Department".

Dated this 18th day of August, 1978.

WATER RIGHT LICENSE

License of Water Right No. 63-7392 Priority March 12, 1971 Amount 10.36 cfs
(Late Proof)

THIS IS TO CERTIFY, that Jerry L. Tlucek & Mary Lou Tlucek
of Melba, Idaho, has complied with the terms and conditions of Permit
No. 63-7392 issued pursuant to Application for Permit dated February 3, 1971,
and has submitted proof to the Department of Water Resources on February 2, 1981,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 10.36 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>March 15</u> to <u>November 15</u> at <u>10.36</u> cfs and <u>2893.5</u> acre feet		
	from _____ to _____ at _____ cfs and _____		
	from _____ to _____ at _____ cfs and _____		
	(both dates inclusive)		

Subject, however, to the condition that no more than 10.36 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
2893.5 acre feet per year, said waters to be diverted within the (2 point) Gov. Lot 1,
(NW $\frac{1}{4}$ NW $\frac{1}{4}$) Section 27, Twp 1N, Rge 1W in the County of Ada

Description and location of place of use:

Department of Water Resources

State of Idaho)
County of Ada)

Permit No. 63-7392

Jerry & Mary Lou Thueek of Route #1, Melba, ID
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to
Appropriate the Public Waters of the State of Idaho No. 63-7392.

That under the terms and conditions of said permit, work thereunder was required
to be completed on or before March 1, 19 76.

That he has heretofore performed the following work described under said permit:
Constructed two wells on property and have one equipped with pump and
sprinkling system. Land has been cleared and crops were planted during the
1974-75 growing season.

Costing \$*230,000

That he is unable to complete the remainder of the work within the required time for
the following reasons, to-wit: See attachment

Wherefore, he asks that the Department of Water Resources extend the time for the
completion of obligations under said permit to March 1, 19 81.

R. KEITH HIGGINSON, Director

* IF OTHER THAN HOLDER, Power of Attorney must be supplied. Forms are available
through the Department of Water Resources, State Capitol, Boise, Idaho 83720.

ATTACHMENT

The applicant received assignment of this permit on March 22, 1973. Under this assignment and permit he has proceeded with diligence to construct an adequate irrigation system to irrigate the 648 acres included under it. The applicant has constructed two wells on the property, one of which after pump testing and evaluation proved to be discharging such large quantities of sand it was decided to be unuseable. In May, 1975, the applicant contracted with a professional geologist to locate well sites for an additional well or wells and evaluate the formations encountered during drilling and well testing. He further made arrangements with a well driller to drill the well but because of scheduling problems, was not able to begin drilling until late winter, 1975.

This well has just been completed and pump tested and is entirely adequate to provide water for much of the land included under this permit. However, because of the delay in driller scheduling, the time requirements for well site analysis and delay in equipping the new well with pump and motor, the date of March 1, 1976, for proof of beneficial use is not achievable. The applicant has demonstrated that he has proceeded with diligence, has expended significant money and is proceeding as rapidly as possible. It is, therefore, requested that an extension of time be granted in order that he may equip the new well, and drill and equip a new well in order to provide adequate water for the agricultural development of these lands.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved Date 11-12-92

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY!

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.

SPECIFIC CONDITIONS:

10. THE WELL MUST BE LOCATED AT LEAST 500 FEET FROM ANY EXISTING WELL. WELL SPACING CLOSER THAN 500 FEET MUST BE APPROVED BY THE DEPARTMENT OF WATER RESOURCES PRIOR TO CONSTRUCTION.
11. IF THE WELL IS DRILLED DEEPER THAN 100 FEET, THE SURFACE SEAL MUST CONSIST OF CEMENT OR BENTONITE CLAY GROUT AND EXTEND FROM LAND SURFACE TO A DEPTH OF NOT LESS THAN 75 FEET BELOW LAND SURFACE, OR 5 FEET INTO THE NEXT SIGNIFICANT CONFINING LAYER, WHICHEVER IS GREATER.

RE: Permit No. 63-7392

Jerry L. & Mary Log Tlucek
Route 1
Melba, ID 83641

Dear Mr. and Mrs. Tlucek:

A representative of this Department has made an examination of the works covered by your Permit No. 63-7392, and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 10.36 cfs Source: groundwater

The maximum quantity diverted shall not exceed 2893.5 acre feet per year.

Point(s) of diversion: (2 points) Gov. Lot 1 (NW $\frac{1}{4}$ NW $\frac{1}{4}$) Section 27, Twp 1N, Rge 1W

Beneficial use: Irrigation of 643 acres within NE $\frac{1}{4}$, NW $\frac{1}{4}$, SE $\frac{1}{4}$, SW $\frac{1}{4}$, Sec. 27, Twp 1N, Rge 1W *W - kw*

Priority date established: March 12, 1971 (Late Proof)

Conditions (if any): This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 4.5 afa per acre for the lands above.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

JIM JOHNSON
Water Distribution Supervisor

October 29, 1981

Mr. Dave Shaw
Department of Water Resources
92 South Cole Road
Boise, Idaho 83709

Dear Dave:

Please consider this letter as certified water measurements for wells located on the property of Mr. Jerry Tlucek, Melba, Idaho. These measurements are offered as part of the submission of proof of beneficial use for permit #63-7392. Both wells are located in the NW/4 NW/4, Section 27, T1N, R1W, Boise-Meridian.

Well #1 is equipped with a 400 horsepower General Electric pump motor, serial #BHJ204013. The pump is a vertical turbine, oil lubricated line shaft type installed in a 16 inch diameter well. Total depth of the well is 365 feet below land surface and the pumping level at the time of testing was unable to be determined. Flow was measured in the 16 inch diameter discharge pipe approximately 30 feet downstream from the last fitting or bend in the discharge assembly. The measurement was made using a Collins air/water manometer and the accuracy is considered to be excellent. Flow velocities ranged from 4.7 feet per second to 5.25 feet per second, unusually smooth for such measurements. The measurement was taken with the system operating in a normal mode. The flow, as measured at 2:00 p.m., October 2, 1981 was 6.63 cubic feet per second or 2,984 gallons per minute.

The second well measured is located in the same 40 acre tract and is equipped with a 200 horsepower General Electric pump motor, serial #FNJ615103. This well is also equipped with a vertical turbine, oil lubricated line shaft pump in a 16 inch diameter well. The pumping level in this well also could not be determined during the measurement. Flow was measured in a 12 inch diameter discharge

Page 2

pipe approximately 25 feet downstream from the nearest fitting or bend in the discharge assembly and a Collins air/water manometer was used. Measurement accuracy is again considered excellent and the flow velocity ranged from 4.3 feet per second to 4.9 feet per second. The flow measured at 4:00 p.m., October 2, 1981 was 3.73 cubic feet per second or 1,679 gallons per minute.

Both wells pump into a common 26 inch mainline which irrigates 648 acres of alfalfa ground all located within Section 27, T1N, R1W. It is my understanding that your staff will measure the acreage and proceed with licensing.

If you have any questions or need additional information, please give me a call.

Sincerely yours,

Sheri L. Chapman

Mr. Dave Shaw
Department of Water Resources
Western Division
92 S. Cole Road
Boise, Idaho 83709

Dear Dave:

Please consider this letter as formal submission of proof of beneficial use for Mr. Jerry Tlucek, Route #1, Melba, Idaho 83641 for permit #63-7392. The facilities are all installed and in operating condition and all land contemplated for development under this permit has been put under irrigation. The water produced from the well will be measured as soon as the system is turned on this spring in conjunction with pump efficiency analysis through a program designed to maintain efficiency in the irrigation system. The land measurement, which the Department must do, may be made at any time by contacting Mr. Tlucek for coordination. A certified water measurement will be provided your office as soon as the measurement is made which is anticipated to be the latter part of March or first of April.

If you have any questions or need additional information, please feel free to contact me at any time.

Sincerely yours,

Sherl L. Chapman
Consultant

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. a) Name of Permit Holder Jerry L. & Mary Lou Tlucek
b) Post Office Address Route #1, Melba, Idaho 83641
2. Permit Number 63-7392
3. Date of Priority that you are prepared to establish February 3, 1971
4. a) Source from which water was appropriated Groundwater
b) Location of the point of diversion: NW $\frac{1}{4}$ NE $\frac{1}{4}$, Section 27
Township 1N, Range 1W Boise Meridian, Other points of diversion: NW NW Section 27, T1N, R1W, BM (two points)
5. a) The amount of water and use to which the water has been applied:
Amount 12.96 for Irrigation purposes from March 15 to Nov. 15 incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
Amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
Amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre-feet per annum) (Month-Day) (Month-Day)
b) Total amount appropriated 12.96 cfs cfs and/or acre-feet per annum
c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: in line flow meter and pumping test on wells using orifice plates and monometer
6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:
a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use: N/A
b) Describe the agreement or understanding by which you take water from the works: N/A
7. a) Briefly describe the works for diverting and conveying the water to the place of use, (if from a subterranean source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) Three wells 446, 365 and 371 feet deep. Motor horse power is 150, 400 and 200 HP respectively. Steel and aluminum mainlines for water distribution and aluminum sprinkler lines.
b) Describe the type and size of measuring device which you have installed at your point of diversion: McCrometer in line flow meters and professional measuring by consultant.
c) Give well driller's name and address and the date the well was completed: Hiddleston and Sons, Inc., Mountain Home, Idaho. Wells completed in 1971, 1976 and 1977.
8. If for other than irrigation, describe the beneficial use to which you have applied the water: All irrigation usage.

Mr. Glen Saxton
Department of Water Resources
Western Regional Office
92 South Cole Road
Boise, Idaho 83705

Dear Mr. Saxton:

Recently a representative of your office measured the discharge from wells on my property located in Sec. 27, T1N, R1W. It was my impression that under the laws and regulations of Idaho once the individual well was completed on my property I needed to file proof of beneficial use in order to perfect my water right. Additionally, requirements of the lending institution I am involved with on the property, guided me in that direction. I now find that I do not have to file for proof of beneficial use at this early date and in addition that the measurement made by your examiner did not take into account the full capacity of the pump and system as it is typically operated on that property. I, therefore, formally request by this letter that my original request for proof of beneficial use filed with you be withdrawn and that my permit 63-7392 continue in its unperfected form at this time. It is my understanding that I have on file with you an approved extension of time which requires me to submit proof of beneficial use on or before March 1, 1981.

Thank you for your consideration of this request.

Sincerely yours,

Jerry Tlucek

Re: Permit No. 63-7392

Jerry Tlucek
Route 1
Melba, ID 83641

Dear Mr. Tlucek:

Your request that Proof of Beneficial Use be withdrawn is now being processed.

I would like to point out that in my attempt to examine your water use under Permit No. 63-7392 I was never able to make the discharge measurement of your wells. I was not able to make the measurement because there are no working measuring devices on your system. I remind you that a condition of your permit is that you install and maintain measuring devices at the points of diversion. Thus when ever proof is finally made, installation of measuring devices will be required before a license is issued.

Sincerely,

BILL MACALLISTER
Water Resource Agent

Jerry and Mary Lou Tlucek
Route 1
Melba, Idaho 83641

Dear Mr. & Mrs. Tlucek:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell during which part of the irrigation season this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

If you have any questions regarding the field examination, please contact our Regional Office in Boise.

Sincerely,

JANICE RENK
Water Rights Bureau

Re: Permit No. 63-7392

Jerry L. & Mary Lou Tlucek
Route 1
Melba, Idaho 83641

Dear Mr. & Mrs. Tlucek:

One of the conditions of approval of your water Permit No. 63-7392 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before March 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

JAN 27 1971

Faye L. Tiffany
Route 6
Nampa, Idaho 83651

Dear Mrs. Tiffany:

On November 27, 1970 the Boise District Manager issued an "Initial Decision" favorably classifying the land of your petition I-3229.

According to your plan of development, water for irrigation is to be obtained from a well to be drilled. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Director. Attached is an extra copy of this letter which should be submitted to the Idaho Department of Water Administration at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Director to have a copy of the permit sent to this office. Also please advise us when you apply for a permit.

Until a Notice of Allowance is issued, you do not have any right to undertake development of the land.

We would appreciate receiving a copy of the permit as soon as possible.

Sincerely yours,

TS/ ORVAL G. HADLEY

Nampa, Idaho 83651

Dear Mr. Tiffany:

On November 27, 1970, the Boise District Manager issued an "Initial Decision" favorably classifying the land of your petition I-3236.

According to your plan of development, water for irrigation is to be obtained from a well to be drilled. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Director. Attached is an extra copy of this letter which should be submitted to the Idaho Department of Water Administration at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Director to have a copy of the permit sent to this office. Also please advise us when you apply for a permit.

Until a Notice of Allowance is issued, you do not have any right to undertake development of the land.

We would appreciate receiving a copy of the permit as soon as possible.

Sincerely yours,

ORVAL G. HADLEY

The Idaho Statesman
Box 2640
Boise, Idaho 83701

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Very truly yours,

Donald W. McElidowney
Appropriation Supervisor
