Dear Mr. Troyer:

One of the conditions of approval of your water Permit No. 63-7319 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1975. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Dr. Troyer:

We are returning your personal check in the amount of \$10 and your application for permit. In reviewing your application, we find that you did not include the required map under item 11. We have entered the location of Sec. 6, Twp. 2 N., Rge. 2 W., B.M. on the map. Please indicate where Lot 8 and the 7 acres are located.

We also note that you have claimed 0.22 cubic feet per second of water for irrigation from April 1 to November 1. Under Idaho statutes, the normal maximum legal rate of diversion would be 0.02 c.f.s. per irrigated acre or 0.14 c.f.s. for the 7 acres. We realize that in some cases it is difficult to irrigate smaller tracts of ground with a smaller amount of water; therefore, if you could give us some justification as to your need for additional water it would assist us in analyzing your request. Also, the normal amount of water for a fully automated home is 0.02 c.f.s. or 9 gallons per minute. Your request for 0.05 c.f.s. would be somewhat excessive. In certain cases, by limiting the acre foot per annum to 0.57 acre foot we could allow a larger rate of diversion. If you could explain your needs in connection with the domestic use, it would assist us greatly.

Very truly yours,
