License of Water Right No. 63-7306 Priority March 4, 1970 Amount 0.14 cfs

THIS IS TO CERTIFY, that HENRY NOTEBOOM
of Meridian, Idaho, has complied with the terms and conditions of Permit
No. 63-7306 issued pursuant to Application for Permit dated March 4, 1970,
and has submitted proof to the Department of Water Administration on March 24, 1972,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.79 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use &
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u>	from <u>April 1</u> to <u>Oct. 15</u>	at <u>0.14</u> cfs and	<u>31.5 acre feet or</u>
			<u>4.5 af per acre</u>
	from _____ to _____	at _____ cfs and	
	from _____ to _____	at _____ cfs and	

(both dates inclusive)

Subject, however, to the condition that no more than 0.14 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
31.5 acre feet per year, said waters to be diverted within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 1,

Dear Sirs:

Mr. Henry Noteboom, Meridian, Idaho, is filing an application to drill a well for irrigation purposes. It is my understanding that he is allowed, by state law, one miner inch per acre. However, it would be a great benefit to the City of Meridian to allow Mr. Noteboom at least two inches per acre in order that we may further reduce our extremely high water table.

We have, for some time, had considerable problem with water entering our sewer lines and thereby severely taxing our sewer facilities. Consequently, we have found it necessary to drill other wells in our community for the purpose of lowering our water table.

We hope you can help us with this problem by approving his application for two miner inches of water. If the City of Meridian can be of any assistance please call on us.

Yours very truly,

Don Storey

Gentlemen:

Reference is made to the application for a permit to drill an irrigation well on the Noderbaum property in Meridian, Idaho. The use of this well will assist in the reduction of ground water flowing into the sewers in the Meridian area. The sewers, constructed in the 1930's, had very poor joints and as a result there is a great deal of infiltration into the sewer lines, which results in the bypassing of part of the sewage flow at the sewage treatment plant during the irrigation season.

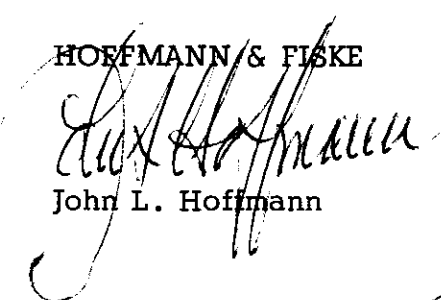

Our office spent two years studying the reduction of infiltration by zone pumping in the City of Meridian in conjunction with the Idaho Public Health and the Federal Water Pollution Control Administration. A copy of our report is on file at the Idaho State Health Department.

The study definitely showed that lowering the ground water below the sewer decreased the flow to the sewage plant. The land to be irrigated from the well is above a drain ditch, so any surplus surface flow will flow into the existing drain ditch.

It is my opinion that the pumping of the ground water for irrigation purposes will aid in the reduction of flow to the sewage plant.

Very truly yours,

RE: Henry Noteboom Well Application

Dear Sir:

In reply to your letter of March 20, 1970, regarding the above matter, I wish to advise that the water from this pump will be used both for irrigation and drainage. Any excess water pumped will flow into a drainage ditch along the boundary of this property. The water will be pumped from this well for short periods of time and part will be used for irrigation purposes and all excess water will go into the drainage ditch.

I believe this fact is stated clearly on the application, but did want to clarify this fact if there should be any question about it.

Your cooperation and assistance is greatly appreciated.

Very truly yours,

Henry Noteboom

Dear Mr. Noteboom:

A representative of this Department has made an examination of the works covered by your Permit No. 63-7306 and has found the following:

Quantity of water diverted: 0.79 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.14 cfs

The maximum quantity diverted shall not exceed 31.5 acre feet per year.

Beneficial use: For irrigation of 7 acres within the NE 1/4, Sec. 1, Twp. 3 N, Rge. 1 W

Point of diversion: NE 1/4, Sec. 1, Twp. 3 N, Rge. 1 W, B.M.

Priority date established: March 4, 1970

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Dear Mr. Noteboom:

It is the responsibility of the Department of Water Administration to provide for just distribution of the water supplies of the State. The Department has been given authority to require water users to install and maintain adequate control works and approved measuring devices (Section 42-701, Idaho Code).

Under this authority, you are hereby ordered to show cause before the Director of the Department of Water Administration on or before September 25, 1972, why Permit No. 63-7306 should not be cancelled and held null and void for failure to comply with the terms and conditions of its issuance. This order is sent under the provisions of Section 42-311, Idaho Code.

You should be aware that in the event the permit is cancelled, due to your failure to show reasonable cause on or before the above date, continued diversion of water would be without permit and subject to legal action.

Re: Permit No. 63-7306

Henry Noteboom
Meridian,
Idaho 83642

Dear Mr. Noteboom:

One of the conditions of approval of your water Permit No. 63-7306 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before May 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

The delivery policy of the District is such that the property has 20.56 inches of water flowing for the season. This is done by means of storage water rights available to the specific property and storage water right owned by the District from Lucky Peak Reservoir.

The above information is furnished pursuant to your telephone request of today. Should it be that the owner is desirous of additional water rights, please refer him to the District. There are times when we have available rights which have been relinquished from our Rental Water Right areas adjacent to the City of Boise.
