WATER RIGHT LICENSE

License of Water Right No. 63-7300 Priority Feb. 13, 1970 Amount 0.04 cfs

THIS IS TO CERTIFY, that W. D. VINCENT
of Meridian, Idaho, has complied with the terms and conditions of Permit
No. 63-7300 issued pursuant to Application for Permit dated February 13, 1970,
and has submitted proof to the Department of Water Resources on September 19, 1974,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.04 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Domestic</u>	from <u>Jan. 1</u> to <u>Dec. 31</u> at <u>0.04</u> cfs and <u>2.4</u> acre feet		
	from _____ at _____ cfs and _____		
	from _____ at _____ cfs and _____		

(both dates inclusive)

Subject, however, to condition that no more than 0.04 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
2.4 acre feet per year, said waters to be diverted within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ of Sec. 5,
Twp. 3 N, Rge. 1 E, B.M. in the County of Ada

Description and location of place of use:

Twp.	Range	Sec.	Section												Totals
			NE $\frac{1}{4}$	NW $\frac{1}{4}$	SE $\frac{1}{4}$	SW $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SE $\frac{1}{4}$	SW $\frac{1}{4}$	NE $\frac{1}{4}$	NW $\frac{1}{4}$	SE $\frac{1}{4}$	SW $\frac{1}{4}$	
3 N	1 E	5	2 families												

Total number of acres irrigated _____

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 10 day of
March, 19 75.

Re: Application Permit 63-7300
W. D. Vincent

Dear Sir:

We will continue to protest Mr. Vincent's application as long as it includes more than the original (1) one mobile home.

Your office notified us earlier that a public hearing would be held regarding this situation, but as yet, this hearing has not been held.

Please advise reason for no public hearing when well has already been dug.

RE: APPLICATION FOR PERMIT
No. 63-7300

Dear Mr. McEldowney:

I would again like to revise my application for ground water use permit based upon my denial by the County Commissioners to approve my proposed mobile home court. I would like to change it to .04 cubic foot per second based upon the use for two mobile homes which have been approved by Ada County Planning and Zoning Commission, as shown by attached copies of approval.

Very truly yours,

RE: APPLICATION FOR PERMIT
NO. 63-7300

Dear Mr. Mc Eldowney:

We are redefining our protest of above subject application since Mr. Vincent has deleted any reference to the use of a federally constructed well located on his property. However, we are still in protest of the application for the following reasons:

1. He is proposing the use of water for multiple domestic purposes on a year-round basis even though the land is zoned for agriculture use only.
2. The application was not made in good faith and is for speculative purposes, i.e., trailer court use. (Please refer to item # 3 in your letter of April 2, 1970.)

We do not object if Mr. Vincent wants to use the water for domestic purposes if it is confined to existing houses, including the trailer house located on the property.

Attn: Donald W. McEldowney

Gentlemen:

In reference to your letter of April 3, 1970, pertaining to the Application for Permit No. 63-7300, the following information is submitted.

The use of the well as set forth in the application was not approved by the State Department of Health and therefore a new well at a site approved by the State Department of Health is substituted for the existing well and the application should be changed as follows:

1. The location should be changed to NW $\frac{1}{4}$, NE $\frac{1}{4}$, Section 5, T.3N, R.1E
2. The purpose of the use of the water in accordance with the recent State law change should now read Multiple Domestic for Mobile Home Court
3. The amount of water to be used should be changed to .5 c.f.s.

For your further information this well is capped and was soldered shut by an employee of the U. S. Department of Reclamation on or about March 15, 1970. Prior to that time to my knowledge it was not soldered shut. Also the water to be used is for multiple domestic purposes, not for irrigation, and for a proposed mobile home court consisting of 24 mobile homes on 6.6 acres only, not the 42 as shown on the original application.

If there is any additional information needed please let me know.

Very truly yours,

WILBUR D. VINCENT

Department of Reclamation

Mr. Keith Higginson
Department of Reclamation
State of Idaho

Dear Mr. Higginson:

We the undersigned, as taxpayers and residents of the State of Idaho, protest W. D. Vincent's application No. 63-7300 to appropriate the public waters of the State of Idaho. We take particular exception to application No. 63-7300 for the following reasons:

Firstly, the water to be appropriated is public and we understand the well to be used in diverting this water is also public, i.e., Bureau of Reclamation owned. Therefore, neither the water nor the well should be used for an individual's personal gain at the expense of taxpayers and residents of the state.

Secondly, application No. 63-7300 proposes the appropriation and diversion of public water by the well for irrigation of 42 acres and trailer court. Since the land Mr. Vincent plans to irrigate is zoned for agriculture purposes only, we feel you have no alternative but to deny application No. 63-7300. In any event, under no circumstances should Mr. Vincent be given the right to use the water and well for domestic and trailer court purposes.

cc: Mr. Harold T. Nelson
Bureau of Reclamation

We object to the uncapping of this well, (already uncapped), for we understand it has a 16" casing which is extremely dangerous for the children in the area. Please advise who is responsible for uncapping of this well prior to processing of Mr. Vincent's application. It appears Mr. Vincent was to have been granted use of this well, (he has already dug trench to well), without consideration of other taxpayers and residents, even though it is not his. We request the well be recapped as soon as possible for it is a dangerous attraction to the children in the area.

We would appreciate hearing from you regarding action to be taken on application No. 63-7300

Meridian, Idaho 83642

Dear Mr. Vincent:

A representative of this Department has made an examination of the works covered by your Permit No. 63-7300 and has found the following:

Quantity of water diverted: 0.04 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.04 cfs

The maximum quantity diverted shall not exceed 2.4 acre feet per year.

Beneficial use: For domestic purposes within the NW $\frac{1}{4}$ NE $\frac{1}{4}$ (2 families)
Sec. 5, Twp. 3N, Rge. 1E

Point of diversion: NW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 5, Twp. 3N, Rge. 1E, B.M.

Priority date established: February 13, 1970

If you do not concur with these findings, please advise us within 10 days; otherwise a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Dear Mr. & Mrs. Arnold:

We are in receipt of the assignment of permit form and proof of beneficial use affidavit submitted on October 24, 1974.

However, we cannot process these forms until the Permit No. is designated on them, since W. D. Vincent has two permits.

Permit No. 63-7300 was filed on February 13, 1970, and Mr. Vincent has recently made proof of beneficial use on it. Permit No. 63-8036 was filed on September 18, 1974, and was approved on October 21, 1974, for .08 cfs of water for domestic purposes.

We are returning the assignment form and proof affidavit to you so that you may designate which one of the permits is involved, and then return the forms to us. Also enclosed are copies of Mr. Vincent's two permits, and the copy of the application you submitted for your records.

If you have any questions concerning this matter, please do not hesitate to contact us.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

Dear Mr. Vincent:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination so that you may show him the system.

If you have any questions regarding the field examination, please contact our District Office in **Boise.**

Sincerely,

D. Darlene Reich

RECEIVED

APR 10 1970

We the undersigned as tax payers, residents of Ada County and Department of Reclamation those living within 1/4 mile of Mr. Vincent's property are protesting his appeal for rezoning (S-2) Suburban District to (R-2) Urban Residential (which was denied) for the following reasons.

1. Water table being extremely high therefore danger of pollution is significant is confirmed by letter from Ada County Health Department dated February 20, 1970 which is attached.
2. We don't feel zoning fits in with the comprehensive plan as stated by guide lines in the zoning ordinance.
3. There is no other land zoned (R-2) Urban Residential in the immediate area.
4. We do not feel that rezoning be granted to satisfy Mr. Vincent's speculation and our personal gain at our expense.
5. To rezone from (S-2) Suburban District to (R-2) Urban Residential when the entire area is agricultural, farms or acreages ranging in size from 5 to 100 acres, is undesirable.

(The below are within 300 ft. of the proposed sight)

Tom Davis - 105 acres - 100 head dairy cattle

Wylie Leighton Sr. - 50 acres

Jim Stogsdill - 35 acres

6. To rezone without stating reason for rezoning or why grant rezone.
7. Enclosed articles point out extreme dangers of pollution from over population in high water table area. Articles also point out need for proper planning for redeveloping new area.
8. At this time we do not feel it is desirable to develop this land.

63-7300

This attached paper contains signatures of people who are protesting appeal which W. Vincent has applied for rezoning (C-2) Suburban District to (R-2) Urban Residential for previous stated reasons.

INCREASED HOUSING in rural-suburban areas require same careful study of land-use as for agricultural planning, say conservationists. Soil surveys can disclose problems such as may be encountered in above scene, where area has severe limitations for septic filter-fields. (Photo by Dry Creek Soil & Water Conservation District)

Problems encountered

Growth of suburban area requires land-use plan

Suburbanization should be recognized as a use of the land just as cropping, say Dry Creek soil conservation specialists.

That, in turn, means that some of the basic facts that guide cropland management also need to be used in guiding suburban land use.

In Ada County there are problems with overflowing septic tanks, flooded basements, cracked walls, and foundation problems. Special interpretations from soil surveys used in guiding cropland-use can be used to point out such problems and limitations for suburban land use.

The Dry Creek Soil Conservation supervisors say that resource information, and the consideration of future needs for land, water and related resources, should guide the planning for proper land use patterns.

Agreement signed

A formal working agreement

was signed between the district and the Ada Development Council to provide for that concept. Under the agreement, the district will provide services to the ADC and its members.

That will include acting as a source of technical assistance and counsel on soil, water and related resources; providing review and comment on re-zones and subdivision plats, etc., when requested.

The plan will also provide assistance in the use of soil survey and natural resource inventory and interpretations, in developing a land use plan consistent with the soil, water, and human characteristics.

County Needs Septic Tank Safeguards

Ada County seems to be headed toward eventually adopting an ordinance controlling development of "septic tank" subdivisions in the county. It won't come too soon.

The Ada Development Council is now in the midst of aerial mapping which eventually will produce an over-all sewer and water plan for the county. It will show where sewer trunk lines could be extended and at what elevations.

Meanwhile, it has been suggested that the Ada County Planning and Zoning Commission require subdividers to make soil tests to determine if a soil can handle a septic tank before they even plat (survey) a proposed subdivision.

Both moves are in the right direction — toward elimination of water pollution and health hazards in Ada County.

With an over-all central sewer plan, the county could require subdividers to connect with central sewer lines when they built around the fringes of Boise or at least put in "dummy" lines pending the extending of sewer trunklines into that subdivision's area.

The over-all plan would tell the subdividers at what depth to put the lines in order to connect with a trunkline.

The soil testing would tell the subdivider, before he had gone to the expense

of surveying and planning his development, just how large lots should be to insure that septic tanks would operate properly.

The county should also consider doing an analysis of soils in the county to determine "critical areas" where septic tank development is questionable.

The ideal situation would be to have all subdivisions served by central sewer and water. Sometimes this ideal is balked by lack of funds to develop trunklines and sewage treatment plants.

The Idaho Legislature now has a bill before it which would bring the state into the sewage treatment business, furnishing state matching funds (25 per cent) with city (25 per cent) to match available federal funds (50 per cent).

Ada County can no longer afford to have areas described by Melvin Alsager, water pollution control chief for the State Department of Health, where raw sewage comes bubbling up to the surface from \$30,000 homes.

Alsager thinks there should be a moratorium on home construction in the hills around Boise using septic tanks until the county's sewer problems are solved. This might be a little drastic, but certainly requiring tests to ascertain that the septic tanks will work would not be out of line.

63-7300

Soil Tests Advocated For Septics

Tests to determine soil quality for septic tank drainage before a new subdivision is even platted in certain "critical areas" in the county were proposed Thursday.

James Jenkins, program director for the City-County Health Department, made the proposal at a special hearing the Ada County Planning and Zoning Commission.

The hearing concerned a possible hillside ordinance regulating the development of the hills in the county.

Jenkins said such tests would show a developer before he went to the expense of surveying and making a plat for a subdivision just how big a lot would be needed to allow for proper drainage of septic tanks.

County Planning Director Joseph Conner said such tests could be required at a pre-submission conference held by the county before a subdivision is submitted to the commission.

The percolation tests would be either required or a letter from the city-county Health Department saying the development is in a "safe" area of the county.

Jenkins' suggestion was made after Melvin Alsager, water pollution control chief for the State Department of Health, suggested the hillside ordinance include a "moratorium" on any building on hillsides which would not be served by central water and sewer.

Alsager said there are areas in Boise where sewage comes bubbling up to the surface from \$30,000 homes.

"You can build in all the aesthetics you want but when your child is playing with frozen sewage it makes you think twice," he said.

Prohibiting indoor plumbing (septic tanks) and water would be a good start in controlling these problems, he said.

Conner replied that he had had equal pressure to forbid any development in flat agricultural lands in the county.

Helen Sharp
N.E. of City
Meridian, Idaho 83642

Dear Ms. Sharp:

Mr. W. D. Vincent, applicant, has filed an amendment to his application deleting any reference to the use of a federally constructed well located on his property. He now proposes to develop a new well. Mr. Vincent has also deleted any irrigation from his application and proposes to use only 0.50 c.f.s. of water for multiple domestic purposes on a year round basis.

With these modifications to the application, many of your points of protest may have been satisfied. You are hereby requested to re-evaluate your protest and take one of the following steps:

1. Withdraw the protest entirely
2. Redefine your protest and resubmit it within 10 days of this letter
3. Advise the department within 10 days of the date of this letter that you wish to maintain your protest as originally submitted.

If you require clarification on the above matters, please contact us immediately.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

63-7300

April 3, 1970

Re: Application for Permit No. 63-7300

Mr. W. D. Vincent
Route 2
Meridian, Idaho 83642

Dear Mr Vincent:

We have enclosed a copy of the protest filed against the issuance of a permit pursuant to your application No. 63-7300 by Helen Sharp, John Schey, V. L. Holladay, F. O. Sharp, E. D. Cooper, Mr. & Mrs. Finis Thomas, Gordon Wood, William T. Vaughn and Shirley Schey. You should be aware that the following are items which, under Sections 42-203 of the Idaho Code, we can consider at a hearing in either approving or denying an application:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources to complete the project?

The Department cannot allow a permit for irrigation purposes which would entail the use of more than a continuous flow of 0.02 cubic feet per second of water or an annual amount of 5 acre feet of water per acre of land unless the applicant can show that more is required due to soil or climate conditions. (Sec. 42-202, Idaho Code).

63-7300

Page 2
Mr. W. D. Vincent
Re: 63-7300
April 3, 1970

The waters intended to be appropriated must be public water of the State of Idaho or if private waters, as defined under Sec. 42-212, Idaho Code, the applicant must have authority from the owner of the land on which the water lies to divert the water.

The Department of Reclamation may reject an application for permit or may partially approve or grant the permit upon special conditions.

A permit issued by this office is subject to all prior water rights and does not in any way convey or establish right-of-ways over private or governmental lands. Right-of-ways or easements must be obtained by the applicant through action outside of the water right proceedings.

You will be notified at a later date as to the time and place set for a conference and/or hearing to discuss the matters of protest. Legal counsel is not mandatory at any proceeding before the Department, although you may desire to employ an attorney in your behalf.

If we can be of further assistance, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Helen Sharp
N.E. of City
Meridian, Idaho 83642

Dear Madam:

We are in receipt of your protests concerning the above referenced application for permit. The following are items which, under Section 42-203 of the Idaho Code, can be considered at a hearing in either approving or denying an application:

1. Will the proposed use reduce the quantity of water under existing water rights?
2. Is the proposed water supply insufficient for the purposes intended?
3. Is the application made in good faith or for delay or speculative purposes?
4. Has the applicant sufficient financial resources with which to complete the project?

Please bear in mind that the State Reclamation Engineer may reject such application and refuse issuance of a permit, he may partially approve the permit, he may approve the permit for a quantity of water less than applied for, or he may approve the permit subject to special conditions.

A permit issued by this office does not in any way convey or establish a right-of-way over private or governmental lands. Right-of-ways or easements must be obtained by the individuals concerned through action outside of the water right proceedings.

MEMORANDUM

June 30, 1970

From: Steve Allred

A conference was held on June 26, 1970, in the office of the Department of Reclamation. At that conference, the application was discussed, and after the discussion the protestants agreed to withdraw their protests in that they did not feel that they could sustain a protest on the points prescribed by law.

It appeared that they were concerned that the application, if approved, might open up the way to the establishment of a commercial trailer court. The protestants were informed that the application only provided for domestic purposes for two trailer houses and could not be changed to provide for a commercial enterprise.

Letters were sent confirming withdrawal of the protests, and I feel that the application should now be approved.

Mr. F. D. Sharp
Route #2
Meridian, Idaho 83642

Dear Mr. Sharp:

At our conference on June 26, 1970, regarding the above-numbered Application for Permit, you indicated verbally that you were withdrawing your protest.

This letter is to confirm your desire to do so and to inform you that we are taking action to approve the Application of Mr. Vincent for 0.04 cfs for domestic purposes for two families.

If you have any questions, please contact me.

Very truly yours,

C. STEPHEN ALLRED
Deputy State Reclamation Engineer

BEFORE THE STATE RECLAMATION ENGINEER
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR)
PERMIT NO. 63-7300 in the name of)
W. D. VINCENT)

NOTICE OF CONFERENCE
AND/OR HEARING ON PROTEST

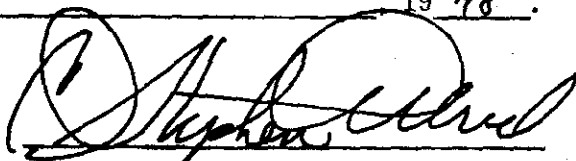

On February 13, 1970, W. D. Vincent, Meridian, Idaho, filed with the Department of Reclamation an application to appropriate the public waters of the State of Idaho. On April 9, 1970 and again on May 1, 1970, the aforementioned application was revised. On March 11, 1970, the Department of Reclamation received a protest filed by the following individuals: Helen Sharp; V. L. Holladay; F. O. Sharp; Gordon Wood; Wm. T. Vaughn; Shirley Schey; John Schey; Mr. & Mrs. Finis Thomas; and E. D. Cooper all of Meridian, Idaho. Again on April 21, 1970 and June 11, 1970, revised protests were received. The last protest listed the following as protestants: V. L. Holladay; Hulda Holladay; Wm. T. Vaughn; Mr. & Mrs. Finis Thomas; Mr. & Mrs. Gordon Wood; Helen Sharp; E. D. Cooper; and F. O. Sharp all of Meridian.

The Department of Reclamation has set the matter of protests for conference and/or a hearing on June 26, 1970, at 3:00 p.m., at the office of the Department of Reclamation, Statehouse Annex #2, Boise, Idaho. Any hearing will be held in accordance with the Rules of Practice and Procedure of the Department of Reclamation. Opportunity shall be afforded all parties to respond and present evidence and argument on all issues involved.

Any party may request in writing five (5) days before any hearing that the oral proceedings thereof be taken in the form of stenographic notes. Any party may have such stenographic notes of the oral proceedings, or part thereof, transcribed at his own expense. A taped record of the proceedings will be maintained for the appeal period.

Failure to appear at the time and place set for hearing by the applicant or protestants may allow the Department of Reclamation without prejudice to dismiss the protests or the application. Any and all cost incurred by reason of such non-appearance may be assessed against such non-appearing parties.

Dated this 15th day of June 19 70.

C. STEPHEN ALLRED
Deputy State Reclamation Engineer

Mailed this 15th day of June, 1970, to W. D. Vincent, Route 2, Meridian, Idaho (copy of protest included) certified mail No. 21966; V. L. Holladay, Meridian, Idaho, certified No. 21967; Hulda Holladay, Meridian, Idaho, certified No. 21968; Wm. T. Vaughn, Meridian, Idaho, certified No. 21969; Mr. & Mrs. Finis Thomas, Meridian, Idaho, certified No. 21970; Mr. & Mrs. Gordon Wood, Meridian, Idaho, certified No. 21971; Helen Sharp, Meridian, Idaho, certified No. 21972; E. Dear Mr. & Mrs. Davis:

Enclosed we are returning your protest submitted in connection with the above referenced application for permit received in our office on March 13th.

Please be advised that the protest cannot be accepted unless it is signed.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

DWM:DR
Enclosure

63-7300

March 10, 1970

RECEIVED

R. Keith Higginson
State Reclamation Engineer

Dear Mr. Higginson:

We are protesting the application of W.D. Vincent for ownership of United States Bureau of Reclamation well for use for irrigation and domestic purposes for trailer court.

Mr. Vincent receives adequate water for irrigation of his 42 acres from the Nampa, Meridian Irrigation District. We feel this well is too costly since it is a 18 inch well to be given to Mr. Vincent for his own personal gain for a trailer court, since tax payers money has paid for this well.

The water table has raised 4ft. in the last ten years and it might be risable for the Bureau of Reclamation to pump this well to lower the water table in the area. We feel our protest should be considered since this is a large well and much too costly to just be given away.

Sincerely,

Mr. and Mrs. Tom E. Davis

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid.

(Signature of the claimant)

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

63-7300*

NOTICE OF APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF IDAHO

Notice is hereby given that W. D. Vincent, Route 2, Meridian, Idaho,
has on February 13, 1970,
submitted Application No. 63-7300 to appropriate the public waters of
a groundwater source.

The proposed uses are .8 cfs for irrigation from April 1 to Nov. 1 and .09 cfs
for domestic purposes from Jan. 1 to Dec. 31

The application proposes a maximum diversion and appropriation of .89
cubic feet per second ~~666/666~~ of water to be diverted by well
within the NW 1/4 of Sec. 5,
T. 3N, R. 1E, B.M., Ada County,

and is to be used within the W 1/2, Sec. 5, T. 3N, R. 1E, B. M. for irrigation
of 42 acres and trailer court

Any permit issued pursuant to this application will be subject to ALL PRIOR
WATER RIGHTS and subject to the CONTROL OF A STATE WATERMASTER. Any protest
against this application must be filed with the Idaho Department of Reclamation on
or before March 23, 1970.

R. KEITH HIGGINSON

State Reclamation Engineer
