THIS IS TO CERTIFY, that S. Emer Wood &/or Sylvia Jean Wood
of 255 Cresent Dr., Kelso, WA, has complied with the terms and conditions of Permit
No. 63-7224 issued pursuant to Application for Permit dated May 19, 1969,
and has submitted proof to the Department of Water Resources on July 29, 1976,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of .04 cfs of water from Gambriness Creek,
tributary to Mores Creek, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. G37224.

That under the terms and conditions of said permit, work thereunder was required to be completed on or before _____, 19 ____.

That he has heretofore performed the following work described under said permit:

I have installed portable pump and part of the plumbing for my vacation home. I planted lawn, however, it winter killed because I didn't use seed that would withstand extreme winter cold & will have to be re-seeded costing \$ 500.00

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: I built new home at Eagle, Idaho and haven't had time to complete work at cabin. My present water pump isn't adequate so I need to purchase larger pump, and need more time to properly complete the water system

Wherefore, he asks that the Department of Water Administration extend the time for the completion of obligations under said permit to Aug. 1, 19 76.

Re: Permit No. 63-7224

Dear Mr. & Mrs. Wood:

One of the conditions of approval of your water Permit No. 63-7224 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before AUGUST 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. & Mrs. Wood:

Enclosed is a copy of your approved application for permit 63-7224 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

You will note that the restriction has been placed upon your permit that whenever, in the opinion of the department, the source from which you wish to appropriate appears to be tributary to the Boise River or any of its tributaries you may be required to cease the use of the water until all prior rights have been satisfied. The basin from which you are attempting to appropriate water lies within State Water District 12A, Boise River, of the State of Idaho. The watermaster of that district will have authority to order you to cease using the water. You should be aware that the availability of water at your location is open to question and that you should take this into consideration in planning your development. We have decided to continue issuing permits in the area with the idea that if there is water available for even a portion of the early spring and summer months that new appropriators should have a change to use that water.

If you have any questions or do not understand the above conditions, I would be most happy to discuss the situation with you.

Very truly yours,

C. Stephen Allred, Assistant
State Reclamation Engineer
