Standard Oil Company of California (Standard) hereby makes a written request for a temporary Water Appropriation from the State of Idaho, Department of Water Administration. We have an agreement with the owner of a water well agreeing to allow Standard to take limited quantities of water for use in connection with our exploratory drilling operations to be conducted in Section 24, Township 6 North, Range 5 West, B.M., Payette County, Idaho. For your information, we are enclosing a copy of the agreement with the water well owner and a copy of our approved State drilling permit covering our exploratory drilling operations.

In connection with the attachments, the following pertinent information is noted:

1. Standard will require approximately 300 barrels of water per day (42 gallons per barrel or a total of approximately 12,600 gallons daily).
2. Standard will require the water for approximately 150 days. We expect to commence taking the water between December 1 and 15, 1972. You will be advised of the actual date such taking commences.
3. The well from which the water is to be taken is located in Section 23, Township 6 North, Range 5 West, B.M., Payette County, Idaho. The owner is Mr. E. RAY OBENDORF.
