Dear Mr. Jackson:

This letter is to advise you that the requirement to install and maintain a measuring device at your point of diversion is hereby relieved. This has been done with the understanding that you will install your storage tank in such a way that either our office or the Boise River watermaster can determine the water level in the tank for measurement purposes.

If we can be of any further assistance, please contact us.

Very truly yours,

C. Stephen Allred, Deputy

Mr R. Keith Harrison

I am installing my water line. I have laid drain pipe down on bed rock so as to catch the water that comes down in the summer. Rocky gulch goes dry shortly after the snow melts and there is no water at all on the surface.

I'm taking off from the tank with a $1\frac{1}{2}$ " line for 300' then to an $1\frac{1}{4}$ " line to the house. Do I have to install a meter for this small line hooked up to a spring.

Very truly yours
