NOTICE OF APPLICATION
FOR WATER

Notice is hereby given that Arves L. Christensen has on August 21, 1967 applied for permit to (divert) 5.0 (cubic feet per second) of water from a subterranean source under application No. 63-7019. Water will be diverted by a well and pump within the NE1/4NW1/4, Sec. 12, T. 6 N, R. 5W, B.M., Payette County and is to be used from April 1 to October 15 for irrigation in SE1/4NW1/4, Sec. 1, T. 6 N, R. 5W, B.M. 4/4

Any protest against this application must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

INTER-DEPARTMENT MEMO — 1

FROM BOB HAMILTON

DATE July 3, 1973

TO BOB FLEENOR

SUBJECT Permit No. 63-7019, A. L. Christensen, assigned to Water Resource Bd.

Mr. Christensen called and said he had been advised by the meter company that the pressure he was working under would blow the meter off the line, therefore, I advised him to request a waiver to the measuring device requirement and our examiner would use a pressure gage to determine the amount of water to be used.

MICROFILMED

*Jim, can you

ACTION OF STATE RECLAMATION ENGINEER

I, JACK A. BARNETT, Deputy, State Reclamation Engineer of the State of Idaho, hereby approve the above application for amendment for permit 63-7019.

Witness my hand this 10th day of December, 1968.

Jack A. Barnett
Deputy State Reclamation Engineer

State of Idaho
Department of Water Resources

WATER RIGHT LICENSE

License of Water Right No. 63-7019 Priority August 21, 1967 Amount 4.80 cfs

THIS IS TO CERTIFY, that ARVES L. CHRISTENSEN
of Bancroft, Idaho, has complied with the terms and conditions of Permit
No. 63-7019 issued pursuant to Application for Permit dated August 21, 1967,
and has submitted proof to the Department of Water Resources on October 27, 1972,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 4.80 cfs of water from a ground water source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
Irrigation	from <u>April 1</u> to <u>Oct. 15</u>	at <u>4.80</u> cfs and	<u>1,440 acre feet or</u> <u>4.5 af per acre</u>
	from _____ to _____	at _____ cfs and	_____
	from _____ to _____	at _____ cfs and	_____

(both dates inclusive)

Subject, however, to the condition that no more than 4.80 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
1,440 acre feet per year, said waters to be diverted within the NW¹₄SW¹₄ of Sec. 1,
Twp. 6 N, Rge. 5 W, B.M. in the County of Payette

Description and location of place of use:

Twp.	Range	Sec.	NE ¹ ₄				NW ¹ ₄				SW ¹ ₄				SE ¹ ₄				Totals
			NE ¹ ₄	NW ¹ ₄	SW ¹ ₄	SE ¹ ₄	NE ¹ ₄	NW ¹ ₄	SW ¹ ₄	SE ¹ ₄	NE ¹ ₄	NW ¹ ₄	SW ¹ ₄	SE ¹ ₄	NE ¹ ₄	NW ¹ ₄	SW ¹ ₄	SE ¹ ₄	
6 N	5 W	1							40	40	40	40	40	40					240
		12					40	40											80

Total number of acres irrigated 320

NOTE: Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho Law. This right may be forfeited by five years of non-use.

The right to the use of the water hereby confirmed is restricted and appurtenant to the lands or place of use herein described, as provided by the laws of Idaho.

Witness the seal and signature of the Director, affixed at Boise, Idaho, this 24 day of
December, 19 75.

CERTIFIED MAIL
Return Receipt Requested

AUG-1-5-1967

Arves Lauritz Christensen
P. O. Box 476
Bancroft, Idaho 83217

Dear Mr. Christensen:

On July 6, 1967, the Boise District Manager issued an "initial decision" classifying the lands included in your desert land petition-application as suitable for entry under the desert land act. The decision also stated that no entry would be allowed until satisfactory evidence of an available and adequate supply of water was submitted. Under this classification you are offered the opportunity to apply for a special land use permit to drill a well in order to obtain the necessary evidence of a water supply for irrigation.

Attached are application and stipulation forms and an instruction sheet. Please carefully read and comply with the requirements in the instruction sheet.

PLEASE NOTE: The application and stipulation forms must be completed in duplicate and sent or taken to the District Manager, Bureau of Land Management, 230 Collins Road, Boise, Idaho 83702, within 30 days from receipt of this letter.

If the application, stipulation, fees, rental and bond are not received by the District Manager within the 30 days allowed, we will assume that you are not interested in drilling a well. Your application will then be considered as rejected and will be closed without further notice.

If a well is not drilled or is unsuccessful during the period the permit is in effect, your application will automatically be considered as rejected when the permit expires.

You must also obtain a State water appropriation permit from the State Department of Reclamation to drill the well. Attached is an extra copy of this letter. The copy should be submitted to that office when you apply for a permit. Unless they have knowledge that the land in your desert application has been classified as suitable for entry, they may decline to issue the water permit. You should arrange with the State Reclamation Engineer to have a copy of the issued permit sent to this office.

Sincerely yours,

7/27 ORVAL G. HADLEY

Re: Permit No. 63-7019

Dear Mr. Christensen:

Enclosed you will find an Order which removes the measuring device requirement from the above referenced permit. A representative of this Department has made an examination of the works covered by this permit and has found the following:

Quantity of water diverted: 4.80 cfs Source: ground water

Amount of water that can be recognized as beneficially used under
Idaho law: 4.80 cfs

The maximum quantity diverted shall not exceed 1,440 acre feet, or
4.5 acre feet per acre, per year.

Point of diversion: NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 1, Twp. 6 N, Rge. 5 W, B. M.

Beneficial use: Irrigation of 320 acres within the S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$,
Sec. 1; N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 12; Twp. 6 N, Rge. 5 W, B. M.

Priority established: August 21, 1967

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

BOBBY D. FLEENOR
Chief, Water Rights

BDF:DR
Enclosure

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF REMOVAL OF THE MEASURING
DEVICE REQUIREMENT FOR PERMIT NO. 63-7019
in the name of ARVES L. CHRISTENSEN

ORDER

WHEREAS, on August 21, 1967, Arves L. Christensen applied to the Department of Water Resources (formerly the Department of Reclamation) for a permit to appropriate 5.00 cubic feet per second of groundwater to be diverted from a point within the NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 12, Twp. 6N, Rge. 5W, B.M., Payette County, to be used for irrigation purposes; and,

WHEREAS, on November 13, 1967, the Department approved said application and issued Permit No. 63-7019 with the conditions that proof of construction of works and application of water to beneficial use be submitted to the Department on or before November 1, 1972, and that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works; and,

WHEREAS, on October 27, 1972, the Department received the required proof of beneficial use; and,

WHEREAS, on May 21, 1973, the Department conducted a field examination of the works covered by the permit; and,

WHEREAS, on July 3, 1973, Mr. Christensen submitted a request that the measuring device requirement under the permit be removed; and,

WHEREAS, on May 20, 1975, the Department made a re-examination of the permit; and,

WHEREAS, it has been determined by the Department that a measuring device is not required at this time for a determination of the quantity of water appropriated under said permit;

IT IS, THEREFORE, HEREBY ORDERED that the condition of approval that a measuring device of a type approved by the Department be permanently installed and maintained as part of the diverting works, be and is, REMOVED from Permit No. 63-7019.

Dated this 10 day of December, 1975.

INTER-DEPARTMENT MEMO — 1

FROM Glen Saxton

OCT 9 1975

DATE Oct. 8, 1975

TO Bob Fleanor

Department of Water Resources

SUBJECT Permit No. 63-7019

Please review the enclosed correspondence and note the lack of any positive action that has taken place since July 3, 1973.

The letter from Mr. Christensen, dated July 3, 1973, essentially asks that the measuring device requirement be removed. Note that the correspondence shows that Mr. Christensen has attempted to install the required measuring device, but due to unusually high pressure was not able to install a functioning meter.

I recommend that the measuring device requirement be removed even though the rate of diversion is beyond the recommended standard and that the license be issued to clear up this matter.

GLEN SAXTON

MICROFILMED

TO: Ken Foit

DATE: August 11, 1975

FROM: Ervin Ballou

SUBJECT: 63-7019 Removal of Measuring
Device Requirement

On May 20, 1975 I contacted Mr. Christensen to complete the examination on this irrigation system. Prior to that time I had been advised by Mr. Christensen that a waiver of the measuring device requirement had been requested in 1973.

He had attempted to install in-line meters without success and the people handling the meter advised him that the pressures were too great for the meter to function properly.

I completed the examination by using pressure readings at the heads. See field report. My inspection corresponded closely with the designed capacity of the system and Mr. Christensen was satisfied with the results.

As far as I can see he has an efficient system which at the present time is operating at maximum capacity.

Re: Permit No. 63-7019

Department of Water Administration
Statehouse--Annex 2
Boise, Idaho 93707

Dear Sirs:

I have received a copy of your letter dated June 11, 1973 to the Idaho Water Resource Board. Since receiving the letter, I have purchased a water meter from Parma Water Lifter Company but this meter has not been installed. The people at Parma Water Lifter's have advised me that it will be of no value to put the meter in the line because of the extreme pressure involved. Our pressure ranges approximately 120 psi to 150 psi and the meters available will not stand this type of pressure.

After reviewing the situation with Keith Vickers of Parma Water, he contacted Mr. Bob Fleener (sp?) of your office who advised him that I should call him and then file a letter requesting a deferral of the particular requirement (i.e. water meter).

I called the morning of July 3rd and was advised that other methods of water measuring were available to your department and I should file a request for a different method of water measurement.

At this time, I would appeal to you to use a more practical method of water measure than a meter would be in this case.

I hope this will expedite this matter, as the new owner of this farm, I am quite concerned about the license for my well.

Thank You

Lauritz Christensen
Rt. 2 Box 202
Parma, Idaho 83660

Erw.:

Please give me

CERTIFIED MAIL

Re; Permit No. 63-7019

#24585

Idaho Water Resource Board
Capitol Building
Boise, Idaho 83702

Gentlemen:

On May 21, 1973, this office inspected the water diversion works and place of use as described in Permit No. 63-7019. Our examiner found no measuring device of a type approved by the Department installed as part of your diverting works. Such a measuring device is an express condition which must be met prior to approval of a license for your permit.

As you may be aware, your water right cannot be confirmed by the issuance of a license unless all of the conditions of approval are met. In the event that a license is not issued and the permit lapses, further diversion of water under the permit would be illegal.

You are, therefore, hereby ordered to show cause, if any there be, before the Director of the Department of Water Administration, 614 State Street, Boise, Idaho, on or before July 11, 1973, as to why Permit No. 63-7019 should not be lapsed for failure to complete the requirements under said permit.

If you have any questions, please feel free to contact this office.

Very truly yours,

A. KENNETH DUNN
Deputy Director

PROOF OF APPLICATION OF WATER TO BENEFICIAL USE

1. a) Name of Permit Holder Idaho Water Resource Board
b) Post Office Address Capitol Building, Boise, Idaho 83707
2. Permit Number 163-7019 (G-42008)

3. Date of Priority that you are prepared to establish August 21, 1967

4. a) Source from which water was appropriated Subterranean

b) Location of the point of diversion: NW 1/4 SW 1/4, Section 1
Township 6 North, Range 5 West, Boise Meridian, Other points of diversion:

5. a) The amount of water and use to which the water has been applied:

amount 5.35 cfs or irrigation purposes from March 15 to Nov. 15 incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)

amount 5.35 cfs for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)

amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Month-Day) (Month-Day)

b) Total amount appropriated 5.35 cfs and/or acre feet per annum

c) Describe how and by whom measurement of rate of flow or amount of storage was made and the qualifications of the person making the measurement: _____

flow estimated (18 laterals @ 135 gpm).

6. If the means of diversion and conveyance are owned by someone other than the Permit Holder:

a) Give the name or description of the canal, ditch or other works by which the water is conducted to the place of use: Well, pump and motor owned by Arves L. Christensen but mortgaged to permit holder.

b) Describe the agreement or understanding by which you take water from the works: _____
Not applicable.

7. a) Briefly describe the works for diverting and conveying the water to the place of use, (If from a subterranean

source, give the pump size, motor size, size of well casing, depth of well; if from surface water, give brief description of diversion structure and/or canal or ditch) 2400 gpm - 250 hp + 60 hp booster; casing size 16", depth of well 354 ft

b) Describe the type and size of measuring device which you have installed at your point of diversion: _____
Badger water meter - 10 inch.

c) Give well drillers name and address and date the well was completed _____
Pete Cope, Pete Cope Drilling Co., P. O. Box 561, Meridian, Idaho 83642. Date well was completed April 1970.

Exam typed 11-8-72 by AK

63 7019

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use _____

9. Irrigation uses: Describe the lands irrigated by giving the acreages irrigated within each 40 acre subdivision: _____

TWP.	RANGE	SEC.	NE¼				NW¼				SW¼				SE¼				TOTALS
			NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼	NE¼	NW¼	SW¼	SE¼

Re: Permit No. 63-7019

Idaho Water Resource Board
Statehouse
Boise, Idaho 83707

Gentlemen:

One of the conditions of approval of your water Permit No. 63-7019 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

MEMORANDUM

TO: Board Members

FROM: Robert R. Lee, Director

SUBJECT: Arves Christensen Project

This memorandum is to alert you of a protest we have received in regards to the Board's commitment of a loan to Arves Christensen. Mr. Stanley Nelson, a farmer in the Parma area who has the present grazing rights on the lands where Mr. Christensen's desert entry is located, is disturbed with the Board's commitment to Mr. Christensen for a loan for development of this land. He has contacted us concerning this matter. His real concern is that this desert entry filing interferes with his grazing rights on these lands. He supports his objection with the argument that these lands are not suitable for irrigated agriculture. Because of his interest in these lands, he is determined to do all that he can to prevent Mr. Christensen from development of his desert entry. He has threatened a lawsuit if necessary and also has contacted Representative Walt Little.

We have met with Mr. Nelson and explained to him the conditions upon which the loan has been committed and the facts upon which our staff analysis was made, indicating that the land does have potential as agricultural land. This did not satisfy him, however. We, as a staff, are reevaluating our staff analysis and have indicated to Mr. Nelson that if he can present to us any technical information which would indicate that the information we have is in error, we would be more than willing to review it and reanalyze the project.

We have contacted the Bureau of Land Management to determine upon what basis they classified this land as suitable for irrigation. When the desert entry was first applied for, the BLM approved the desert entry upon conditions that water could be made available to the land. When Mr. Christensen drilled the well and found that water was there and available, they approved the desert entry application. At that time, notification was sent out to all interested parties concerning the allowance of this desert entry. The Smith brothers had the grazing rights on this land, and no protest was received from them. It was at a later date that Mr. Stanley

November 28, 1969

Nelson purchased these grazing rights from the Smith brothers, possibly not knowing the land was approved for desert entry.

All of the basic information which we have gathered pertaining to this desert entry indicates that a successful farming operation can be developed. The Bureau of Land Management determined that of the 320 acres, there are 300 acres suitable for farming. The Soil Conservation Service soils information on these lands and our farm budget analysis show that a profitable operation is possible. Some limitations exist, but under proper management these limitations do not preclude the possibilities of a successful farming operation. If any new evidence is brought forward which would alter the staff analysis that has been made, we will inform you of this.

Sincerely yours,

ROBERT R. LEE
Director

 GOVERNOR'S SPECIAL REPRESENTATIVE

CHRISTENSEN LOAN APPLICATION (REVISED)

Note: The previous presentation of this application, at the September 12 Board meeting, included farm budgets for a crop rotation including alfalfa seed as a major crop. Due to the uncertainties associated with seed production, the farm budgets have been revised for a more conservative rotation of grain, alfalfa, pasture and beets. Power costs have also been detailed and revised.

*Check on
Application
Status*

Sprinkler System Costs:

Well drilling and development	\$ 8,000
Pumps, motors, and electrical	19,000
Mainline and fittings	10,300
Portable laterals	19,000
Land preparation and contingencies	<u>3,700</u>
TOTAL	\$60,000 (\$187/acre)

Annual Costs @ 6% interest (St. line basis):

Mainline, 50 years	\$ 653
Pumps and motors, 15 years	1,980
Laterals, 20 years	1,680
Power Cost	3,743
O & M	<u>500</u>
TOTAL	\$8,556 (\$26.70/acre)

Proposed Security (2nd Mortgages):

160-acre farm, Bancroft	\$ 15,000
320-acre farm, Bancroft	45,000
Service station, Bancroft	10,000
Service station, Soda Springs	30,000
Project facilities	<u>40,000</u>
TOTAL	\$140,000

Farm Budget Estimates and Repayment Capacity (for cattle and sheep operation, based primarily on SCS figures):

Year 1

Barley, 80 acres @ \$8.94	\$ 715
Alfalfa, 80 acres @ \$19.47	1,558
Pasture, 80 acres @ \$7.40	592
Beets, 80 acres @ \$88.56	<u>7,085</u>
Repayment Capacity	\$9,950
IWRB Loan Repayment	<u>8,400</u>
Net Return	\$1,550

Year 2

Gaines wheat, 80 acres @ \$29.60	\$ 2,368
Alfalfa, 80 acres @ \$19.47	1,558
Pasture, 80 acres @ \$24.80	1,984
Beets, 80 acres @ \$88.56	<u>7,085</u>
Repayment Capacity	\$12,995
IWRB Loan Repayment	<u>10,900</u>
Net Return	\$ 2,095

Year 3-7

Grain, average, 80 acres @ \$19.27	\$ 1,542
Alfalfa, 80 acres @ \$19.47	1,558
Pasture, 80 acres @ \$42.20	3,376
Beets, 80 acres @ \$88.56	<u>7,085</u>
Repayment Capacity	\$13,561 (\$42.30/acre)
IWRB Loan Repayment	<u>11,400</u>
Net Return	\$ 2,161

Note: For the conservative crop rotation shown, the payout period is necessarily lengthened from five years as shown on the previous analysis to seven years. Idaho First National Bank, as shown by the attached letter, has indicated a willingness to participate to a limited extent in the loan, under certain conditions. Due to the undetermined extent of their participation at this time, the following benefit/cost analysis is on the basis of the entire loan at 6%. A higher interest rate on any portion of the loan would, of course, reduce the relative attractiveness of the project. It should be remembered, however, that the conservative cropping rotation used here will most likely be replaced by one yielding higher net returns than shown in this analysis.

Benefit/Cost Analysis:

Average Annual Costs, 6% Interest (year 3 and after):

Wells and irrigation system	\$ 4,313
Power	3,743
O & M (system only) and taxes	1,300
Grain production	7,317
Alfalfa production	6,710
Pasture production	9,424
Beet production	<u>20,755</u>
TOTAL	\$53,562

Average Annual Benefits:

Grain sales	\$ 8,854
Alfalfa sales	8,228
Livestock income	12,800
Beet sales	<u>27,840</u>
TOTAL	\$57,722

Benefit/Cost Ratio = 1.08 to 1

Summary:

This project meets all the qualifications of the development fund legislation as follows:

- a. The project does not conflict with the State Water Plan as presently formulated, but rather helps meet the objective of bringing arid land into production.
- b. The project is sound from an engineering standpoint and has a favorable benefit/cost ratio (1.32:1).
- c. The proposed plan for development has been carefully developed and appears sound.
- d. The applicant appears qualified and responsible.
- e. The applicant has provided reasonable assurance of loan repayment ability.
- f. The revolving fund contains adequate monies to satisfy the \$60,000 loan request.
- g. The request being under \$100,000 does not require legislative approval.

Mr. Christensen's application is, therefore, presented to the Board for their consideration of a loan commitment.

RESOLUTION

WHEREAS, Mr. Arves L. Christensen has applied to the Idaho Water Resource Board for a loan to construct facilities for the irrigation development of a 320-acre desert entry near Nyssa in Payette County, Idaho, and;

WHEREAS, the Idaho Water Resource Board staff has reviewed the proposed project and found it to meet all of the requirements of Section 7, Paragraph C, of Senate Bill 1187;

NOW, THEREFORE, it is hereby resolved that the Idaho Water Resource Board commit a seven-year, 6% loan from the revolving development fund, in an amount not to exceed \$60,000, to Mr. Arves L. Christensen for construction of said project facilities as approved by the Idaho Water Resource Board staff; provided, that the Board reserves the right to require repayment of the loan in full three years after completion of construction, if refinancing is available to the applicant at terms reasonable and satisfactory under then existing conditions.

Serial No. Idaho 016983

T. 6 N., R. 5 W., Boise Mer., Idaho
Sec. 1: S $\frac{1}{2}$ NW $\frac{1}{4}$, SW $\frac{1}{4}$
Sec. 12: N $\frac{1}{2}$ NW $\frac{1}{4}$

320 Acres

Your desert land application for the above described land has this day been approved and allowed, subject to any valid existing rights and your further compliance with laws and regulations applicable thereto. The acceptability of final proof is contingent upon development and reclamation of the land in accordance with your plan of development which is on file in the Boise Land Office. Any substantial change in source of water or deviation in the construction of the irrigating facilities must have the approval of the Bureau of Land Management. The irrigable acreage of this entry has been determined to be approximately 300 acres. In correspondence relating to this entry, always refer to the serial number shown above.

Subject to the Act of July 17, 1914, which will require the reservation of all oil and gas deposits to the United States.
