Dear Mr. Peterson:

A representative from this department has made an examination of your works covered by Permit 63-7017. The works were found capable of producing .57 c.f.s. of which .57 c.f.s. can be recognized as beneficially used and licensed under Idaho law. The water is used for irrigation of 39 acres in W $\frac{1}{2}$ SE $\frac{1}{4}$, Section 32, Twp. 5N, Rge. 1E, B.M.

If you disagree with the findings, please advise us within 10 days; otherwise, a license will be issued showing the findings as set forth in this letter.

Mr. Oscar D. Peterson

Dear Mr. Peterson:

This office is in receipt of your affidavit setting forth proof of application of water to beneficial use under Permit No. 63-7017. You have not stated that you have installed a measuring device as required under your permit. As you are probably aware, before we can issue a license we are required by law to conduct an inspection to determine the amount of beneficial use that has been made under the permit. To accomplish this we would require the use of the measuring device as set forth under the terms of your permit.

I would appreciate hearing from you as soon as possible, as to your intentions regarding the installation of a measuring device. Please indicate what type and when you intend to install that device.

In the event that we were to make the inspection, and the measuring device was not installed, our probable course would be to deny the proof of application of water to beneficial use and the permit would lapse.

If you have any questions, please contact this office.

Very truly yours,

C. STEPHEN ALLRED, Assistant

Dear Mr. Peterson:

The Department has received your affidavit submitted as proof of beneficial use. Before the proof is acceptable as adequate proof of beneficial use, the Department will require some additional information.

Under the terms and conditions of your permit you were to install a measuring device of a type approved by the Department as part of the diverting works. Until the Department is advised as to the type, and size of measuring device that has been installed, your proof can not be acknowledged as acceptable.

Please bear in mind that your proof was due on or before October 1, 1968. Please contact us if we may be of further assistance.

Re: Permit No. 63-7017

Oscar D. Peterson
Route #1
Boise, Idaho

Dear Mr. Peterson:

One of the conditions of the approval of your permit 63-7017 was that proof of application of the water to beneficial use be submitted to this office on or before October 1, 19 68.

Enclosed is an affidavit form which must be used to submit this proof. You may also request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for proofing before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates, please contact us immediately.

The expense of this publication is to be paid by the Department of Reclamation to whom you must furnish an affidavit of publication with the bill as soon as the publication is completed.

Very truly yours,

Donald W. McElowney
Water Right Clerk
