Dear Sir:

I am writing in regard to Claim to Water Right No. 63-05408. The notice has appeared in the Idaho World Newspaper dated August 3, 1988.

I have approximately fifty Lode Mining Claims and two one hundred acre placer claims covering most of the area.

When the land was patented under Patent No. 977198 on the sixth day of April 1926, and signed by Calvin Coolidge, President of the United States the land was open for mineral entry. The right to prospect for, mine, and remove the same pursuant to the provisions and limitations of the Act of December 29, 1916 (39 Stat. 862). It also gives me the right to enter upon, occupy and use any part or all of that portion of the southwest Quarter of the southeast quarter and the southeast quarter of the southwest quarter of said section fifteen.

The request is asking for a total of 3.370 CFS for irrigation and stockwater. In the past they have been diverting all the water in Dunnigan Creek. This does not allow me the right to mine.

The water I need to mine or conduct a dredging operation is non-consumptive. It is returned back to the creek provided the supply is not totally diverted.

Yours truly,

The United States of America,

To all to whom these presents shall come, Greeting:

WHEREAS, a Certificate of the Register of the Land Office at Boise, Idaho, has been deposited in the General Land Office, whereby it appears that, pursuant to the Act of Congress of May 20, 1862, "To Secure Homesteads to Actual Settlers on the Public Domain," and the acts supplemental thereto, the claim of William A. NOW KNOW YE, That there is, therefore, granted by the UNITED STATES unto the said claimant the tract of land above described; TO HAVE AND TO HOLD the said tract of land, with the appurtenances thereof, unto the said claimant and to the heirs and assigns of the said claimant forever; subject to any vested and accrued water rights for mining, agricultural, manufacturing, or other purposes, and rights to ditches and reservoirs used in connection with such water rights, as may be recognized and acknowledged by the local customs, laws, and decisions of courts; and there is reserved from the lands hereby granted, a right of way thereon for ditches or canals constructed by the authority of the United States. Excepting and reserving, however, to the United States all the coal and other minerals in the lands so entered and patented, together with the right to prospect for, mine, and remove the same pursuant to the provisions and limitations of the Act of December 29, 1916 (39 Stat., 862). Re: Claim to a Water Right No. 63-5408

Dear Mesdames & Gentlemen:

Enclosed is a copy of an exception filed in connection with your above-referenced claim to a water right. The Department will not schedule a hearing in this matter or evaluate for conformation or censure the right claimed since Section 42-244, Idaho Code, states in part the following:

"At anytime after the filing of a claim, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources."

If we can be of further assistance, please contact us.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office
