STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Peter K. and/or Ingrid M. Koehn
(Name of Claimant)

6625 W. Chinden Blvd, Meridian Id 83642
(Mailing Address) (Zip Code)

Telephone No. 286-7733

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) 8/20/1936

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Groundwater tributary to

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(cfs, af)	(Domestic, Irrigation, Stock, Etc.)	(Mo., Day)	(Mo., Day)
Quantity <u>0.14 cfs</u>	Use <u>Irrigation</u>	Period of Use From <u>3/15</u>	To <u>11/15</u>
Quantity	Use	Period of Use From	To
Quantity	Use	Period of Use From	To
Quantity	Use	Period of Use From	To
Quantity	Use	Period of Use From	To

(4) 0.14 cfs TOTAL QUANTITY USED.
(cfs, af)

(5) A) Point of diversion: (Location of point where water is diverted from its source)

NW 1/4 NW 1/4, Sec. 28 Twp. 4N Rge. 1W B.M., County of Ada

Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Artesian Flowing Well, casing and ditches for irrigation

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTAL
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
<u>4N</u>	<u>1W</u>	<u>29</u>	<u>7</u>																<u>7</u>

No. of acres 7

B) If water is used for other than irrigation, fully describe that use, being as specific as possible:

MICROFILMED

NOTE: Include here the type and number of stock watered:

AUG 20 1981

(7) If you are claiming water as a member of an organization, list name of organization:

(8) Remarks This right is supplemental to a water right in the Settlers Irrigation District with source of Boise River.

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

RE: Artesian Well Located at the NW 1/4 NW 1/4, Sec. 28,
Township 4 N, R 1 W, Boise-Meridian, Ada County,
Idaho, and owned by Robert H. Ruble

Dear Mr. Tuthill:

I have received the recent correspondence of Peter Kuehn, dated March 29, 1988, and discussed its contents with Mr. Ruble on April 7, 1988.

Mr. Kuehn did acquire his property located in Section 29 in November, 1985. The property, however, had not been irrigated for at least five years continuously. Mr. Ruble lives a half mile east of the Kuehn property, and he drives past it everyday, knows from his own personal knowledge there was no irrigation on that property since September, 1981. There was no evidence of any irrigation of the premises whatsoever in 1980, so there has actually been no irrigation on that premises for at least six years. Mr. Kuehn never irrigated the property from any ditch into which any artesian well water was ever deposited. Mr. Kuehn would have to acknowledge that he has never made use of any artesian well water. Mr. Ruble is personally aware there has never been any historical use of water for irrigation on that property since at least 1981, and there has definitely been no water used from this artesian well in any irrigation program on this premises from 1981 to the present.

The aerial photos taken in 1971 clearly portray the property in question. The aerial photos taken in 1974 reveal the improvements made by Pete Cope on a portion of the property which had terminated the ability of the Kuehn property from receiving any water from the Settlers Irrigation Ditch. The premises purchased by Mr. Cope blocked irrigation from the Settlers Ditch to the Kuehn property because of the flow of the water course. Essentially, the Kuehn premises was then blocked from the use of the Settlers Ditch since the installation of the improvements which could have been before 1974.

RECEIVED
JUN 30 1988

There is some waste water that comes from the Lutz premises, and the possibility of some overflow from Settlers Ditch upstream from the Cope premises. The waste water and overflow could flow to the west toward the Kuehn property along the Highway 20/26, Chinden Blvd. in a waste ditch facility. Potentially, Mr. Kuehn may be attempting to collect this waste water in a retention pond but to date he has never irrigated from that as Mr. Ruble has continuously monitored this situation and knows there has been no pumping from that location. There has been no ditch for irrigation that leads from that pond onto the Kuehn property. There is a waste ditch that leads from the pond that goes further west so as to drain the area. That waste ditch dumps into the Phyllis Canel, located west of the Kuehn premises.

There has never been any water from even the pond used by Mr. Kuehn for irrigation of his land. For him to suggest or say that would mean there had to be a diversion after he moved onto the premises in November, 1985, in order to accomplish that, which has never happened. Any diversion efforts must be accomplished pursuant to the Statute, which requires application with the Department of Water Resources, proper inspection, approval and issuance of a permit. None of that has occurred.

Mr. Ruble had a conversation with Pete Kuehn during the last days of February, 1988, at which time Mr. Kuehn confirmed he had no right to claim water flowing from the artesian well on Mr. Ruble's property and represented he would go down the next day and withdraw the claim he had filed with the Department. He also acknowledged to Mr. Ruble that he intended to drill a well to provide stock water for his animals, and provide irrigation water should he ever decide to irrigate the premises.

If Mr. Kuehn confirms he did not divert any water (as his letter so states) then he would have to acknowledge he has never irrigated the premises as he could not do so without diverting water from some source, since there has been absolutely no means of access to the Settlers Irrigation Ditch to the Kuehn property from at least 1974.

Mr. Ruble's wife, Carolyn, did reproduce previous years rotation schedules that pertain to the Settle Irrigation Ditch. The schedule that had been reproduced and distributed in 1981. The schedule was established primarily by Jack Jones and Dean Bentley. The schedule was created after the subdividing occurred in the 70's. This schedule was sent to anyone in the area, whether or not they had rights to the water or had a member interest in the Ditch District. The only intention was to provide notification to surrounding property owners as to the Settlers' water availability, and in no way was intended to establish a water right or declare a water use or assure accessibility to any given water source. Having your name placed on a schedule does not vest a water right or authorize someone to take water from the Settlers Ditch facility, and no one verified a water right to exist. The only purpose sought to be served by the scheduling was to make everyone aware of those dates when water would be available.

JUN 10 1988

Page 3
April 13, 1988

uses would occur so there would not be a conflicting use that would generate a neighborhood feud.

It is rather obvious it is imperative to first establish what water rights exists before any further scheduling efforts are pursued. In the case of Mr. Kuehn, it is impossible for him to establish any water right from the artesian well on Mr. Ruble's property since no water has flowed from the Settlers Irrigation Ditch to the Kuehn property for irrigation purposes since 1974 and earlier.

Mrs. Riley may recall the waste ditch along Highway 20-26. That is the only ditch on that premises. The water, if any, in that waste ditch had not been and could not feasibly be used for irrigation at that location.

It is incredulous for Mr. Kuehn to assert that seizure of water from this artesian source would create a hardship for the animals and his property, when he has never utilized any water from the artesian well through the Settlers Ditch facility.

Mr. Kuehn has no basis to assert a water right or claim to any water right as history confirms a non-irrigation pattern since 1974, and any water right claim that a previous landowner may have before been able to assert has long since been abandoned from nonuse.

If further discussion or correspondence is required, please so indicate and we will respond accordingly.

Yours very truly,

Vernon K. Smith

Dear Mr. Tuthill,

In response to the protest to claim of water rights filed by Robert H. and Carolyn J. Ruble, residing at 6175 W. Chinden Blvd., Meridian, ID, 83642. Protesting claim #63-5397 filed by Peter K. and Ingrid M. Kuehn. We would like to make the following statement:

We purchased the property located at 6625 West Chinden Blvd., located in Section 29, of the NE $\frac{1}{4}$ of Township N, R1W, Boise-Meridian, in November of 1985. The property was sold to us as irrigated property, and a water ditch running through the front and back of the property. The water through the front of the property originated from the artesian well located on the NW $\frac{1}{4}$, NW $\frac{1}{4}$, Sec. 28, Township 4N, R1W, Boise-Meridian. Known as the residence of Robert H. and Carolyn J. Ruble. This ditch has been there for many years running through the property. After we purchased the property, at 6625 West Chinden Blvd., we spent a considerable amount of money cleaning up the ditch, placing pipes, covering the ditch, and letting the water run into a pond and then out into the ditch again. The water in the pond is used for stock water for our animals and also for the partial irrigation of our land. It is correct that the Settlers irrigation ditch in the rear of our property is difficult if not impossible to use; however, we are capable of utilizing the water running through the front of our property which was there at the time the property was purchased by us. We did not divert any water. We also received an irrigation schedule for the calendar days for April through August that we were to use the water from Mr. Ruble. If as they claim, we never used it why would they send a schedule with all the parties names and dates on it that were using the water from the artesian well located at the previous mentioned address? We purchased the property with the water and ditch in place. The previous owner, Rosemary Riley, located at 745 Bradley Road, Lake Forest, IL, 60045, recalls the ditch being there when she owned the property. If this water is seized it would create a hardship for our animals and property.

Sincerely,

Peter and Ingrid Kuehn

Re: Claim to a Water Right No. 63-5397

Dear Mr. & Mrs. Kuehn:

Enclosed is a copy of an exception filed in connection with your above-referenced claim to a water right. The Department will not schedule a hearing in this matter or evaluate for conformation or censure the right claimed since Section 42-244, Idaho Code, states in part the following:

"At anytime after the filing of a claim, any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate, in affidavit form, accompanied by such proof as said person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources."

If we can be of further assistance, please contact us.

Sincerely,

David R. Tuthill Jr.

In Re:

Statutory Claim to a Water Right)
Claim No. 63-5397, filed by Peter)
K. and/or Ingrid M. Kuehn on) PROTEST TO CLAIM OF WATER
May 26, 1987.) RIGHT FILED BY PETER K. AND/OR
) INGRID M. KUEHN

PROTESTANT: ROBERT H. RUBLE
CAROLYN J. RUBLE

COMES NOW Robert H. Ruble and Carolyn J. Ruble, residing at 5175 West Chinden Blvd., Meridian, Idaho 83642, and do hereby PROTEST the Application and Claim to a Water Right, Claim No. 63-5397, filed by Peter K. and/or Ingrid M. Kuehn, 5625 West Chinden Blvd., Meridian, Idaho 83642, with the Department of Water Resources, on May 26, 1987, purportedly pursuant to Section 42-243 Idaho Code.

The initial objection is based upon the untimely filing of the Claim, and not only has no claim to water existed for the alleged purposes set forth in the Claim, but furthermore, the untimely filing of the Claim would constitute grounds for forfeiture of the claimed water to Section 42-243 Idaho Code.

At no time has the Claimant Peter K. and/or Ingrid M. Kuehn ever beneficially used any water from the artesian well located on the NW 1/4, NW 1/4, Sec. 28, Township 4N, R1W, Boise-Meridian located in Ada County, Idaho.

for any irrigation use as claimed. The Claimant has no access to water contained in the Settlers Irrigation Ditch. Claimants' property consists of 7 acres, located in Section 29, of the NE 1/4 of Township N, R1W, Boise-Meridian. To begin with, Settlers Irrigation District ditch is not shown as having ever diverted water to Section 29. According to Settlers' Plat Maps the McMullen Lateral ends in Section 28, and no water users exist in Section 29, according to Settlers' records. Furthermore, it is impossible to irrigate Claimants' 7 acres from water contained in the Settlers ditch through any flood irrigation attempts since there is a large concrete ditch constructed between Claimants' land and the Settlers ditch facility, which is the Nampa-Meridian Irrigation District ditch. This Nampa-Meridian ditch is constructed at a much higher level (3 feet or more) and it is impossible to siphon water from Settlers ditch to Claimants' property. There has never been any pumping station, pipe transfer facility, flumes or otherwise constructed that would enable the Claimant to beneficially apply water drawn from the Settlers ditch. Protestant knows of his own personal knowledge that since 1981 there has been no water applied to a beneficial use from Settlers ditch onto Claimants' property. The claim to a water right for irrigation use is untenable at present, and if any claim may have ever existed sometime in or after 1936, it has long since been abandoned by virtue of the construction of the Nampa Irrigation ditch lateral.

The Claimant may have pumped water to his land from some water source, but never from the ditch which has ever contained water from the well located on Protestants' property.

At no time has Mr. or Mrs. Kuehn ever claimed a right by diversion and application to beneficial of any water flowing from the artesian well

described in Claimants' claim to a water right.

The Protestant is the owner of the property where the artesian well is located, and there has never been any authorization, license, or easement granted to Mr. or Mrs. Kuehn to divert any water from this artesian well to any point across the property of Protestant or that of any adjoining neighbor. In summary, there has never been a beneficial use of water from this artesian well by the Claimant for at least 7 years continuously, and if there were any claim existing from any previous use by any previous landowner, it has long since been forfeited and abandoned by law.

Dated this 15 day of March, 1988.

Re: Claim No. 63-5397

Dear Claimant(s):

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.
