RE: Transfer Review (No. 4009)

The above referenced transfer application proposes to add a point of diversion (well) under this right.

Advertising was completed correctly. Because this transfer is a point of diversion additional only, the standard condition regarding one year completion will not be imposed. The transfer can be approved with the following conditions:

- T09 Approval of this transfer does not preclude the opportunity for review of the validity of the water right(s) in the ongoing Snake River Basin Adjudication.
- 046 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
- T08 Failure to comply with the conditions of this transfer is cause for the director to issue an order to show cause why the approval of the transfer should not be rescinded.
- T01 Approval of this transfer in no way confirms the right claimed.
- R32 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre for the lands above.

Dear Mr. and Mrs. Wilson:

We received the application for permit form submitted in lieu of the claim form and the \$100.00 check.

Since the check and the application form were submitted by June 30, 1984, we can accept them for the claim filing due date. I have completed the claim to a water right form based on the information included on the application for permit form. Item No. 5(B) still needs completion for the type of water system you have.

On the irrigation portion of your permit, I have put 3 acres which was computed based on $\frac{1}{4}$ acre of irrigation for 9 households (business counting as 1 household).

The amount of water used for domestic is 0.14 cubic feet per second or 63 gallons per minute and came from a table for in-house use only per the Department's recommendations. The amount for irrigation is 0.09 cfs or 40 gallons per minute and is based on the maximum amount recommended by the Department which is $1\frac{1}{2}$ inches of water per acre for 5 acres and under. If you have been using more than the total 103 gallons per minute, then please indicate this on the claim since a claim can be filed for any amount as long as it has been being used.

Please complete the claim as requested, have your signature notarized on the back and return it to our office for processing. If you have any questions, please don't hesitate to contact me.

Sincerely,

Jan Grover
