Dear Jan Grover

Thank you for noticing
my errors in describing the
location of the water claims.

The ditch was put in prior to
Mapping and surveying accurately
in '37, my family ~~has~~ always
called the springs the head of
the West Fork, but the map
makers changed that along with
peaks in the area and the
Forest Service has even different
maps with different names.

So for the sake of accuracy
I would prefer to follow the
7.5 topog, so we know where
we're at. The Topo does
show the spring, Mill and adit
correctly - the '37 corner of sec's
15-16-21-22 is in place. If
you want me to redraw the
description send it back and
I'll do it again.

Thank you
for your help

Dear Mr. Platts:

We were in the process of reviewing your claim submitted during the June 1983 mandatory claim filing period and have come up with some problems.

Enclosed is a copy of the topographic map for West Fork Skeleton Creek. As you can see it appears the West Fork begins in Sec. 21 rather than Sec. 16. There are some springs shown in the SE1/4SE1/4, Sec. 16, but they are not the beginning of the creek. Please check this map and mark your point of diversion from the creek and place of use (mill). Then change the claim accordingly, initial your changes and return all to this office for processing. If the springs in Sec. 16 are your source then Item No. 2 should show springs tributary to the West Fork Skeleton Creek.

If you have any questions, don't hesitate to contact us.

Sincerely,

Jan Grover
