STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Boise Warm Springs Water District

(Name of Claimant)

P.O. Box 114, Boise, Idaho 83701

(Mailing Address)

Telephone No. 342-3162

(Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 05 November 1894

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Groundwater tributary to

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(cfs, gpd, AFA)	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive) (Mo., Day)	(Mo., Day)
Quantity <u>12.819 c.f.s.</u>	Use <u>Heating & Domestic</u>	Period of Use From <u>01 JAN</u>	To <u>31 DEC</u>
Quantity <u>4.273 c.f.s.</u>	Use	Period of Use From	To
Quantity <u>from each of</u>	Use	Period of Use From	To
Quantity <u>three wells</u>	Use	Period of Use From	To

- (4) 2.664 MGD OR TOTAL QUANTITY USED.
(cfs, gpd, AFA) 12.8 CFS - TOTAL

- (5) A) Point of diversion: (Location of point where water is diverted from its source)

SE 1/4 SW 1/4, Sec. 12 Twp. 3 N Rge. 2 E B.M., County of Ada

Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. THREE Hot Wells, 2 Pumps and Pipeline.

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTAL

NOTICE OF WATER RIGHT LOCATION

TO WHOM IT MAY CONCERN:

Notice is hereby given that the Artesian Hot and Cold Water Company, Limited, a corporation created and existing under the laws of the State of Idaho, with its principal place of business at Boise City, Ada County, in said State heretofore on the 5th day of November, 1894, appropriated and is the owner and claimant of the following described water rights, to-wit: The waters flowing from three artesian wells and each and every of said wells, to the extent of four and two hundred and seventy-three one thousandths cubic feet per second of time; which said wells through and by means of which said water is diverted and appropriated are situated in the South-east quarter of the South-east quarter of the South-west quarter of Section Twelve (12) in Township Three (3) North, Range Two (2) East of Boise Meridian, in Ada County, State of Idaho.

That the location and specific uses for which said water is claimed are for domestic and for bathing and heating purposes and to warm the waters of a large plunge or swimming bath at a place of public resort, belonging to said company, known as the "Natatorium", situated about three thousand feet in a South-westerly direction from said wells; and also for sale for domestic uses and for bathing and heating purposes, and for all other purposes for which hot water may be used, and for irrigating and sprinkling, in Boise City in said County and along or near the line of the conduit or pipes used in conveying said water from said wells to and through the streets and alleys of Boise City, commencing at each of said wells and running North or West about one hundred and sixty feet through separate pipes to a common pipe; thence South 70 degrees 15 minutes West 2514 feet to the South-west side of the public road known as Warm Springs Avenue; thence Westerly along said Avenue, 500 feet to a tee in said pipe by which a part of said water is diverted and runs in a South-westerly direction, 300 feet to said Natatorium building; and from said tee running in a Westerly direction along said Warm Springs Avenue, 5608 feet to the junction of Idaho Street in Boise City; thence Westerly along Idaho Street, 5368 feet to a point 120 feet East of the east line of Thirteenth Street and about 13945 feet from said wells; together with all the lateral and distributing pipes and conduits connecting said main conduit with the buildings and premises where said water is or may be used.

Dated November 24th, 1899.

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF THE BOISE)
FRONT LOW TEMPERATURE)
GEOTHERMAL RESOURCE GROUND)
WATER MANAGEMENT AREA)
_____)

**FINAL ORDER
EXTENDING MORATORIUM**

WHEREAS, on June 15, 1987, the Director of the Idaho Department of Water Resources (IDWR) designated the Boise Front Low Temperature Geothermal Resource Ground Water Management Area in Ada County, Idaho, due to reported declines in aquifer water levels and water pressure; and

WHEREAS, on June 11, 1988, IDWR issued an order establishing a five (5) year moratorium to prevent further development or additional use of the low temperature geothermal water resource (resource); and

WHEREAS, on July 7, 1998, IDWR advised the users of the resource that IDWR was reviewing the need for the moratorium and whether it should be modified or extended. IDWR requested written comments on the nature of the action IDWR should take in connection with the expiring moratorium; and

WHEREAS, six (6) parties submitted written comment to IDWR. All major users supported extending the moratorium for an additional five (5) years.

NOW THEREFORE, pursuant to Section 42-1805(7), Idaho Code, and IDAPA Rule 37.03.08055 (Water Appropriation Rule 55), IT IS HEREBY ORDERED that:

(1) The order dated June 10, 1988 which established a moratorium on further development and additional use of the low temperature geothermal water resource in the Boise Front Ground Water Management area is extended.

(2) The provisions of this order are effective for five (5) years from the date issued unless rescinded or modified by order of a court of competent jurisdiction or unless rescinded or modified by order of the Director.

Dated this 1st day of September, 1998.

RE: Monitoring of the Boise Geothermal
Groundwater System

Dear Mr. O'Rouark:

The enclosed order is being sent to you because of the Department's concern about the Boise Geothermal System. By collecting uniform and consistent data from the major users, a better understanding of the System will be known and management alternatives of the system can more properly be considered.

You and the other major users are required to develop a program for accurate monitoring and record keeping. The Department is willing to meet with you to discuss possible equipment selection and questions you may have.

If you have questions or comments, please contact John Carlson (phone 334-4406) of this Department.

Sincerely,

John E. Beal For

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF A COMPREHENSIVE)
MONITORING PROGRAM IN THE BOISE)
FRONT LOW TEMPERATURE GEOTHERMAL)
RESOURCE GROUND WATER MANAGEMENT)
AREA)

ORDER REQUIRING
MONITORING AND
RECORD KEEPING

This matter having come before the Director of the Department of Water Resources (Department) as a result of reported water level declines of the Boise Front Low Temperature Geothermal Resource Ground Water Management Area, and the need for a comprehensive monitoring system, the Director finds, concludes and orders as follows:

FINDINGS OF FACT

1. The Director of the Department has the responsibility to administer the ground water basins of the State to protect prior rights yet allow full economic development.

2. The Boise Front Low Temperature Geothermal Resource Ground Water Management Area was designated by the Director on June 15, 1987.

3. A preliminary study performed by Boise State University on several wells in a portion of the management area indicates that the resource may be limited and that significant declines in water levels in pumped and monitored wells within the system are occurring.

CONCLUSIONS OF LAW

1. Section 42-226, Idaho Code, declares all ground waters to be the property of the State, and charges the State with supervising the appropriation and allotment of the same so that early appropriation of underground water are protected in the maintenance of reasonable groundwater pumping levels.

2. Section 42-233b, Idaho Code, authorizes the Director of the Department of Water Resources to require all water right holders within a designated ground water management area to report withdrawals and other necessary information for the purpose of assisting him in determining water usage and available ground water supplies.

ORDER

NOW, THEREFORE, IT IS HEREBY ORDERED that Boise Warm Springs Water District shall install and maintain equipment and forward to the Department on a monthly basis the following information:

1. Continuous withdrawal rate and withdrawal volume amounts.
2. Continuous casing pressure and/or drawdown measurements on production and injection wells.
3. Temperature of withdrawn and injected fluids on a daily basis.

IT IS FURTHER ORDERED that within thirty (30) days of this Order Boise Warm Springs Water District shall submit a written proposal to the Department for review and approval describing a

monitoring program and equipment to be used and/or installed to
comply with this order.

Dated this 29TH day of July, 1987.

Re: 63-5073

Gentlemen:

I am returning Claim No. 63-5073 with the following revisions which were discussed in your letter of 09 February 1984.

Item No. 3 was intended to be a restatement of the original water right dated 24 November 1899 which is presently on file with the Idaho Department of Water Resources. Our copy from the original is not highly reproducible. Please refer to the original which is in the Department's archives. At the present time, two of the wells are equipped with pumps and motors and are being used for production of water which is delivered to a pipeline for distribution. The original claim was for three wells as shown.

Item 3 also states that the "Use" is "Heating & Domestic". This water is pumped to a pipeline-type distribution system at a temperature of 172 Degrees Fahrenheit and is not suitable for irrigation or other crop raising purposes. There is no Irrigation use and the water is used for residential space heating in approximately 240 homes in the east area of Boise City.

Item 6 requested a description of the "Location of Use". the intent of the response was to provide the location of the various residences which are a part of the District and do receive services from the District. It appears that all response to Item 6 should be deleted from the Claim and the location of the property which is a part of the District would not be referred to in the Claim.

Following the deletion of the "Location of Use" from Item 6, all of the markings on the map should also be deleted.

Hopefully, these corrections will make the Claim conform to the Department's standards. If I may clarify any other items for you, please do not hesitate to call the office of the District at 342-3162 and leave a message on the recorder. You may also call my office at 345-3216. The District has no full time employees and only the Watermaster is salaried.

Sincerely,

BOISE WARM SPRINGS WATER DISTRICT

MICROFILMED

February ²¹ 8, 1984

Boise Warm Springs Water District
P.O. Box 114
Boise, ID 83701

Gentlemen:

We have tried contacting you by phone with no success concerning the claim filed on some of your hot wells.

In the final review of your claim it was noticed that in Item No. 3 on the claim three wells are mentioned, then on Item No. 5B two wells are stated as being the diversion works. It needs to be clarified as to how many wells are being filed on. Also on Item No. 6A, 680 acres are shown. Normally, this indicates that 680 acres are being irrigated from these wells. If these wells are being used for irrigation then it needs to be listed as a use with the exact acreages being irrigated in each quarter-quarter listed. If not, then the acreage needs to be removed from this item. A discrepancy was also noted on the place of use listed under Item No. 6A. The SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 12 is marked on this item but indicated in the same manner as the other places of use on the map. Please review this and either change the place of use or mark the map.

Please make the necessary corrections on this claim, initial all changes and return the claim to us as soon as possible. If you have any questions or suggestions, don't hesitate to contact us.

Sincerely,

Jan Grover

RE: Claim No. 63-5073

Dear Claimant:

The Department of Water Resources has completed the advertising of your claim to a water right, and no further action is authorized under Section 42-243 and 42-244, IDAHO CODE. Your claim will be retained in our files and will be available at any time for use by you or the court.

The filing and advertising of the claim does not confirm the water right claimed, but will serve to record and preserve the information and the evidence which you included in your claim.

If, at a later date, you find that you have additional information or supporting evidence that you would like to have included with the claim, you may have that information or evidence added at any time. Please refer to the claim identification number when corresponding with this office.

We are enclosing a copy of your claim for your records. If you have questions, or if this office may be of further assistance, please feel free to contact us.

Yours truly,

DAVID B. SHAW

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 63-9160, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before January 1, 19 85.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. 1. An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department. 2. The issuance of this permit in no way grants any right-of-way or easement across the land of another. 3. Return flow if discharged to a groundwater system must be authorized by a separate injection well permit, and return flow if discharged to a surface water system shall meet intrastate water quality standards.

Witness my hand this 8th day of January 19 80

L. Glen Saxton
