RE: Claim for water right no. 63-4610 - Frank R. &/or Evangeline R. King

Dear Mr. Gillespie:

The Department of Water Resources is in receipt of your July 5, 1978 letter of protest against the above-numbered filing. This filing was originally advertised in the Idaho World in error as an application for water right whereas it is actually a claim to a water right.

Section 42-244, Idaho Code states in part as follows:

"At any time after filing a claim under the provisions of this section any person who disagrees that a right has been established as set forth in said claim may file an exception thereto in duplicate in affidavit form accompanied by such a proof as such person deems appropriate. An exception filed shall be made a part of the file of the claim in the Department of Water Resources and shall be considered the same as other evidence in said file. A copy of an exception filed shall be forwarded to the claimant by the Department of Water Resources."

The Code does not provide the Department of Water Resources with any authority to hold hearings or evaluate for conformation or censorship any claim to a water right. The Department therefore does not normally contemplate any further action after an exception has been received and filed with the original claim document.

Even though your letter refers to this claim as an application as it was originally advertised, the Department will consider your letter to be an exception and file it with the original claim document. If you do not wish your letter to be considered an exception, it can be removed from the file by request from you on behalf of your clients or if you have additional evidence to support your exception, that may also be submitted in writing and will be included in the file with your original claim.

If I may be of any additional assistance in this matter, please feel free to contact this office.

RE: Relationship between this claim and Decree 63-L

Claimant Frank King has indicated that his property was owned during the 1950's and 1960's by a Nita Vance. Ms. Vance was not a party to the 1962 decree on Robie Creek of Afton et al vs. Luttrell et al. Therefore, it is possible that the domestic right described in the claim exists among the surrounding decreed rights.
