I told Roland Towle there was other land available in the area so in 1954 he bought land in the said Section 17 that he presently owns. In 1955, he wanted water at his cabin site and installed several hundred feet of iron pipe in Boulder Creek for a natural flow to his cabin area.

About the same time he started using a gasoline driven water pump to  
pump water from Mores Creek for domestic and irrigation purposes as  
Boulder Creek was not always useful.

We have jointly purchased trees from the University of Idaho through  
our County Agent and planted them on our properties.
