NOTICE OF CLAIM TO A
WATER RIGHT

No. 63-4221

Right corrected

Notice is hereby given that Willis Carriere of Rocky Bar Stage, Mountain Home, Idaho has filed a claim to a water right established by diversion and application to beneficial use of 1.2 cubic feet per second of water from Grouse Creek, trib. to South Fork Boise River with the point of diversion in the SW 1/4 NE 1/4, Sec. 33, T. 3 N., R. 10 E., B.M., Elmore County.

The water is claimed to be used from Jan. 1 to Dec. 31 for domestic and heating and from May 1 to Oct. 31 for the irrigation of 14 acres with a priority of Oct. 27, 1913; the place of use is within Lot 1, Sec. 33, T. 3 N., R. 10 E., B.M.

Any exception to this claim of water right may be filed with the Idaho Department of Water Administration, Statehouse, Boise, Idaho, 83707.

APPLICATION FOR TRANSFER OF WATER RIGHT

PART 1

Name of applicant Trinity Springs, LTD. Phone 726-7734
Post Office address P.O. Box 1630 Ketchikan Id 99340

A. PURPOSE OF TRANSFER

1. ☒ Change point of diversion ☐ Add diversion point(s) ☒ Change place of use
☒ Change nature of use ☒ Change period of use ☐ Other _____
2. Describe the reason for the proposed changes Convert irrigation consumptive use to commercial consumptive use for^a water bottling operation. Trucks will transport the water out of the basin for remote bottling and distribution.

B. DESCRIPTION OF RIGHT(S) OR PORTION THEREOF, AFTER THE REQUESTED CHANGE

1. Right Number 63-4221 Priority 10/27/1913 Amount (cfs/ac-ft) 1.2 cfs Nature of Use Commercial Period of Use 1/1 to 12/31
- _____ to _____
- _____ to _____
- _____ to _____
2. Total amount of water being transferred 1.2 cubic feet per second and/or _____ acre-feet per annum.
3. Source of water Springs tributary to South Fork Boise River
4. Point(s) of Diversion: _____

[illegible]

5. Lands irrigated or place of use:

[illegible]

PART 1**6. General Information:**

- a. Description of diversion system Water will be diverted from springs to be bottled for sale (commercial use). Initially trucks will transport water directly from springs. Ultimately there will be a tank/holding facility located at the place of use on p.1 (LT4(SWNE)S.5 T22N R10E).
- b. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts? _____ Yes _____ No. If yes, provide a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes.
- c. Describe the affect on the land now irrigated if the place of use is changed pursuant to this transfer:
Land originally irrigated under this water right will be dried up and no longer irrigated.
- Note: Each spring is effectively a point of exchange.
- d. Remarks:
The purpose of this transfer is to provide a consumptive use component for diversion to commercial use as described in water right No. 63-11439. Applicant acknowledges that EDWR will assess the extent of historic use under 63-4221 by field examination, and diversion under this transfer will be limited accordingly.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

Total acres _____

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR TRANSFER OF WATER RIGHT
PART 3

- A. Draw a map or attach a USGS map indicating the new point(s) of diversion and/or the new place of use for rights described in part 1. Clearly depict the land by section, township and range number.

PART 3**B. CHANGES IN NATURE OF USE**

1	<u>New Nature of Use</u>	<u>Amount</u> (cfs/ac-ft)	<u>Hours/days/year</u>	<u>Period of Use</u>
	<u>Commercial</u>	<u>1.2 cfs</u>	<u>Max Available</u>	<u>1/1</u> to <u>12/31</u>
				to _____

2. Quantity and quality of return flows and location of discharge:

This use is totally consumptive - export of water from the basin in tank trucks.

3. Describe effects on other water uses resulting from the proposed change:

This transfer is intended to protect downstream water rights by reducing consumption on historically irrigated acreage, and increasing commercial consumption by an equal amount. The number of acre-feet for which the irrigation right will be credited is to be based on an IDWR field exam and resulting computational assessment.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willful misrepresentations made in this application may result in voiding its approval.

STATE OF IDAHO
DEPARTMENT OF WATER ADMINISTRATION
Section 42-225a, Idaho Code

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that WILLIS CARRIE (name of claimant)

of Mountain Home, Ida., c/o Rocky Bar Stage , claims a right to the diversion and beneficial use of (mailing address)

ground water or surface water tributary to South Fork Boise River ;

The extent and nature of said claim is as follows:

(1) Describe source of water: (name of stream, lake, spring, etc., or ground water) Grouse Creek

(2) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Amount <u>1.2 c.f.s.</u>	Use <u>Irrigation</u>	Period of Use: From <u>May 1</u> To <u>Oct. 31</u>
Amount _____	Use <u>Domestic</u>	Period of Use: From <u>Jan. 1</u> To <u>Dec. 31</u>
Amount _____	Use <u>Heating</u>	Period of Use: From <u>Jan. 1</u> To <u>Dec. 31</u>
(cfs, gpm or a/f)	(dom., irri., stock, etc.)	(both dates inclusive)

(3) Total quantity of water claimed: 1.2 cubic feet per second, or _____ acre feet per annum, and/or _____ gallons per minute.

(4) Priority claimed: (the date water was first applied to beneficial use) Oct. 27, 1913

A claim is not acceptable on a ground-water source with a priority later than March 25, 1963 or on a surface-water source with a priority later than May 20, 1971. An exception to this rule is that a claim may be filed on domestic use from a ground-water source.

(5) A) Point of diversion: (give location of point where water is diverted from its source)

SW ¼ NE ¼, Sec. 33 Twp. 3 N. Rge. 10 E. B. M. County of Elmore
Additional points of diversion: _____

B) Describe means of diversion of water: (pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.) Give sizes and capacities; be as specific as possible. Plastic dam to direct water into ditch. Ditch is 1000' long, 18" wide, 1' deep, 34' fall 1000' open ditch.

(6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE ¼				NW ¼				SW ¼				SE ¼				TOTAL
			NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	NE ¼	NW ¼	SW ¼	SE ¼	
3	N	10E	33				14	1											14

Total No. of acres 14

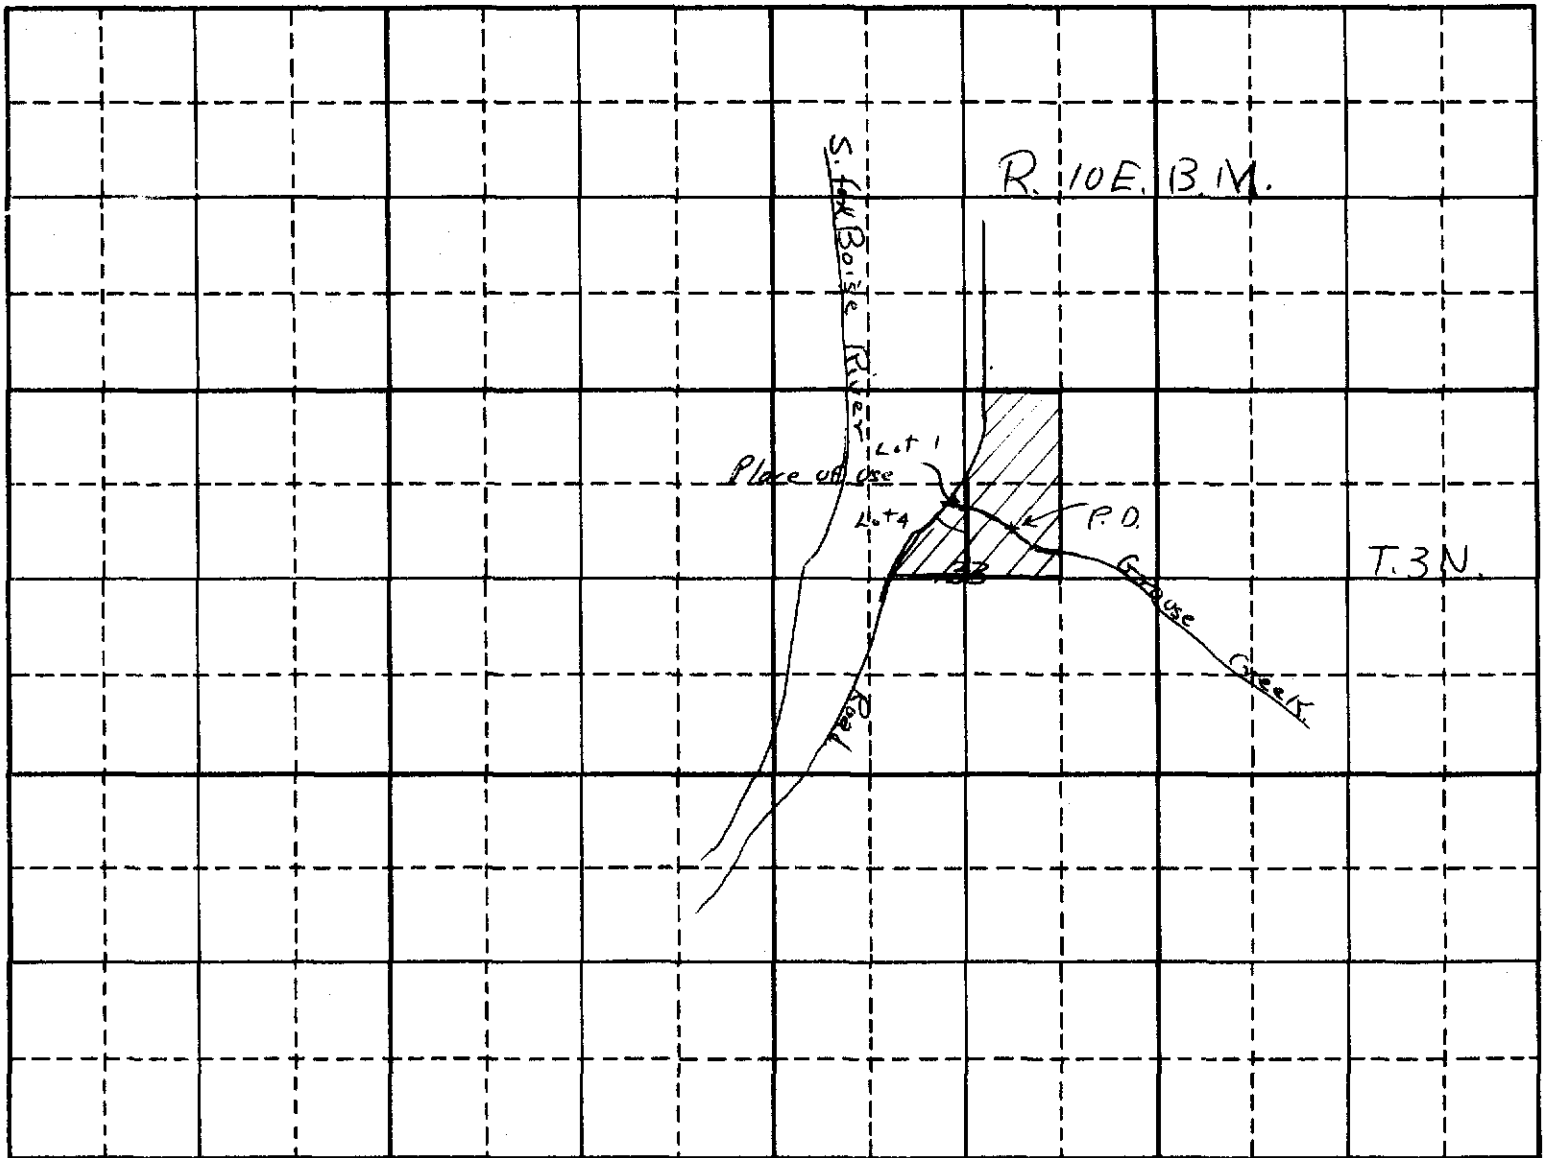

B) If the water is used for other than irrigation, fully describe that use, being as specific as possible: Domestic and heating for 7 buildings & 14 trailer spaces.

(7) If you are claiming water as a member of an organization, list name of organization: 63 4221

Swimming pool developed in 1918, used from Jan. 1 to Dec. 31, 1½ acre feet capacity. Pool is located in Lot 4. 2/3 Hot water rises in bottom of pool for swimming which is cooled by water from Grouse Creek. 1/3 Hot water rise adjacent to point of diversion and is used for heating all buildings on the Paradise property including domestic and hot mineral baths.

All hot water would equal approximately 2000 gallons per hour and is all in use on the Paradise property.

63 4221

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR TRANSFER OF WATER RIGHT
PART 3

- A. Draw a map or attach a USGS map indicating the new point(s) of diversion and/or the new place of use for rights described in part 1. Clearly depict the land by section, township and range number.**

SCALE: 2 inches equal 1 mile. Draw plan in ink.

PART 3**B. CHANGES IN NATURE OF USE**

1	New Nature of Use	Amount (cfs/ac-ft)	Hours/days/year Max	Period of Use
	<u>Commercial</u>	<u>1.2 cfs</u>	<u>Available</u>	<u>1/1</u> to <u>12/31</u>
				to

2. Quantity and quality of return flows and location of discharge:

This use is totally consumptive - export of water from the basin in tank trucks.

3. Describe effects on other water uses resulting from the proposed change:

This transfer is intended to protect downstream water rights by reducing consumption on historically irrigated acreage, and increasing commercial consumption by an equal amount. The number of acre-feet for which the irrigation right will be credited is to be based on an IDWR field exam and resulting computational assessment.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willful misrepresentations made in this application may result in voiding its approval.

**NOTICE OF PROPOSED CHANGE
OF WATER RIGHT
NO. 83-04221**

Notice is hereby given that Trinity Springs, Ltd. of Ketchum has applied to the Department of Water Resources for a change of point of diversion, place of use, nature of use, period of use, of the water of Grouse Creek. The right sought to be changed is evidenced by statutory claim and Snake River Adjudication claim No. A63-04221 and is recorded as follows:

Amount: 1.20 cfs Priority: 10/27/1913

Point(s) of Diversion: T3N, R10E, Sec. 33 SWNE. The water is used for irrigation, domestic, and heating purposes within T3N, R10E, Sec. 33 Lot 1 (NENW), total of 14 acres.

TO BE CHANGED AS FOLLOWS

Amount: 1.20 cfs

Point(s) of Diversion: T2N, R10E, Sec. 6, Lot 4 (NESWNE), and NWSENE; T3N, R10E Sec. 33 Lot 4 (NESWNE). New points are Springs. The water will be used for commercial purposes all year within T2N, R10E Sec. 6 Lot 4 (SWNE). The purpose of this transfer is to provide a consumptive use component for the commercial use (bottled water) of water from springs.

Any protest against approval of the proposed change of water right application must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, Idaho 83705 on or before August 5, 1991.

RE: Application for Permit No. 63-11554

Gentlemen:

We have received the Report of Analysis from Teledyne Isotopes which identifies the amount of tritium in samples taken at and near the well identified in the above-referenced application for permit. The data can be summarized as follows:

Tritium Levels:

Sample A (Taken from South Fork Boise River north of the well):
5.6 pCi/l $\pm$ 0.3 E 01 = 17 TU (Tritium Units)

Sample B (Taken from the well):
2.2 pCi/l $\pm$ 0.2 E 01 = 7 TU (Tritium Units)

In reviewing this data I enlisted the aid of Dr. John Welhan, Hydrogeologist and Geochemist from the Idaho Geological Survey. The consensus of the review is that the water supplies for which the tritium was measured are not identical. However, the tritium concentrations are not sufficiently different to suggest that the water in the well has been confined for decades. In this situation the tritium data are not conclusive but rather additional study is required to identify the degree of separation between the ground water aquifer and the surface water system at the well location.

If you wish to pursue the course of identifying a separation between ground water and surface water at the well site, you will need to hire a geohydrologist to prepare a supportive study for consideration by the Department. Given fact that you have the alternative of attempting to transfer to your site a water right from the Boise River valley, you have the option of deciding which course(s) to pursue. While you are making this determination we will continue to maintain this file in a "hold" status in our protest drawer.

Please feel free to contact me to discuss the elements of this letter or other aspects regarding the Trinity Springs project.

Sincerely,

David R. Tuthill, Jr.

RE: Water Rights in Willis Carrie's Paradise Subdivision

Dear Stan and Jock:

As you requested during our meeting yesterday, I am sending general information on water right processes and specific information on rights associated with Lot 38, Block 1 of the subdivision. I hope the information clarifies some questions that may arise during your board meeting.

Except for Applications for Permit and for approved Water Right Permits to establish new water rights, other types of water rights are appurtenant to the land described in the rights. In contrast, applications and permits are personal property owned by the applicant or permittee.

General Water Right Information

The diversion and beneficial use of surface water prior to 5/20/1971 can be considered an historical or grandfather use. Diversion and beneficial use of ground water prior to 3/25/1963 can be considered an historical or grandfather use. These dates reflect the implementation of the mandatory permit statutes requiring water right permits for new development after the specified date. Some uses are exempt from water right requirements. Exempt uses are defined in Idaho Code 42-111 and generally include minor uses described as domestic.

Statutory Claims, based on and named for Idaho Code 42-243, are claimed rights based on historical use. These are also known as grandfather or beneficial use rights. These claims are not verified by the department unless an adjudication (court action to summarize water rights within a specified area) occurs. Statutory claims can no longer be filed except for a few situations.

Permits are approved water right applications to develop and use water where first use occurred or will occur after the dates discussed above. A permit is personal property and is not attached to the land. A specified amount of time is allowed to develop the diversion and beneficial use proposed in a permit. Once developed and put to use, a department examiner or a certified private examiner conducts a field exam to verify the water development. A water right license is then issued. Licenses are appurtenant to the property where water is used (the place of use). However, if the development did not occur and the permittee did not obtain an approved extension of time to complete the development, the permit will lapse or be cancelled.

RECEIVED
JUN 30 1993

63-04221
copy

In an adjudication, most uses of water, whether or not such uses were previously recorded, must be recorded by filing adjudication claims. Again, exempted uses do not have to be recorded but can be recorded. Most of Idaho is currently involved in the Snake River Basin Adjudication (SRBA) that requires most water users to file adjudication claims to claim their water rights. **Historical uses that are not covered by statutory claims can be protected by filing adjudication claims.** Most existing water uses covered by statutory claims, permits, licenses, or court decreed rights must be protected by filing adjudication claims to claim the rights. This department assists in filing claims, reviews and verifies claims, and recommends the claims in one form or another to the court. Unclaimed rights or uses are not recommended as valid water rights. The court then considers the recommendations and any other pertinent information introduced within the adjudication process and finally adjudicates the rights. The water users obtain decreed rights from the court through this process. Therefore, statutory claims, permits, licenses, and adjudication claims based on valid information can be "ripened" into decreed rights.

Specific Water Right Information, Especially for Lot 38, Block 1

The rights related to the subdivision are statutory claim #63-04221 (Grouse Creek), permit #63-10559 (two wells), and permit #63-10560 (two hot springs). The permits are in the licensing process since field exams were conducted on 11/16/1989. Therefore, all three rights can be considered appurtenant to the property. When a split in land ownership occurs, appurtenant rights are automatically split on a prorata basis unless all or any portion of the rights are legally withheld or moved to other property.

An example of a possible grandfather right not previously recorded by a statutory claim that could be recorded by filing an adjudication claim is found at the recreation pond west of the highway and next to the two wells. If the pond was present prior to 5/20/1971, an adjudication claim should be filed to protect the diversion of the water. Otherwise, no valid right will be decreed for the pond and an illegal use of water will occur.

Turning to Lot 38, what rights are found there? A portion of rights 63-04221, 63-10559, and 63-10560 are reasonably considered to be appurtenant to Lot 38. The portion of each right attached to Lot 38 depends on the beneficial use described in the right and the percent of that use found on Lot 38 when compared to the remainder of the place of use. An example follows.

Claim #63-04221 was examined with a field inspection on 7/18/1991 because a transfer application was filed to change the right. Because the right is one that has not been previously verified, the extent of beneficial use developed under the claim had to be determined. The examiner found .11 cfs (49 gpm) for 3.7 acres of irrigation and .36 cfs (162 gpm) for cooling of the swimming pool and associated tubs for the Grouse Creek water development. The total rate of flow for the entire creek diversion was estimated to be .36 cfs. Lot 38 includes 49% of the irrigated area and 100% of the cooling use for the place of use for claim 63-04221. Therefore, a reasonable conclusion is that Lot 38 is entitled to 49% of 3.7 acres of irrigation and 100% of the cooling use.

JUN 30 1992

This translates to 1.8 acres of irrigation with .05 cfs (22 gpm) and .36 cfs for cooling, and the total does not exceed .36 cfs. The remainder of the right would be considered appurtenant to the rest of the place of use (.06 cfs for 1.9 acres of irrigation). As with any water right recommendation made by the department, the results can be challenged by the users.

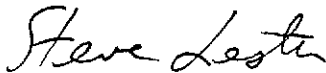

Once licenses are issued for 63-10559 and 63-10560, the portion of the licenses reasonably considered to be attached to Lot 38 can be determined in a similar manner. Due to a technicality in the adjudication process, adjudication claims do not have to be filed for these permits. Adjudication claim #A63-04221 was filed to protect statutory claim #63-04221.

Permit 63-10560 was filed and approved for 1.29 cfs or 579 gpm from the hot springs. The field examiner's recommendation included up to .64 cfs or 287 gpm. If more than .64 cfs is produced by the hot springs, the additional water can be considered available for new appropriations (new permits). Likewise, any water claimed from Grouse Creek but not recognized in the SRBA as a legitimate right can be considered available for new appropriations assuming that the creek flow is adequate to allow new rights to be developed. Also, new applications for Grouse Creek water can be filed and considered for approval at any time.

New appropriations for consumptive use of water that is considered tributary to the Boise River system face complications relating to existing water rights in the river basin. Essentially, any new right using such water for consumptive purposes must include a method to make up the loss to the river system to prevent injury to senior rights utilizing the river water. Tributary waters include surface water and possibly ground water.

I hope this information clarifies some of your questions. Please contact this office if you need more information.

Sincerely,

Steve Lester

Dave - A thought C Trinity Sp. Transfer:

Jude B. said they bought Lander's Cabin served by Lic. 63-08207 (Dixie Gulch) & permit

63-11051 (spring found to be trib. to Dixie Gulch)

Conducted exam on permit 8/15/91

MICROFILMED

Same D/I served by Lic. & permit Dec. issued

JUN 30 1993

for int/ext use (12 sta). Found watering of native vegetation but also a small circular plot of cultivated strawberries (15' diameter). Since we don't quantify the amount of yard use in ext part

of D/I beam recommendations (as long as $\leq 1/2$ pure), it
can be argued that Lic 63-08207 is available to
be transferred for up to 1.2 ata for replacement
water. Can recommend permit 63-11051 for .04 ds/1.2 ata
based on findings.

Perhaps Trinity Sp. Ltd would want to consider a
transfer of 63-08207 for this year if other replacement
water cannot be ~~found~~ found. This, of course, assumes
that they actually own the Landon Cabin property.

Cabin would then receive D/I H₂O from Spring 63-11051,
a cold H₂O spring unrelated to other Trinity Sp. Ltd.
appls.; Direct gold H₂O would be replacement H₂O
until it reach 1.2 at. limit in bottling H₂O for
sale.

Re: Application for Transfer No. 63-4221 in the name of
Trinity Springs Ltd.

Dear Protestant:

This office acknowledges receipt of your protest to the approval of the above-referenced application for transfer. The following are the principle items we can consider with respect to either approving or denying an application for transfer:

1. Are other water rights injured by the transfer?
2. Does the change constitute an enlargement in the use of the original right?
3. Will the proposed change conflict with the local public interest?
4. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At the conference, the Department will review possibilities for resolution of the protest. If the matter cannot be resolved at that time, a formal hearing will be arranged for a future date.

If we may be of assistance, please contact us.

Sincerely,

DAVID R. TUTHILL, JR., P.E.
Manager, Western Regional Office

August 2, 1991

Attention: David Tuthill

Dear Mr. Higgins and Mr. Tuthill,

This letter is submitted in protest to the Proposed Change of Water Right No. 63-04221.

This water has been used by the Paradise Homeowners Association as filed by their statutory claim (Prior water filings) and Snake River Adjudication claim No. A63-04221. We protest the attempt to change the point of diversion, place of use, period of use, or nature of use. To our knowledge, Trinity Springs Ltd. had no rental, lease, or equity basis in the residential subdivision or adjacent property at the time of this proposed change. This seems to be a blatant attempt to take an established water right from the Paradise Homeowners Association without consulting them.

We request a meeting or public hearing to present our objections.

Sincerely,

Harold L. Johnson
Member & Homeowner of
Paradise Homeowners Ass.

SUBJECT: PROTEST OF APPLICATION FOR PERMIT # 63-04221

DEAR MR. HIGGINSON;

I am hereby formally PROTESTING the above application by
TRINITY SPRINGS LTD.; #63-04221

This protest is based on TRINITY SPRINGS LTD. proposal
to change the designation of GROUSE CREEK WATER from Irrigation
to Commercial use. This change would cause material harm and
additional expense to PARADISE HOMEOWNERS should they lose their
irrigation water.

In addition the PARADISE HOMEOWNERS have not agreed to such
a transfer of GROUSE CREEK WATER RIGHTS.

Re: Application for Transfer No. 63-4221 in the name of
Trinity Springs Ltd.

Dear Protestant:

This office acknowledges receipt of your protest to the approval of the above-referenced application for transfer. The following are the principle items we can consider with respect to either approving or denying an application for transfer:

1. Are other water rights injured by the transfer?
2. Does the change constitute an enlargement in the use of the original right?
3. Will the proposed change conflict with the local public interest?
4. Will the proposed use be contrary to conservation of water resources within the state of Idaho?

The Department suggests you contact the applicant(s) directly in an effort to determine what is proposed by the application and to attempt to resolve the protest.

If this office has not been advised within twenty (20) days that the protest has been resolved, the matter will be scheduled for conference. At the conference, the Department will review possibilities for resolution of the protest. If the matter cannot be resolved at that time, a formal hearing will be arranged for a future date.

If we may be of assistance, please contact us.

Subject: Protest of Application for Transfer of Water Right
#63-04221

I protest the above application #63-04221 by Trinity Springs Ltd.

I protest on the basis that the Paradise Homeowners have not agreed to such a transfer of Grouse Creek Water Right.

I also protest the conversion of the Grouse Creek Water from irrigation to commercial. Material harm and additional expense would occur if I did not have irrigation water for our lot or the Paradise subdivision to use.

Very truly yours,

Karl L. Hansen

Attn: R. Keith Higginson

Dear Keith:

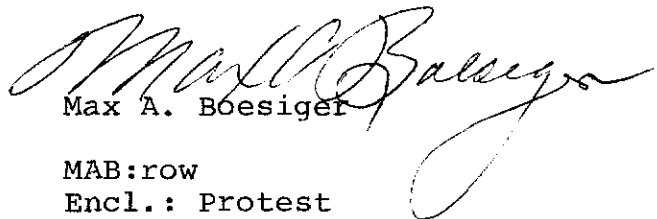

Attached is our protest of the water rights over-filing our water right #63-04221.

It is inconceivable that these people would attempt such a maneuver after taking 52 lot and homeowners into their confidence without making any mention of filing on the water rights.

I & my family, for one, have been using the hot and cold water at the Paradise location for 40 some years. I would appreciate you personally looking into this application.

Thanking you for your attention, I am

Sincerely,

Max A. Boesiger

Dear Mr. Higginson:

The Paradise Homeowners Association is hereby Protesting the above Application # 63-04221 by Trinity Springs Ltd..

The Protest is based on the following:

1. Paradise Homeowners Association has filed Notice of Claim to this water right under A63-04221 dated 8/17/89.
2. Paradise Homeowners Association does not agree to transfer this Water Right to Trinity Springs Ltd..
3. The Association requires the entire authorized amount applied for under A63-04221 or the amount determined by field examination by Mr. Steve Lester on July 18, 1991.
4. The Paradise Homeowners Association furnishes this water to 50 home lots, one Lodge lot with 9 structures, Wagontown lot, and 5 recreational lots.
5. The irrigated water is required for the lots noted in item 4 above and cannot be dried up as described in paragraph B.6.c. by the applicant.
6. Contrary to the statement signed by Mr. Jock Bell, there will be damage to lot owners, Paradise Homeowners Association, and the general condition of the Paradise Subdivision if such change were granted.

Very Truly Yours,
Paradise Homeowners Association

Earl B. Jackson
President

RE: Water Rights

Dear Jock:

As we discussed during the field visit yesterday, the diversion of water to the recreation pond located just south of the mouth of Grouse Creek requires a recorded water right. Enclosed is a partly completed adjudication form and a blank application for permit to appropriate water.

If the use of the diversion and pond can be documented to a date before 5/20/1971, an adjudication claim based on beneficial use ("grandfather right") can be filed. Documentation supporting the date does not need to be submitted with the claim; that step will be handled at a later date. If the use started on or after 5/20/1971, an adjudication claim is not valid and an application for permit must be filed (mandatory permit statute for surface water started 5/20/1971).

To submit the adjudication claim, complete items 2, 6, 7, 12, and 16. The estimated pond volume is 3.4 acre-feet. A claim can be filed for direct flow (cfs only) if the rate exceeds 1.68 cfs. That flow rate will provide the pond volume in a 24-hour period, which allows storage as a detail instead of a beneficial use listed in item 6. For a rate equal to or less than 1.68 cfs, the following beneficial uses should be shown in item 6:

diversion to storage from 1/1 to 12/31, x.xx cfs
recreation storage from 1/1 to 12/31, 3.4 a.f.
total x.xx cfs and 3.4 a.f.

In either case, the claim fee will be \$50 for the claim, \$50 for a late fee, and \$100 per 1.00 cfs claimed. You may ask for a waiver on the late fee by submitting the enclosed Request for Extension of Time. Do not pay the late fee if you submit the extension form. If the company did not own the property in question (pond site) by 12/7/89, state this as a reason for the request. Any other pertinent reasons can be included.

REPLY DUE ~ END OF August

JUN 20 1991

Proposed claim (no # yet) except for
date of priority.

Department of Water Resources
Western Regional Office

Dear Stan/Jock:

The Paradise Homeowners Association Board was happy to be able to meet with you on Sat. July 13, 1991. We were particularly encouraged by your plans to reopen the swimming pool and Paradise Lodge. All were happy to hear that you planned to clean up the Paradise Lodge and to clean the outside, plant grass, shrubs, flowers and to again irrigate the Paradise and Wagontown grass. Such actions as these will certainly upgrade the Paradise Subdivision.

The PHOA will cooperate and do what we can to improve the Paradise Subdivision.

For the inspection of Grouse Creek water by the IDWR you had designated Elmer Maas to Steve Lester as the Representative of PHOA. Elmer Maas is not a member of the PHOA and is not authorized to do so. Any representation of the PHOA will be by one of the PHOA Board members.

It is requested that questions, problems or any matter pertaining to the PHOA be directed to one of the PHOA Board members. This will result in better communications between PHOA and Trinity Springs.

Feel free to contact any of the Board Members at any time.

Sincerely,

Earl B. Jackson
President, PHOA

NOTICE OF PROPOSED CHANGE OF WATER RIGHT

No. 63-04221

Notice is hereby given that Trinity Springs, Ltd.
of Ketchum has applied to the Department of Water

Resources for a change of point of diversion, place of use, nature of use, period of use
of the water of Grouse Creek.

The right sought to be changed is evidenced by Statutory claim and
SRBA Adjudication claim no. A63-04221 and is recorded as follows:

Amount: 1.20 cfs Priority: 10/27/1913

Point(s) of Diversion: ~~TRN~~ T3N R10E S.33 SWNE

The water is used for irrigation, domestic, heating purposes within
T3N R10E S.33 Lot 1 (NE NW), total of 14 acres.

TO BE CHANGED AS FOLLOWS

Amount: 1.20 cfs

Point(s) of Diversion: T2N R10E S.5 L.4 (NESWNE), & NWSENE; T3N R10E S.33
L.4 (NESWNE)

The water will be used for Commercial purposes all year
within T2N R10E S.5 L.4 (SWNE). The purpose of this transfer is to provide
a consumptive use component for the commercial use (bottled water) of water
from springs.

Any protest against approval of the proposed change of water right
application must be filed with the Department of Water Resources,

Statehouse, Boise, ID 83720 on or before _____.

P
Dear Mr. Carrie:

The Department of Water Administration has completed the processing of your claim to a water right, and no further action is authorized under Section 42-225a and 42-225b, Idaho Code. Your claim will be retained in our files and will be available at any time for use by you or the court.

As you are aware, the filing of your claim does not, in itself, guarantee you a water right; it only records and preserves the information and the evidence which you included in your claim.

Y
If, at a later date, you find that you have additional information or supporting evidence that you would like to have included in your claim file, you may have that information or evidence added at any time. Please refer to your claim number when corresponding with this office.

We are enclosing, for your records, a copy of your claim. If you have any questions, or if we can be of further assistance, please feel free to call upon us.

Sincerely,

KENNETH H. FOIT, P. E.
Western District Engineer

Mountain Home News
P. O. Drawer 0
Mountain Home, Idaho 83647

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication. If you cannot publish the notice on the proposed dates, please contact us immediately.

An affidavit of publication must be submitted to the Department along with the publication bill. In order to receive payment, the following certification must appear on the bill:

"I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of the same has been paid."

(signature of claimant)

Sincerely,
