INSTRUCTIONS

Your claim should set forth all necessary information to describe your claimed right. Failure to give enough information may make your claim of little value. Some of the items in the form may not apply to your situation. Please use additional sheets if space provided is not sufficient to fully answer the questions.

Paragraph No.

1. Give full name and post office address of person or company making the claim.
2. Describe the point of diversion by 40-acre subdivision. Give the name of the source, the drainage to which it is tributary if surface water, and the county in which the point of diversion is located. If there is more than one point of diversion, list others in the remarks section.
3. Give the priority dates and the quantities of water that you claim. You should accurately list the dates that you initiated each new use of the water. List separately the dates and amounts of water involved in each enlargement of the diversion. (Example: if you diverted 0.8 c.f.s. of water for irrigation on May 18, 1871, for the first time for use on 40 acres of land, and then later you enlarged the diversion by diverting an additional 0.4 c.f.s. of water to irrigate an additional 20 acres of land on June 1, 1901, your right should be described as follows:

Date of priority claimed:	<u>May 18, 1871</u>	amount:	<u>0.8 c.f.s. or</u>	<u> </u>	acre feet
	<u>June 1, 1901</u>	amount:	<u>0.4 c.f.s. or</u>	<u> </u>	acre feet
		Total claimed:	<u>1.2 c.f.s. or</u>	<u> </u>	acre feet

Since the water was used for irrigation between April 1 and October 31 on that particular farm, part b. would be completed as follows:

use irrigation period of use from April 1 to October 31 (both dates inclusive). If the water had been used for any other purpose, you would have described the priority date, amount, use, and period of use in a similar manner.

4. Describe the diversion works and explain any changes since the right was first initiated.
5. If the water is used for irrigation, give the total acreage and list the lands irrigated by 40-acre subdivisions and complete the other questions.
- 6, 7, & 8. Describe any other uses of water.
9. In the remarks section, give any information or details that you feel are not fully covered or that need clarifying. You might explain your operation, where the water is returned to if for an industrial or non-consumptive right, the condition and temperature of the returned water, and any other information to help explain your claim.

You may wish to include as a part of your claim, affidavits of witnesses who are familiar with your right and who have a personal knowledge of the circumstances which you have described in your claim. You may submit maps, drawings, certified copies of posted notices which may have been filed in the county courthouse, water measurement records, or any other document which you feel will support your claim.

Your claim will be advertised in a county newspaper for two weeks. Exceptions to your claim which dispute the water right that you have described may be received by the Department of Reclamation and you will be provided a copy of such exceptions.

The fee for filing this claim with the Department of Reclamation, Room 107, Statehouse, Boise, Idaho 83701, is \$10.00.

Mr. Robert W. Hamilton

Boise, Idaho

Dear Mr. Hamilton:

Thank you for your letter of June 20, 1969. The June 5, 1969 publication referred to in my letter of June 17, 1969 caused some confusion here. Some people thought Placerville was not giving up it's old water right on the West Fork of Granite Creek while others felt that it was. Your letter seems to assure us that Placerville will retain the old water right on the West Fork. Therefore there is no cause for protest at this time.

The only possible reason for concern about the transfer of diversion point is the difference in the quality of water from the main Granite Creek and from the West Fork of Granite Creek. One can wonder if, over a period of time, there could be an unpleasant effect on the well waters that supply our homes. However, at the moment, I can think of nothing to do with that concern but file it for "wait and see".

Very sincerely yours,

Dear Mrs. Carpenter:

We have received your letter dated June 17, 1969 in which you protest the City of Placerville changing point of diversion. As I interpret your letter, you are opposed to the transfer as the city ~~intends to~~ abandon their water right. This is not true, however, as the point of diversion is being changed to provide the city with a system that will require less ditch maintenance and will reduce conveyance losses.

We are not treating your letter as a protest unless we receive further word from you. Please let us know as soon as possible if you still wish to protest this proposed change.

Department of Reclamation

Dear Mr. Higginson:

In the June 5 issue of the Idaho World is a NOTICE OF PROPOSED TRANSFER OF WATER RIGHT filed by the City of Placerville, Boise County, Idaho. I find the application somewhat puzzling since, to the best of my knowledge, the point of diversion for Placerville water is on the West Fork of Granite Creek. If the application above referred to means that the City of Placerville is giving up the old water right on West Fork of Granite I would like to register my objections to such an action.

I have had a home in Placerville for twenty two years and the town has been my only home for the past eleven years. Thru these years I have had a fair amount of information from the U.S. Geological Survey, Idaho Bureau of Mines and Geology and your own Department of Reclamation plus considerable personal ^{on} observation. There seems little doubt but that we are in ^{an} area with scant water.

For some time past the City has been selling lots for weekend, vacation and retirement homes. Several homes have been built. Each new home points to the need for more water. The mountain people of past years knew how to live with a short water supply but people today are bringing their urban and suburban living habits into the Boise Basin. I see no future for a lovely land but to husband every drop of available water. Placerville can not afford to give up the water from the West Fork of Granite Creek.

Mr. James Gundersen of Nampa, who owns the home next to mine in Placerville, has asked me to include his name in this protest. His reasons are the same as stated above. (I believe you had a phone conversation with Mr. Gundersen on June 16).

Mr. Van Jones whose permanent home is at Granite Creek, one mile above Placerville, would like to have his name added to this protest. Mr. Jones has been in this north west section of the Basin for many years, he has a knowledge of and a regard for the area and feels strongly that Placerville would make a serious mistake if it gives up it's West Fork water.

Very sincerely yours,

Elna L. Carpenter

Gentlemen:

Enclosed you will find a legal notice which we wish to have published once a week for two consecutive weekly issues of your newspaper. We have inserted the publication dates allowing ample time for you to submit us a galley proof for review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you can not publish the notice on the proposed dates please contact us immediately.

An affidavit of publication must be submitted to the Department of Reclamation, along with the publication bill. In order to receive payment, the following certification must appear on the bill:

I hereby certify that the foregoing account is just and correct, that the amount claimed is legally due, after allowing all just credits, and that no part of same has been paid.

Signature of claimant

Very truly yours,

Donald W. McElowney
Appropriation Examiner
