63-3561 was issued for 0.50 cfs for irrigation around the cabins. I feel the direct flow portion of this, 63-3619, license was an attempt to establish a rate of diversion for offstream storage. I suggest we enter rate as diversion to storage. Bob ✓ DICK

Note that a rate of flow appeared on this license, apparently from out of the blue. What would you suggest we do about this one? Leave license as is & data enter without direct flow? Issue amended license? Leave license as is and data enter as is?

Dear Mr. Davie:

One of the conditions of approval of your water Permit No. 63-3619 (see last page of your approved permit) was that evidence of the extent of ~~63-3619~~ development be submitted as proof of application of water to beneficial use to this office on or before Nov. 21, 1975. Enclosed is an affidavit form which must be used to submit the ~~required~~ proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. R-1232/63-3619

Board of Trustees
Village of Placerville
Placerville, Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.
