That he is the holder, or the duly authorized agent of the holder*, of Permit to Appropriate the Public Waters of the State of Idaho No. G-33532/63-3591.

That under the terms and conditions of said permit, work thereunder was required to be completed by April 3, 19 72.

That he has heretofore performed the following work described under said permit:

I have been negotiating with Idaho Power Company to get a
power line into this site. The proposed cost was not economically
feasible. I have now reached an agreement with them; however,
the flood conditions this winter and spring have been such that
I could not complete this well. Costing \$

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: Just as soon as the water has receded
sufficiently for the equipment to be moved in I will have the

Dear Mr. German:

One of the conditions of approval of your water Permit No. 63-3591 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 3, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33532 (New No. 63-3591)

Mr. Carl German
Route 2
Kuna, Idaho 83634

Dear Mr. German:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.
