Mr. Kenneth Foit
Western District Engineer
Department of Water Administration
Statehouse - Annex 2
Boise, Idaho

Dear Ken:

I represent Mr. Rex Jensen on matters relating to his water rights in Canyon County near the community of Melba.

We are filing, at this time, with the enclosed forms an application for permit and an application for amendment to permit No. 63-7082.

In a hurried check of the files the other day, I also found that a rough draft of a license has been prepared under permit No. 63-3578. I also found that a rough draft of an application for amendment has been prepared for that permit.

I would appreciate your advising me as to the status of that pending license. Mr. Jensen has instructed me to prepare the necessary amendment and work towards the early issuing of that water right license.

Sincerely,

Jack A. Barnett

Rex S. Jensen, Pres.
Malba, Idaho 83641

Gentlemen:

One of the conditions of approval of your water Permit No. G-33435/63-3578 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before February 1, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33435 (new no. 63-3578)

Eldorado Land and Livestock Corp.
Melba,
Idaho 83641

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
