RE: Water Right Licenses Nos. 63-3576 and 63-7700

Chaparrel Water Assoc.
Attn: George Rhodes
Pearl Route
Eagle, ID 83616

Dear Mr. Rhodes:

Enclosed is a copy of Water Right License No. 63-7700 and a copy of Amended Water Right License No. 63-3576. In reviewing Permit No. 63-7700 for licensing it was discovered that License No. 63-3576 was issued in error. We have corrected this error by adding an additional point of diversion on this license. We hope this error has not caused you any inconvenience.

Should you have any questions on this matter, please feel free to contact our office.

Sincerely,

Re: Permit No. 33425/63-3576

Gentlemen:

We acknowledge receipt of the assignment in connection with the above referenced permit. The assignment has been recorded and the Department's records changed accordingly.

A representative of this Department has made an examination of the works covered by this permit and has found the following:

Quantity of water diverted: 1.14 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 1.01 cfs

The maximum quantity diverted shall not exceed 180 acre feet per year.

Beneficial use: Irrigation of 36.5 acres within the SW $\frac{1}{4}$ SW $\frac{1}{4}$ (6), Sec. 9; N $\frac{1}{2}$ NW $\frac{1}{4}$ (30.5), Sec. 16; Twp. 5 N, Rge. 1 W, B.M. and domestic purposes within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 9; N $\frac{1}{2}$ NW $\frac{1}{4}$, Sec. 16; Twp. 5 N, Rge. 1 W, B.M.

Point of diversion: NE $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 16, Twp. 5 N, Rge. 1 W, B.M.

Priority date established: Jan. 16, 1967

If you do not concur with these findings, please advise us within 10 days of the date of this letter; otherwise, a water license will be issued as set forth above.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Land:

While processing your permit, we have found a change that should be made prior to the field examination.

P
Following your amendment and assignment filed on December 17, 1971, we have found that you have already submitted proof of beneficial use. The form you submitted does not include the land and point of diversion which is now included on your permit. We have retyped your Beneficial Use form and request that you sign it and have it notarized.

Please return the enclosed form prior to January 24, 1972. If you have any questions regarding this matter, please contact this Department.

Dear Mr. Land:

One of the conditions of approval of your water Permit No. G-33425/63-3576 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before January 24, 1972. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-33425 (New No. 63-3576)

Mr. Dan Land
Eagle
Idaho 83616

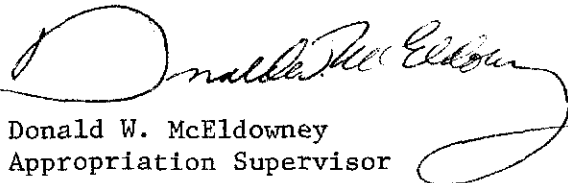

Dear Mr. Land:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof of beneficial use of water.

The enclosed order modifies the above referenced permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a newspaper as prescribed by the Department.

The advertising authorization was given to your son in October when he was in our office. When the authorization is returned, we will cause the notice to be published in the newspaper. If you have any questions regarding this matter, please contact us.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Got very little water after 280 feet
about 1 1/2 gal per hour
from 354 feet to 622 feet according to yonens
analysis of the sample consist of silty very
fine granite sand which was transported
into the valley by the payette river

The black and gray sand sized fragments
which appear occasionally as basalt
and were brought in from the north
& north west

The 2 inch casing was put down to 550
feet the balance to 663 feet was open hole
I pulled the casing all out and the hole
filled back up to 230 feet

I lost what little water that I had
500 + 510 feet but picked a little up I gain
The perforations from 229 1/2 to 248 1/2
where machine cut 324 perforations 3/16 x 3 before
the casing was put in

The rest above them where put in with
perforator after the casing was in they are 4
over 6 inches even spaced in circle and
staggered over 6 inches 212 in all 1/4 x 2

The reason I went on down figured
make could get water with less sand
I couldn't get the sand out or down as it
kept come in from the bottom so it is
plugged at 232 1/2 feet with a wooden plug
