DEPARTMENT OF WATER ADMINISTRATION

APPLICATION FOR EXTENSION OF TIME

State of Idaho)
County of ADA)

APPROVED

Permit No. G 33342/
63-3564

Edward A. Johnson of Boise, Idaho
(name) (address)

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. G-33342/63-3564

That under the terms and conditions of said permit, work thereunder was required to be completed on or before December 13, 19 71.

That he has heretofore performed the following work described under said permit:

The land has been surveyed, the boundaries determined, sprinkle pipe purchased, approximately 60 acres has been cleared of brush and prepared for planting, rock ~~clearing has been done and is continuing, approximately 40 acres is being seeded now and will be watered once this fall yet.~~ A well has been sunk and tested and paid for. (340 feet deep produces @2750gpm) A new electric motor and pump are now installed and in operation and paid for. Electric power has been extended to the project just 10 days ago

Costing \$ approx \$23,000
all free & clear

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: I have not wanted to risk large investment in a permanent sprinkle system and cultivation until the water source was assured. It is now and I plan to install a permanent system as soon as financially able and that should be in 72. Clearing of 400 acres and taking off the rock will take additional time. There is a lot more rock than I anticipated and the water cannot be used until planted after wthe rock is gone. I wasxdelayed at least one growing season by the Power Co. in their bringing the power line in over neighboring land. In short, I encountered more difficulty and expense to this point than I anticipated. Part of the ground will be in crop and watered by Nov 1 71 but I need some additional time on the balance.

WHEREFORE, he asks that the Department of Water Administration extend the time for the completion of obligations under said permit to December 13 19 74.

Dear Mr. Johnson,

A representative of this Department has made an examination of the works covered by your Permit No. 63-3564 , and has found the following:

Amount of water that can be recognized as beneficially used under Idaho law: 3.10 cfs Source: groundwater

The maximum quantity diverted shall not exceed 697.5 acre feet per year.

Point(s) of diversion: NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 35, Twp. 2N, Rge. 1E, B.M.

Beneficial use: Irrigation of 155 acres within the NW $\frac{1}{4}$, Sec. 35, Twp. 2N, Rge. 1E.

Priority date established: November 23, 1966

Conditions (if any): The maximum rate of diversion under this license when combined with License No. 63-7325 shall not exceed 5.35 cfs.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Dear Mr. Johnson:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

Before a field examination can be scheduled and a water license issued, it will be required that notice of the permit be published for two consecutive weeks, at your expense, in a newspaper as prescribed by the Department. If you will complete and return the enclosed advertising authorization, we will cause the notice to be published.

Please return the authorization at your earliest convenience and if you have any questions, feel free to contact us.

Sincerely,

Dear Mr. Johnson:

One of the conditions of approval of your water Permit No. 33342/63-3564 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 13, 1974. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

State of Idaho, being first duly sworn, upon his oath deposes and says:

That he is the holder, or the duly authorized agent of the holder *, of Permit to Appropriate the Public Waters of the State of Idaho No. G-33342/63-3564

That under the terms and conditions of said permit, work thereunder was required to be completed on or before December 13, 19 71.

That he has heretofore performed the following work described under said permit:

The land has been surveyed, the boundaries determined, sprinkle pipe purchased, approximately 60 acres has been cleared of brush and prepared for planting, rock clearing has been done and is continuing, approximately 40 acres is being seeded now and will be watered once this fall yet. A well has been sunk and tested and paid for (340 feet deep produces @2750gpm) A new electric motor and pump are now installed and in operation and paid for. Electric power has been extended to the project just 10 days ago Costing \$ approx \$23,000

That he is unable to complete the remainder of the work within the required time for the following reasons, to-wit: I have not wanted to risk large investment in a permanent sprinkle system and cultivation until the water source was assured. It is now and I plan to install a permanent system as soon as financially able and that should be in 72. Clearing of 400 acres and taking off the rock will take additional time. There is a lot more rock than I anticipated and the water cannot be used until planted after wthe rock is gone. I wasxdelayed at least one growing season by the Power Co. in their bringing the power line in over neighboring land. In shore, I encountered more difficulty and expense to this point than I anticipated. Part of the ground will be in crop and watered by Nov 1 71 but I need more additional time on the balance of Water Administration extend the time for the completion of obligations under said permit to December 13 19 74.

Desert Land Entry

Extension of Time Granted

On January 12, 1971, the above-named entryman made application for an extension of time within which to make final proof on desert land entry, I-017265.

The request has been regularly examined and considered, and the reasons given therefor appear to be adequate to justify an extension of time.

Pursuant to the Act of March 28, 1908 (35 Stat. 52; 43 U.S.C. 333), an extension of time of one year from the date final proof would have been due is hereby granted. Final proof will, therefore, be due on January 12, 1972. No further extensions of time beyond the one hereby granted should be contemplated by the entryman.

Re: Permit No. G-33342/63-3564

Mr. Edward A. Johnson
3414 Stone Creek Rd.
Boise, Idaho

Dear Mr. Johnson:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Dear Mr. Johnson:

The land included in your desert land petition-application Idaho 017265 was previously classified as suitable for entry under the desert land act. This classification is still proper.

According to your plan of development, water for irrigation is to be obtained from a well to be drilled. You must submit evidence of your right to appropriate and use the water. The evidence should consist of a copy of a State water permit approved by the State Reclamation Engineer. Attached is an extra copy of this letter. The copy should be submitted to the State Department of Reclamation at the time you apply for a permit. Unless they have knowledge that the land of the desert land application has been classified as suitable for entry, they may decline to issue the water permit. You should make arrangements with the State Reclamation Engineer to have a copy of the permit sent to this office.

We would appreciate receiving a copy of the permit within the next 30 days.
