Re: Permit No. 33313

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, a permit holder is required to publish a notice at his expense for two consecutive weeks in a paper as prescribed by the Department, stating that he has been issued a permit. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit. The Department, for convenience, is consolidating this notice and that for the amendment to be published for two consecutive weeks.

You will be required only to submit proof of beneficial use which is not due until November 21, 1972. You will be notified 60 days in advance of this due date.

Enclosed you will find departmental receipt #3097 in the amount of \$10.00 covering the advertising. Also enclosed is departmental receipt #3098 covering the amendment in the amount of \$5.00.

Should you have any questions regarding this matter, please feel free to contact the Department at any time.

Gentlemen:

We are returning your proof of completion of works, affidavit of holder which was submitted as required under the terms and conditions of Permit No. 33313.

Under Item 6 of the affidavit, you have listed that you have completed the diversion and ditch, which were indicated on your original permit as part of the works to be installed. However, on your permit you have referenced that in addition to the diversion and ditch, a reservoir and distribution lines were to be installed.

Please be advised that the department must be notified as to whether or not the balance of your works have been installed. If they have been installed, please correct your affidavit.

Under Item 7 of the affidavit, you have failed to indicate the capacity of the diversion works. This is required prior to the acceptance of your proof of completion of works.

Please clarify these items and return your affidavit of holder promptly.

Very truly yours,

Donald W. McElowney
Water Rights Clerk

Re: Permit No. 33313

Board of Trustees
Village of Placerville
Placerville, Idaho 83666

Gentlemen:

Under the terms of your Permit No. 33313 you are required to complete your diversion works on or before Nov. 21, 1967. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.

Very truly yours,

State Reclamation Engineer
