On October 25, 1966, Floyd T. Johnson applied to the Department of Water Administration (formerly the Department of Reclamation) for a permit to appropriate 0.20 cubic feet per second of water from a ground water source within the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Sec. 24, Twp. 4 N, Rge. 1 E, B.M., Ada County, to be used for irrigation and domestic purposes. On July 18, 1972, the Department forwarded letters to the protestants advising them of the findings of the field examiner and allowing them 15 days to notify the Department if they wished to continue their protest against the issuance of a water license. No response was received from the protestants.

THEREFORE, IT IS HEREBY ORDERED that the protests against licensing of Permit No. 33295/63-3555 be set aside and a water license issued.

Department of Water Resources
Administration

Mr. Floyd T. Johnson
8100 State Street
Boise, Idaho

We feel that the intent of the above referenced permit, if used as described, would injure our existing artesian wells located on lands adjacent to Mr. Johnson's. We also feel that any pumping for any use other than domestic, from Mr. Johnson's well, would lower the water table in the area considerably, thus stopping the artesian flow of our wells. If Mr. Floyd T. Johnson would agree to domestic use only, not to exceed 0.02 c.f.s. from his well, then we would have no further objections as to any further use under the above referenced permit.

Re: Permit No. 33295/63-3555 - Floyd T. Johnson

Mr. E. B. Wingstrom
Route # 1
Boise, Idaho

Dear Mr. Wingstrom:

On November 9, 1970, you protested the above referenced permit owned by Floyd T. Johnson. In that letter you stated that you would have no objection if Mr. Johnson used the well only for his domestic use.

The Department has recently completed an examination of Mr. Johnson's project and is now prepared to issue a water license in the amount of 0.02 cfs of water for domestic purposes for one residence.

Unless we hear from you within 15 days of the date of this letter, we will assume you have no objection to the issuance of a water license for this permit. If you have any questions regarding this matter, please contact us.

Sincerely,

BOBBY D. FLEENOR

Boise, Idaho 83702

Dear Mr. Johnson:

One of the conditions of approval of your water Permit No. G-33295/63-3555 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before November 1, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Mr. Stephen Allred

Dear Steve,

Please refer to the legal notice printed in the Idaho Statesman on 9 November and 19 November 1970 regarding a water permit approved on October 25, 1966 granted to Mr. Floyd T. Johnson, 8100 State Street to divert 0.20 cu. ft. per second of water from a ground water source and to be used for irrigation and domestic purposes. (Permit No. G 33295/63-3555)

As was expressed in the meeting in your office with you, Mr. Sampson, Assistant Land Commissioner, and myself present, our Department is concerned with the affect the above permitted flow will have on the well system at at our Area office at 8355 State Street. (Permit No. G 32867)

You have assured us that since we received the prior right any adverse affect on our available volume due to the Johnson permit would result in a cutting back of this later filing.

This will serve as a recording of our concern for the affect Mr. Johnson's water usage might have on our permit G 32867.

Thank you for your cooperation in this matter.

Very truly yours,

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until November 1, 1971; however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Idaho Statesman, Boise, Idaho and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Re: Permit No. G-33295 (New No. 63-3555)

Mr. Floyd T. Johnson
8100 State
Boise, Idaho

Dear Mr. Johnson:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor
