Re-exam of system to inspect booster pump.

Re-examined Mr. Lanham's system on 3/21/83 and as previously indicated by Mr. Lanham he does have a booster pump: 30HP Enclosed Motor, Serial # 2834033 with a Berkley pump Model B6TAL Serial # 5900867. His documents verified that it was installed on 7/30/1977. We should allow 2.0 cfs on the license rather than 1.49 cfs

REMARKS:
Per permit holder the maximum stockwater use is 200 hd range cattle DRT 3/2/83
Per permit holder, the pump will produce enough water to run 3 lines of 1/2 mile long each, with sprinkler heads every 30 feet. (88 sprinkler heads per line for a total of 264 heads) At 4 gpm/head this amounts to 1064 gpm. This indicates the original theoretical Q may be low. The permit holder indicates that he has a booster on the system, which was not described by the examiner, although the booster existed at the time of the exam. This should be verified via re-exam of the booster. DRT 3/31/83

Dear Mr. Lanham:

One of the conditions of approval of your water Permit No. 63-3540 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before September 1, 1977. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 33157/63-3540

Lucky Brands, Inc.
Emmett,
Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.
