Dear Mr. Huett:

A representative of this Department has made an examination of the works covered by your Permit No. 32977/63-3525 and has found the following:

Quantity of water diverted: 2.80 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.32 cfs

The maximum quantity diverted shall not exceed 72 acre feet per year.

Beneficial use: Irrigation of 16 acres within the WL/2SWL/4

(Lots 3 & 4) Sec. 30, Twp. 6 N, Rge. 5 W, B.M.

Source: Unnamed stream (Waste water)

Point of diversion: NEL/4SWL/4 Sec. 30, Twp. 6 N, Rge. 5 W, B.M.

Priority date established: July 8, 1966

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Huett:

One of the conditions of approval of your water Permit No. 32977/63-3525 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before July 15, 1971. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. 32977/63-3525

Mr. Edgar C. Huett
Route #2
Parma, Idaho

Dear Mr. Huett:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Dorian Clay,

Dear Mr. Huett:

Under the terms of your Permit No. 32977 you are required to complete your diversion works on or before July 15, 1967. I enclose blank affidavit to be filled out, sworn to by you before a Notary Public, or a Justice of the Peace, and returned to this office on or before the above date, or within ten days thereafter, for the purpose of making proof of completion under the said permit. Upon receipt of this affidavit in this office, provided the same satisfactorily shows the completion of the works substantially in accordance with the terms of the permit, a Certificate of Completion will be issued to you.

The certificate to be issued under this proof will not give a perpetual right to the use of water for which application was made, as it only confirms the completion of works of a capacity to divert and convey to the place of intended use a certain amount of water. The law requires that another proof be submitted when the water has been fully applied to a beneficial use, at which time license is issued for the amount of water actually in use. Information in regard to this last proof will be furnished on request.
