Gentlemen:

Enclosed is a legal notice which we wish to have published for two consecutive weekly issues of your newspaper. We have inserted the publication dates, allowing ample time for you to submit to us a galley proof for our review before publication.

After sending us a galley proof, proceed with the publication on the dates we have inserted, assuming the notice is correct. If we have any corrections, we will notify you before the first publication date. If you cannot publish the notice on the proposed dates, please contact the Department of Water Administration immediately.

The expense of the publication is to be paid by the Northwest Nazarene College,
Nampa, Idaho ATTN: Howard Miller, to whom you should furnish
an affidavit of publication.

Very truly yours,

Re: Permit No. G-32821/63-3498

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply them upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Supervisor

Dear Sir:

As you will note in the Remarks column of the Application for Permit to Appropriate the Subterranean Waters of the State of Idaho, both Northwest Nazarene College and our Architect on this new Library construction job were not sure what the capacity of our well for heating and cooling purposes would be until it was drilled and tested. It is certainly important to us that this permit be approved since our entire heating and cooling system is tied to the use of well water.

Please let us know if we can supply you with any additional information.

Sincerely,

Howard Miller

Gentlemen:

We have received a log on a well drilled for you in the NE~~SE~~SE~~4~~, Sec. 29, T. 3 N., R. 2 W., B.M. The test shows that the well is capable of supplying 20 gallons per minute, and is to be used for heating purposes. We find no record of a permit for this well.

Idaho Code, 42-229, as amended by the 1963 Session of the Legislature, provides that a permit to divert subterranean water must be obtained from this office in all cases where over 13,000 gallons per day or 9 gallons per minute will be diverted.

Idaho Code, 42-237a, provides that the State Reclamation Engineer may commence action to enjoin the illegal opening or excavation of wells, or withdrawal or use of water therefrom.

Form 3, Application for Permit to Appropriate Subterranean Water, and Instructions, are enclosed. May we hear from you?

Very truly yours,

R. KEITH HIGGINSON
Assistant State Reclamation Engineer
