Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Gentlemen:

It has been brought to our attention that on or about
May 17, 1967, you had a well drilled. The
well is reported to be located at a point in the ^{SE 1/4}
^{NE 1/4} Sec. ³⁴ ^{T 2N} ^{R. 1 W} B. M. for
Irrigation use.

A search of our records has failed to find your applica-
tion or approved permit. Under existing Idaho Statutes,
Sections 42-226, 42-229, and 42-230 of the Idaho Code, you are
required to file and obtain an approved permit before you
divert waters from a subterranean source, with the exception of
domestic wells which are defined under Section 42-111 of the Idaho
Code.

If we have overlooked your permit, please advise the
Department as to your permit number. However, if you have not
yet filled out an application for permit, please use the instruc-
tions and the blank application form which we have enclosed.

We will be very happy to assist you with any questions you
might have.
