Gentlemen:

One of the conditions of the approval of your permit no. G-32463/63-3460 was that proof of application of the water to beneficial use be submitted to this office on or before July 30, 1970.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Ham:

As of this date we have not yet received the affidavit of publication to be submitted in connection with the above referenced permit. Proof of beneficial use is not required until July 30, 1970; however, many newspapers do not keep copies of these advertisements in their files. We, therefore, recommend that you obtain this affidavit from the Idaho Daily Statesman, Boise, Idaho and submit it to the Department as soon as possible. This insures that when you are ready to submit proof of beneficial use there will be no unnecessary delay or added expense.

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department; previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner

Dear Mr. Holderness:

We have received a log on a well drilled for you in Sec. 11, T. 3 N.,
R. 1 E., B.M. The test shows that the well is capable of supplying
300 gallons per minute. We find no record of a permit for this well.

Idaho Code, 42-229, as amended by the 1963 Session of the Legislature,
provides that a permit to divert subterranean water must be obtained
from this office in all cases where over 13,000 gallons per day or 9
gallons per minute will be diverted.

Idaho Code, 42-237a, provides that the State Reclamation Engineer may
commence action to enjoin the illegal opening or excavation of wells,
or withdrawal or use of water therefrom.

Form 3, Application for Permit to Appropriate Subterranean Water, and
Instructions are enclosed. May we hear from you in the matter?

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer
