TO ALL WHOM IT MAY CONCERN:

This is to certify that United States of America Forest Service
of Ogden, County of Weber, and State of
Utah, the holder of Permit No. 32330, issued upon
Application No. 40478 bearing date of priority of May 2, 1965, (late proof)
diversion of 0.01 second feet of waters of North Fork Robie Creek,
a tributary of Mores Creek,

County of Boise, State of Idaho, for fire suppression and stock watering
purposes, has fully complied with the provisions of the laws of the State of Idaho
relating to the proof of completion of the works of diversion set out and described in said
Permit; that said works are adequate for diverting and conveying to the place of intended
use 0.01 second feet of the waters of North Fork Robie Creek,
a tributary of Mores Creek;

that the point of diversion of said waters is in the SE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 9, T. 4 N.,
R. 3 E., B.M.

and that the lands proposed to be irrigated by the use or place of use of said water are

Dear Mr. Wilcock:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. 32330 shows the reservoir is capable of conveying 0.5 miner's inches, or 0.01 c.f.s. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 1 (one) miner's inch per irrigated acre.

Upon receipt of the statutory fees totaling \$5.00, we will issue the Certificate of Completion of Works for 0.01 c.f.s. and the License and Certificate of Water Right for 0.01 c.f.s. confirming the right, with priority of May 2, 1965, to the use of surface water for domestic use and fire protection purposes.

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Donald R. Reed, Age 28, Idaho City, Fire Control Officer, U.S.F.S.

Box 4073, Idaho City, Idaho

Ques. 2. Are you acquainted with Regional Forester, U.S.F.S., represented by the
Ranger Jack Wilcock. 32330? How long have you known him and where does
he reside?

Ans. For 7 years, Ranger Station, Idaho City, Idaho

Ques. 3. Have you read or heard read said Permit No. 32330, and are you
familiar with its provisions and conditions?

Ans. Yes.

Ques. 4. State source of water supply, place of diversion, and describe works for
conveying water from point of diversion to place of use.

Ans. Head of tributary of ^{N.F.C.} Robie Creek. 8 Feet of 4" perforated fiber pipe,
buried in stream bottom. 20 feet of 1½ inch galvanized pipe, which connects the
fiber pipe to a 1000 gallon concrete storage tank.

Ques. 5. How many second feet of water do you estimate said works will safely
conduct to place of use, and how much water have you seen being so conveyed?

Ans. .01 cubic feet per second.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation,
give each subdivision in which water has been used and number of acres irrigated in
each subdivision.) State whether cultivated or natural meadow land and the nature

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water source has been developed for emergency fire use.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. N/A

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. Have maintained this development for the U.S. Forest Service for the past 4 years. I have no personal interest in this matter whatever.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. Water has been diverted from source to storage tank for emergency use in fire control. I have observed this use through the improvement above stated for the past four years through the summer months when the same is in use. This system is drained during the winter months. The usage of .01 CFS I have personally measured and confirm.

Dear Sir:

32329
32330
32331

Under the terms of your Permit No. 32331 you are required to make proofs of completion of works and application of water to beneficial use on or before **April 23, 1966**

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

Carl E. Tappan
