MY COMMISSION EXPIRES JUNE 28, 1971

NOTICE OF EXISTING WATER PERMIT

Notice is hereby given that the City of Caldwell, Caldwell, Idaho, has received an approved permit No. G-32313/63-3441 issued by the Idaho State Reclamation Department authorizing the diversion of 3.0 cubic feet per second of water from a ground-water source subject to all prior rights. The priority to be established under this permit is April 12, 1965 and the permit was approved April 16, 1965. Water is to be diverted by well and pump from a point within the NE1/4NE1/4, Sec. 27, T. 4 N, R. 3 W, B.M., Canyon County to be used for municipal purposes within the city limits of Caldwell.

Proof of the application of the water to beneficial use is to be submitted to the department on or before April 16, 1970. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

SUPPLEMENTAL MEASUREMENT DATA
18TH AND MAIN WELL
Caldwell, Idaho

February 25, 1970

Melvin G. Lewis, City Engineer, and Jack Johansen, Water Superintendent, for the City of Caldwell observed the Hersey-Sparling meter located in the discharge line of the pump and is registered 755 gallons per minute at a pressure of 65 pounds per square inch. Mr. Johansen stated that in the recent past this was an average reading although it could vary as the pressure in the water system varied.

Pumping of the well started on December 6, 1966.

The yearly totals are as follows:

<u>YEAR</u>	<u>TOTAL WATER PUMPED</u>
1967	254,120,000 gallons
1968	186,500,000 gallons
1969	185,850,000 gallons

The monthly totals of the water pumped in 1969 is as follows:

<u>MONTH</u>	<u>TOTAL WATER PUMPED IN GALLONS</u>
January	24,850,000
February	21,650,000
March	24,670,000
April	2,480,000
May	10,090,000
June	6,320,000
July	19,590,000
August	23,830,000
September	21,980,000
October	12,490,000
November	9,850,000
December	8,050,000

The water pumped from this well will be dependent upon its relationship to the total water produced by the six other wells and will vary up to the maximum continuous flow.

Dear Mr. Fleenor:

In accordance with our telephone conversation this morning, I'm requesting on behalf of the City that the license for the quantity of water diverted from the well in this permit be changed to the maximum quantity that could be pumped for a year at 2.03 c.f.s. rate.

The well is used for municipal purposes within the City of Caldwell and there is a very good likelihood that in the immediate future the quantity of water diverted from this source would exceed the maximum quantity of 780 acre feet indicated.

Thank you for your very kind consideration of this matter.

Yours truly,

Gentlemen:

A representative of this department has made an examination of the works covered by your Permit No. 32313/63-3441 and has found the following:

Quantity of water diverted: 2.03 c.f.s.

Amount of water that can be recognized as beneficially used under Idaho law: 2.03 c.f.s.

The maximum quantity diverted shall not exceed 780 acre feet per season.

Beneficial Use: Municipal purposes within the city limits of Caldwell, Idaho.

Point of diversion: NE $\frac{1}{4}$ NE $\frac{1}{4}$ Sec. 27, Twp. 4N, Rge. 3W, B.M.

The priority date established is : April 12, 1965

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

This well produces water for the City of Caldwell. There was a Hershey Spouting Meter installed. This meter read 780 gpm (1.73 cfs). But at time of measurement another well was pumping into the main line causing pressure decreasing the output of this well. Therefore we measured the well with free discharge with our Spouting meter which read 2.03 cfs.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?

Dear Mr. Lewis:

We acknowledge receipt of the affidavit of publication submitted in connection with the above referenced permit.

Before a license can be issued, a field examination must be made by a representative from this Department.

We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the examination. If someone other than yourself should be contacted, please advise.

Very truly yours,

Donald W. McEldowney

Dear Mr. Lewis:

We acknowledge receipt of the affidavit submitted as proof of beneficial use for the above referenced permit.

On December 1, 1969, a modification order for this permit was mailed to the City of Caldwell. Under item 2a of this order it states:

"Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies."

If you would please return the advertising authorization also forwarded on December 1, 1969, the Department will cause the legal notice for this permit to be published. After the legal notice has been published, you will be required to submit the affidavit of publication to the Department of Reclamation which may be obtained from the newspaper upon payment of the bill for publication.

Your assistance in this matter is appreciated. If you have any questions, please contact us.

Gentlemen:

One of the conditions of the approval of your permit
G932313/63-3441 was that proof of application of the water to
beneficial use be submitted to this office on or before _____
April 16, 19 70.

Enclosed is an affidavit form which must be used to submit
this proof. You may request an extension of time provided the
delay is for reasonable cause as indicated in Section 42-204, ICA.

Either the proof or a request for extension must be received
by this department on or before the above mentioned date, otherwise
the permit will lapse and be of no further force or effect.

Re: Permit No. G-32313 (New No. 63-3441)

City of Caldwell
Caldwell, Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit, ~~and are now submitting proof of beneficial use~~. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney

Dear Mr Thomas:

With regards to our Lansing Street well, this well was drilled and in use prior to the 1963 legislation. The driller's report should have shown the new well was drilled near Center Street. We will have him submit a corrected well log. Inasmuch as the Lansing Street well was drilled and in use prior to this law we are not making application for the right we have already established.

Enclosed please find an application for the new well drilled by Cushman and Johnson Drilling Contractors. The afore mentioned, well located off Center Street, is capable of producing 1400 gpm the pump will be installed and in operation within thirty days of this date.
