NOTICE OF EXISTING WATER PERMIT

NOTICE is hereby given that LLOYD MACKRILL, Route 2, Parma, Idaho, has received an approved permit No. G-32144 issued by the Idaho State Reclamation Department authorizing the diversion of 0.2 cubic feet per second of water from a groundwater source, subject to all prior rights. The priority to be established under this permit is November 16, 1964, and the permit was approved November 24, 1964. Water is to be diverted by well and pump from a point within the SE1/4 NW1/4, Sec. 19, T. 6N, R. 5W, B.M., Canyon County to be used for irrigation and domestic purposes in the SE1/4 NW1/4, Sec. 19, T. 6N, R. 5W, B.M.

Proof of the application of the water to beneficial use is to be submitted to the Department on or before November 24, 1969. Any protests against the issuance of a license for the above referenced permit should be filed with the Department of Reclamation within ten (10) days of the last date of publication of this notice or prior to the licensing of the permit. Licensing may commence prior to the date beneficial use proof is due without further notice.

Dear Mr. Mackrill:

A representative of this Department has made an examination of the works covered by your Permit No. 32144/63-3415 and has found the following:

Quantity of water diverted: 0.18 cfs

Amount of water that can be recognized as beneficially used under Idaho law: 0.14 cfs

The maximum quantity diverted shall not exceed 31.5 acre feet per year.

Beneficial use: Irrigation of 7 acres within the SE1/4NW1/4
Sec. 19, Twp. 6 N, Rge. 5 W.B.M.

Point of diversion: SE1/4NW1/4 Sec. 19, Twp. 6 N, Rge. 5 W.B.M.

Priority date established: November 16, 1964

If you do not concur with these findings, please advise us within 10 days; otherwise, a license will be issued as set forth in this letter.

Sincerely,

Dear Mr. Mackrill:

One of the conditions of the approval of your permit no. G-32144 was that proof of application of the water to beneficial use be submitted to this office on or before November 24, 1969.

Enclosed is an affidavit form which must be used to submit this proof. You may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code Amended.

Either the proof or a request for extension of time must be received by this department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Re: Permit No. G-32144

Lloyd Mackrill
Route 2
Parma, Idaho

Dear Mr. Mackrill:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with these rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Dear Mr. Anderson:

Enclosed are forms, legal notice of intention to make proof of completion of works and beneficial use of subterranean water with authority for publication.

Both proofs are made at the same time when subterranean water is involved and can be made at any time after the permit is issued, as shown on the approval, the time is on or before the due date.

Such proofs should not be attempted until the supply of water has been used beneficially.

Very truly yours,

RALPH W. THOMAS, Deputy
State Reclamation Engineer

Department of Reclamation,
State of Idaho,
Boise, Idaho,

Dear Sirs:

Re: Permit #6-32144, Lloyd Mackrill,
Applicant.

Having completed his well and the diversion works from
the same, the applicant is now ready to make proof of the completion
of the works, even though he may have five years in which to do so.
Kindly favor with some blanks.

As to the proof of the beneficial application of water to
use, I understand that five years must elapse!

Thanking you for the blanks,

I am,

Very truly yours,

Ernest Anderson

Dear Mr. Mackrill:

We have received a log on a well drilled for you in the NW¹/₄ SE¹/₄, Sec. 19, T. 6 N., R. 5 W., B.M. The test shows that the well is capable of supplying 400 gallons per minute. We find that there is no record of a permit for this well.

Idaho Code, 42-229a, as amended by the 1963 session of the legislature, provides that a permit to divert subterranean water must be obtained from this office in all cases where over 13,000 gallons per day or 9 gallons per minute will be diverted.

Idaho Code, 42-237a, provides that the State Reclamation Engineer may commence action to enjoin the illegal opening or excavations of wells, or withdrawal or use of water therefrom.

May we hear from you?

Very truly yours,

RALPH W. THOMAS
Deputy State Reclamation Engineer
