Gentlemen:

The Department of Highways has forwarded to the Department of Reclamation an affidavit of publication from your newspaper. On this affidavit for the above referenced permit, the Department finds that the number of the permit has been advertised incorrectly. The number was advertised as G-36157; whereas, it should have been G-31653.

On the galley that the Department received is a notation that a correction was called to your office. The Department, therefore, feels that you merely overlooked sending the Department of Highways an affidavit of publication for the corrected notice. The Department would appreciate it if you would forward directly to us the corrected affidavit.

Thank you for your cooperation and please contact us if you have any questions.

Re: Permit No. G-31653

State of Idaho
Department of Highways
P. O. Box 879
Boise, Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McEldowney
Appropriation Examiner
