Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. William F. Beasley, 43, 1216 Grant Avenue, Boise, Idaho, Fire Control Officer, Cottonwood Ranger District, Boise National Forest.

Ques. 2. Are you acquainted with Edward A. Harvey, Agent, the holder of Permit No. 31460? How long have you known him and where does he reside?

Ans. I have known him 7 years and he resides at 4315 Clark Street, Boise, Idaho

Ques. 3. Have you read or heard read said Permit No. 31460, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. Two springs - A tributary of Long Gulch in the NW¹ NE¹, Sec 31, T.3N., R.7E., B.M. There is a perforated pipe collection system at the springs; 1000 ft of 3 inch plastic pipe; and a 5000 gallon storage tank.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. 0.02 cfs, and I have seen approximately that much water being conveyed.

Ques. 6. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. Water is used for domestic purposes and fire protection at the Long Gulch Guard Station. There is 1 dwelling, 1 kitchen and 1 bunkhouse that use the water facilities.

31460

Ques. 7. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water is used for domestic purposes around the buildings at the Long Gulch Guard Station.

Ques. 8. If for irrigation, state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. N/A ✓

Ques. 9. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. No, except to use said water as needed on the station area.

Ques. 10. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I have observed the water in use for approximately six months of each summer season since 1959. The use has been for domestic purposes at the Long Gulch Guard Station. Approximately 0.02 cfs is used during the summer season.

STATE OF IDAHO
DEPARTMENT OF RECLAMATION

Re: Permit No. ³¹⁴⁵⁹
31460

Date: July 31, 1961

Regional Forester
Forest Service Building
Ogden, Utah

Dear Sir:

Under the terms of your Permit No. ³¹⁴⁵⁹
31460 you are required to make proofs of completion of works and application of water to beneficial use on or before October 16, 1961.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

Carl E. Tappan
