NOTICE OF APPROVED APPLICATION
FOR WATER

Notice is hereby given that the Nashua
Manufacturing Company, 200 North Maple
Grove Road, Boise, Idaho has received an
approved Permit No. G-31382 to divert 4.0
cubic feet per second of the water from a
subterranean source. The priority to be
established under this permit is September
13, 1963. Water will be diverted by a well,
pump, and storage tank within the SW1/4
SW1/4, sec. 12, T. 3 N, R. 1 E, B.M., Ada
County and is to be used for fire protection
in the SW1/4SW1/4, sec. 12, T. 3 N, R. 1 E,
B.M.

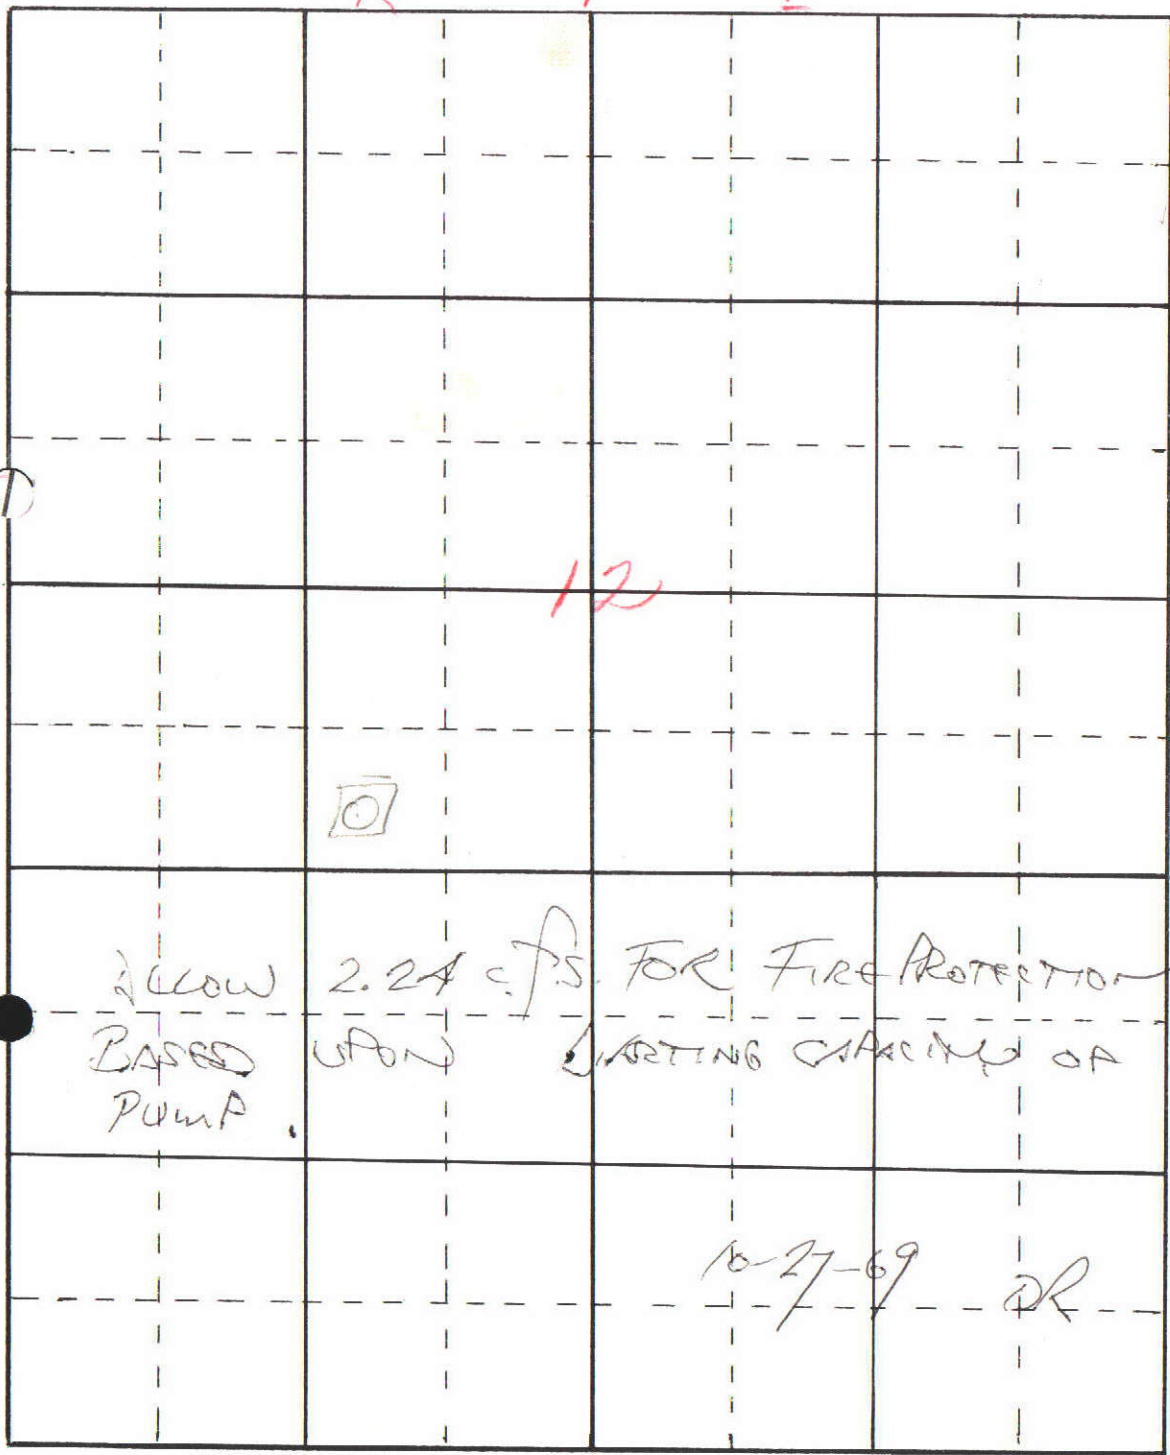

Any protests against the intent of this
permit must be filed with the Department of
Reclamation within ten days from the last
date of publication of this notice.

R. KEITH HIGGINSON
State Reclamation Engineer

SEP 6 1968

Department of Reclamation

1. a) Name of Permit Holder NASHUA MANUFACTURING COMPANY
b) Post Office Address 200 N. Maple Grove, Boise, Idaho
2. Permit Number G31382
3. Date of Priority that you are prepared to establish September 13, 1963
4. a) Source from which water was appropriated Subterranean
b) Location of the point of diversion: SW $\frac{1}{4}$ SW $\frac{1}{4}$, Section 12,
Township 3 N ^{Dr}, Range 1E Boise Meridian. Other points of
diversion: _____
5. a) The amount of water and use to which the water has been applied:
See item 5(b)
amount _____ for fire protection purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Mo-Day) (Mo-Day)
amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Mo-Day) (Mo-Day)
amount _____ for _____ purposes from _____ to _____ incl.
(cfs and/or acre feet per annum) (Mo-Day) (Mo-Day)
15,000 gal. for storage tank and sufficient water to fill the same
b) Total amount appropriated at a constant rate of 4.0 C.F.P. cfs and/or acre feet per annum
c) Describe how and by whom measurement of rate of flow or amount of storage was made
and the qualifications of the person making the measurement: Because the water is used
for fire protection purposes, the rate of flow is measured every six
months when the pump is tested by engineers for Factory Mutual Ins. Co.
of California.
6. If the means of diversion and conveyance are owned by someone other than the Permit
Holder:
Not Applicable.
a) Give the name or description of the canal, ditch or other works by which the water is
conducted to the place of use: _____
b) Describe the agreement or understanding by which you take water from the works: _____
7. a) Briefly describe the works for diverting and conveying the water to the place of use,
(If from a subterranean source, give the pump size, motor size, size of well casing,
depth of well; if from surface water, give brief description of diversion structure and/or
canal or ditch) Water is obtained from a well; Fairbanks Morse--g922F
1000 gpm @ 100 psi; Motor--Continental 200 hp natural gas; Depth of
well 583'; well casing: 16" dia. 0' to 431', 12" dia. 0' to 507' 11";
and 8" dia. 493' to 483'

31382

b) Describe the type and size of measuring device which you have installed at your point of diversion: Only at time of flow test when tested by engineers for Factory Mutual Ins. Co.

c) Give well drillers name and address and date the well was completed William Lukehart; completed on February 24, 1964.

8. If for other than irrigation, describe the beneficial use to which you have applied the water and the place of use The water is pumped from the well into a 15,000 gal. storage tank which is used for fire protection at the manufacturing plant. The storage tank is kept full but water is only used during tests of the fire equipment and to replace lost water when lines are cleaned once a year.

9. Irrigation uses: Describe the lands irrigated by giving the acreages irrigated within each 40 acre subdivision. Not Applicable.

TWP.	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOT
			NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	NE 1/4	NW 1/4	SW 1/4	SE 1/4	

Total number of acres irrigated _____

10. Remarks: To ensure a correct water right for our fire protection needs, it is requested that the right be considered to be 15,000 gal. for the storage tank and sufficient water to fill that tank at a constant rate of 4.0 C.F.S.

The above information is a true statement of the extent to which the above numbered permit has been developed.

Gentlemen:

A representative from this department has made an examination of your works covered by Permit 63-3367. The works were found capable of producing 2.24 c.f.s. of which 2.24 c.f.s. can be recognized as beneficially used and licensed under Idaho law. The water is used for fire protection in SW1/4SW1/4, Section 12, Twp. 3N, Rge. 1E, B.M.

If you disagree with the findings, please advise us within 10 days; otherwise, a license will be issued showing the findings as set forth in this letter.

Re: Permit No. G-31382

Nashua Mfg. Co.

200 North Maple Grove Road
Boise, Idaho

Gentlemen:

During the 1967 session of the Idaho Legislature, certain amendments were made in the law pertaining to the procedures for making proof of beneficial use of water. In order for the Department to comply with these changes, Rules of Practice and Procedure were adopted on August 1, 1968. Generally, these procedures and the amended law make it simpler for a person to make proof and relieve the permit holder from making separate proofs of completion of works and beneficial use of water.

The enclosed order modifies your permit to comply with those rules and regulations. As a part of the new procedure, you will be required to publish a notice at your expense for two consecutive weeks in a paper as prescribed by the Department, stating that you have been issued a permit and are now submitting proof of beneficial use. Previously, a permit holder had to publish a notice for four weeks when he submitted proof under his permit.

If you will complete the enclosed forms, we will cause the notice to be published. Should you require additional forms or information, we will be glad to supply it upon request at any time.

Very truly yours,

Donald W. McKelowney
Appropriation Examiner

~~Permit No. G-31382~~

31382

NOTICE OF APPROVED APPLICATION FOR WATER

Notice is hereby given that the Nashua Manufacturing Company, 200 North Maple Grove Road, Boise, Idaho has received an approved Permit No. G-31382 to divert 4.0 cubic feet per second of the water from a subterranean source. The priority to be established under this permit is September 13, and 1963. Water will be diverted by a well, pump, /storage tank within the SW $\frac{1}{4}$ SW $\frac{1}{4}$, sec. 12, T. 3 N, R. 1 E, B.M., Ada County and is to be used for fire protection in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, sec. 12, T. 3 N, R. 1 E, B.M.

Any protests against the intent of this permit must be filed with the Department of Reclamation within ten days from the last date of publication of this notice.

R. KEITH HIGGINSON
State Reclamation Engineer

Mr. R. Keith Higginson
State Reclamation Engineer
Boise, Idaho

Dear Mr. Higginson:

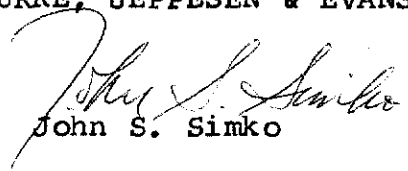

As you know per our letter of August 7, 1968, our firm represents the Nashua Manufacturing Company, who filed an application for a permit for the appropriation of ground waters. The application was received by your department on September 13, 1963, as Application No. 39488, Permit No. G31389.

Enclosed find the affidavit of proof of application of water to beneficial use prepared by our client. Enclosed also is an authorization for publication signed in blank by our firm who will be responsible for the costs of publication. Due to the change in statutory procedures since the time the application for a permit was filed and this date, your department is going to publish the granting of the permit; however, since we do not know exactly what you desire to publish, we have given the blanket authorization for publication. If you have any questions concerning our proof of application of water to beneficial use, please feel free to contact us as the establishment of a water right for our client's fire protection purposes is critical to its business.

Very truly yours,

ELAM, BURKE, JEPPESEN & EVANS

POD Form 3877-A - July 1958

BEFORE THE STATE RECLAMATION ENGINEER

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT NO. G-31382)
in the name of Nashua Mfg. Co.)

ORDER MODIFYING REQUIREMENTS
FOR COMPLETION OF PERMIT TO
APPROPRIATE WATER

WHEREAS, the 39th Legislature made certain amendments to the Idaho Water Law; and,

WHEREAS, these changes raised questions as to the procedures to be followed by holders of permits issued prior to the effective date of the amendments, May 31, 1967; and,

WHEREAS, on August 1, 1968, the Department of Reclamation adopted Rules of Practice and Procedures for the processing of such permits issued prior to May 31, 1967; and,

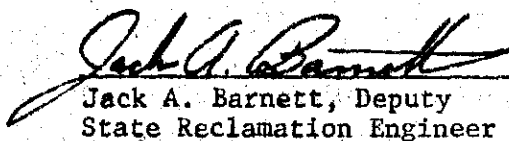

WHEREAS, Permit No. G-31382 was issued previous to that date;

NOW THEREFORE, the requirements for completion of the above-numbered

permit are hereby modified to conform to the adopted Rules of Practice and Procedures as follows:

1. The above-numbered permit will be completed under the terms of Title 42, Chapter 2, Idaho Code, as amended by the 39th Idaho Legislature.
2. The conditions of the above-numbered permit are modified as follows:
 - a. The permittee will not be required to submit proof of completion of works as originally specified, but will be required to submit proof to the Department of Reclamation of the application of the water to beneficial use on or before September 13, 1968. The permit holder should be aware that failure to complete one-fifth (1/5) of the works within one-half (1/2) the time originally set for Completion of Works may be grounds for cancellation at the instance of the Department.
 - b. Notice of the issuance of the permit will be published at the permit holders expense for two weekly issues in the official newspaper of the county in which the point of diversion lies.

Dated this 16th day of September, 1968.

NOTICE OF PROOF OF COMPLETION OF WORKS AND
APPLICATION OF WATER TO BENEFICIAL USE

Department of Reclamation

Notice is hereby given that on _____ at _____,
County of _____, State of Idaho, before notary public (name & address) _____,
proof will be
submitted of the completion of works for the diversion of 4.0 c.f.s. of the waters
of a subterranean source, and the application to beneficial use of said water,
in accordance with the terms and conditions of permit G-31382, heretofore issued by
the Department of Reclamation of the State of Idaho.

1. The name and address of permit holder is Nashua Mfg. Co., 200 North
Maple Grove Road, Boise, Idaho.
2. Said works of diversion will be fully completed on the date for such completion,
and the amount of water which said works are capable of conveying to the place of use is
4.0 cubic feet per second.
3. The use to which said water has been applied is _____
fire protection purposes, and the amount applied to beneficial
use is 4.0 c.f.s.
4. The point of diversion of said water is SW1/4, Sec. 12, T. 3 N, R. 1 E,
B.M., Ada County.
5. The place where said water is used is SW1/4, Sec. 12, T. 3 N, R. 1 E, B.M.

_____.
6. The date of priority which said user is prepared to establish is _____
September 13, 1963.

Mr. R. Keith Higginson
State Reclamation Engineer
Boise, Idaho

Dear Mr. Higginson:

Our firm represents the Nashua Manufacturing Company who filed an application for permit for the appropriation of subterranean waters. This was received by your Department on September 13, 1963, as Application No. 39488, Permit No. 31382. I am enclosing the form authorizing the Department to publish the required notice signed by a duly authorized officer of Nashua Manufacturing Company. I note that there is still time to publish the notice for four consecutive weeks if the publication is started on Thursday, August 15, 1968, in the Intermountain Observer.

I question the necessity of the notice procedure in view of the statutory changes that have eliminated this procedural requirement and so we must comply with your request routinely and under protest. Nevertheless, we will follow the procedure you outline since it would serve no purpose to provide proof by some other means if it can be done this way.

I left the date blank but the proof will be taken on September 9, 1968, at the office of Elam, Burke, Jeppesen & Evans, County of Ada, before Carl P. Burke, a notary public, 1010 Bank of Idaho Building, Boise, Idaho.

31382

Mr. R. Keith Higginson
August 7, 1968
Page Two

If there are any questions concerning this procedure that I should be aware of I would appreciate your calling me immediately because we want to follow through with this application in the proper manner. If any costs are assessed, this firm will be responsible for the cost of publication, etc.

Sincerely yours,

ELAM, BURKE, JEPPESEN & EVANS

Re: Permit No. G-31382

June 28, 1968

Nashua Mfg. Company
200 North Maple Grove Road
Boise, Idaho

Gentlemen:

Proof of completion of works and application of water to beneficial use for the above referenced permit is due not later than September 13, 1968.

Under the terms of your permit, it is required that a notice be published once a week for four consecutive weeks in a local newspaper showing your intent to submit proof. The proof will consist of depositions which the permit holder and two disinterested witnesses must complete before the listed notary public, and must be accompanied by an affidavit of publication of the legal notice.

We have prepared the enclosed notice from the information on your permit. The complete name and address of a notary public of the State of Idaho must be entered together with a date for you to appear before the notary. Allow at least 40 days from the date the notice is mailed to this department for your appearance before the notary.

If you find any discrepancy in the notice or have made any changes, please advise this department and we will assist you in doing whatever may be necessary to assure correct publication.

If the enclosed notice is correct, complete the blank spaces on both forms, sign the form authorizing us to publish the notice at your expense, and return all forms. At the time we send the notice to the newspaper, you will be supplied with further instructions.

If you do not desire to complete the proofs and obtain a license of water right, you are requested to complete the relinquishment portion of this form below and return it to the Department of Reclamation.

State Reclamation Engineer

RE LINQUISHMENT

I hereby relinquish to the State of Idaho, all my right, title and interest in and to Permit to Appropriate the Public Waters of the State of Idaho, No. _____.

Re: Permit No. G-31382

Nashua Mfg. Company,
200 N. Maple Grove Rd.,
Boise, Idaho.

Gentlemen:

We enclose Permit No. G-31382 in which we direct your attention to the limitations and conditions as given on the fourth page under approval of the State Reclamation Engineer.

We also enclose Departmental Receipt No. G-8249 which was issued covering payment in the amount of \$5.75 for the filing fee of the above mentioned permit.

You will note, under Question 10, that we have changed the required time for completion of works and complete application of the water to the proposed use to five years. However, you may make the required proofs at any time you are prepared to do so within that time.

Very truly yours,
