Dear Mr. Harvey:

Our field examiner's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. 31187 shows the concrete spring box and troughs are capable of conveying 0.01 c.f.s. or 0.5 miner's inch. However, due to the limitations of your permit, we can only allow the amount of water originally requested, the amount of water actually used beneficially, or 0.8 miner's inch.

Upon receipt of the statutory fees, totaling \$5.00, we will issue the Certificate of Completion of Works for 0.01 c.f.s. and the License and Certificate of Water Right for 0.01 c.f.s. confirming the right, with priority of June 10, 1963, to the use of surface water from Cold Spring with the point of diversion in NW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 32, T. 5 N, R. 6 E, B.M., for stock watering.
