Dear Sir:

This acknowledges the Notice of Proof of Completion of Works and Application of water to Beneficial Use under Permit No. 31182. The proofs are to be made at 10:00 o'clock A.M., on the 17th day of August, 19 64, before W. H. Trail, Mountain Home, Idaho, Notary Public.

As of this date, we have mailed the Notice to the Mountain Home News Mountain Home, Ida., with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the AFFIDAVIT OF PUBLICATION.

Dear Mr. Tappan:

Reference is made to Mr. Ralph Thomas' letter of June 30, 1964. We realize that it is difficult to keep track of the various checks in payment on our water right applications. As our checks are made out at a disbursing office, and mailed directly to you, we do not have any means to attach a slip to them to identify the permit for which they are intended. However, we are working out a method whereby the permit number will appear on the check. According to our records, a check was made payable to you for \$1.00 on June 2, 1964, which was to have been credited to the amendment of Permit No. 31182.

The voucher that was signed on May 27, 1964, has been processed and sent to the disbursing office for payment. This was to cover amendment fees on Permits Nos. 31434, 30940, and 30949. As this check was handled near the end of the fiscal year, a slight delay may have occurred. It should be in your office within the next few days. A new date of August 10, 1964, has been set when proof of appropriation and beneficial use of water under Permit No. 31182 will be made before W. H. Trail, Notary Public, at Mountain Home, Idaho.

We wish to thank you for your fine cooperation and handling of our water right matters.

Sincerely yours,

Dear Mr. Tappan:

Reference is made to Mr. Ralph Thomas' letter of June 19, 1964.

It appears that we failed to submit a voucher for payment of the amendment to Permit No. 31195, and that the payment intended for the amendment to Permit No. 31182 was applied to this account.

Enclosed is a voucher for \$1.00. Please sign and return it so that payment can be made, and the amount properly applied.

As our checks are made out in New Orleans, Louisiana, and mailed directly to you, it is not possible to attach a slip to them; however, we will request that the permit number be printed on the check. Dear Sir:

We have been holding the legal notice of intention to make proofs under Permit No. 31182, waiting payment for amending the point of diversion. The notice showed that the proofs were to have been made June 12th.

To eliminate delays and confusion, I suggested in a letter dated June 19th, that we could change our procedure and send final statement of fees due, upon receipt of the proofs of completion of works. I also requested some identification with the check which could be a slip of paper showing permit number. The check for the \$3.00 voucher mailed to you May 27th has not been received.

We would be glad to consider any suggestions you may have in method of operation in this regard.

Kindly furnish a new date when you will make proofs of completion of works and beneficial use of water under Permit No. 31182 before W. H. Trail, Notary Public, Mountain Home, Idaho, and the legal notice will be sent to the Mountain Home News.

Dear Sir:

We received your letter of June 17th, in regard to \$1.00 fee for recording the amendment to Permit No. 31182.

Our records show that the signed voucher for \$1.00 was returned to you May 12th. June 8th we received check for \$1.00 which was credited to the amendment of Permit No. 31195, which was possibly ~~was~~ in error. See Receipt No. 32273, sent to you June 8th. There was a fee due under both permits.

Keeping track of payments due under the many permits hold by the Forest Service is almost impossible. The check arrives with nothing to show where payment should be credited.

It would be appreciated if a small slip could be attached to the check with permit No. shown.

Possibly a change in our regulations would, at least lessen the chance for error. We will make note of fees due for amendments, copies or such service and include them in the final statement of fees due, after the field examination or in case you make proof of completion of works, before we issue that certificate.

Kindly advise if you approve this change.

Attn: Regional Forester

Gentlemen:

Enclosed are notices of proof of completion of works and beneficial use for permits No. 31179, No. 31182 and No. 31183. Also, your voucher for \$26.00.

As mentioned previously, no payment is due when submitting notices for publication. You will be notified of the fees due subsequent to field examination by this department of the works and premises.

The following is needed:

Permit No. 31179 - Proof of completion of works has already been made for this permit. Proof of beneficial use is all that is needed. Form 10 is enclosed for this purpose. Our records show 5 acres in the S $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 35, T. 6 N., R. 9 E. You did not include it on the notice. Please add it on Form 10, if applicable.

Permit No. 31182 - Our records show Lot 3 instead of Lot 6 for point of diversion. Amendment required if changed. Form for point of diversion amendment is enclosed.

Permit No. 31183 - Our records show Lot 6 instead of Lot 5 for point of diversion. Amendment required if changed. Form for point of diversion amendment is enclosed.

Permit No. 31195 - There is a fee of \$1.00 for recording amendments. We will hold notice until fee is received.

If point of diversion amendments are made for #31182 and #31183, please send voucher for \$3.00 to cover all three amendments.

Please handle these matters promptly to avoid advancing the date for submitting proofs.

Very truly yours,

CARL E. TAPPAN
State Reclamation Engineer

Dear Sir:

Under the terms of your Permit No. see above you are required to make proofs of completion of works and application of water to beneficial use on or before **June 12, 1964**.

Before this proof can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper in the county.

We enclose Form 36-A in duplicate, which is to be filled in and returned to this department at least forty (40) days before the above mentioned date and/or before the time you intend to make proof (this may be at any place that is convenient for you and your two witnesses), the quantity of water, for what purpose it is used, the point or points of diversion and the location of use, or lands which are irrigated - - by legal description. Descriptions should be taken from your Permit, including any amendments thereto, as recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your notice is published, or you may have to readvertise and complete another set of proof forms.

Also enclosed is Form 11, which is the authorization for us to have the notice published in the designated county newspaper, at your expense. This is to be returned with Forms 36-A

At the time we send the notice to the newspaper we will send you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, and at the place named, before the Notary Public as advertised in the publication notice.

The amount of water allowed in a license cannot be more than is actually produced and measured and put to beneficial use, and cannot be more than the statutory amount allowable per acre of land actually found by the field inspection to have been irrigated at the time of proof.

Very truly yours,

Carl E. Tappan
