1. Proof of application of water to beneficial use shall be submitted on or before **October 1, 2006**.
2. Subject to all prior water rights.
3. Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which permit holder had no control.
4. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

MICROFILMED

State of Idaho
Department of Water Resources
Permit to Appropriate Water

NO. 63-31261

5. After specific notification by the Department, the right holder shall install a suitable measuring device or shall enter into an agreement with the Department to determine the amount of water diverted from power records and shall annually report the information to the Department.
6. The Director retains jurisdiction to require the right holder to provide purchased or leased natural flow or stored water to offset depletion of Lower Snake River flows if needed for salmon migration purposes. The amount of water required to be released into the Snake River or a tributary, if needed for this purpose, will be determined by the Director based upon the reduction in flow caused by the use of water pursuant to this permit.
7. Rights 65-13933 and 63-31261 when combined shall not exceed a total diversion rate of 8.00 cfs, a total annual maximum diversion volume of 1800.0 af at the field headgate, and the irrigation of 400 acres.
8. This right is limited to the irrigation of 200 acres within the place of use described above in a single irrigation season.
9. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.5 afa per acre at the field headgate for irrigation of the lands above.
10. Water bearing zone to be appropriated is 340 to 520 feet.

This permit is issued pursuant to the provisions of Section 42-204, Idaho Code. Witness the signature of the Director, affixed at Boise, this 2nd day of October, 2001.

KARL J. DREHER, Director

MICROFILMED

BEFORE THE DEPARTMENT OF WATER RESOURCES

OF THE

STATE OF IDAHO

IN THE MATTER OF PERMIT TO APPROPRIATE)
WATER NO. 63-31261 IN THE NAME OF)
DANIEL B. HANSEN AND/OR KAREN L. HANSEN)

**ORDER GRANTING PETITION
FOR RECONSIDERATION**

This matter having come before the Department of Water Resources (Department) as a petition to reconsider the issuance of a permit to appropriate water, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On September 18, 2001, the Department issued Permit to Appropriate Water No. 63-31261 (permit) to Daniel B. Hansen and/or Karen L. Hansen (right holders) for the diversion and use of 4.00 cfs of ground water to irrigate 400 acres in Payette County.
2. The permit was issued as a preliminary order (order) of the Department pursuant to §67-5243, *Idaho Code*, and Rule 730 of the Department's Rules of Procedure (IDAPA 37.01.01.730).
3. Rule 730.02.a. of the Department's Rules of Procedure (IDAPA 37.01.01.730.02.a.) provides in pertinent part as follows:

Any party may file a petition for reconsideration of this preliminary order with the hearing officer issuing the order within fourteen (14) days of the service date of this order. The hearing officer issuing this order will dispose of the petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law.

4. Condition of Approval No. 7 on the permit says:

Rights 63-13933 and 63-31261 when combined shall not exceed a total diversion rate of 8.00 cfs, a total annual maximum diversion volume of 1800.0 af at the field headgate, and the irrigation of 400 acres.

5. On September 26, 2001, the Department received a petition for reconsideration of the order (petition) from a representative of the right holder. In the petition the right holder's representative asks IDWR to change Condition of Approval No. 7 on the permit to refer to Right 65-13933 instead of Right 63-13933.

6. The reference to Right 63-13933 in Condition of Approval No. 7 on the permit is a typographical error. There is no Right 63-13933. The appropriate reference is to Right 65-13933.

CONCLUSIONS OF LAW

1. The petition was filed timely.
2. The Department should grant the petition and correct the typographical error on the permit.

ORDER

IT IS HEREBY ORDERED that the petition for reconsideration of the preliminary order issuing Permit to Appropriate Water No. 63-31261 is **GRANTED** pursuant to §67-5243, *Idaho Code*.

IT IS FURTHER HEREBY ORDERED that the permit is **CORRECTED** as shown on the Permit to Appropriate Water No. 63-31261 issued on this date in conjunction with this order.

Dated this 2nd day of October, 2001.

RE: Order in the Matter of Permit No. 63-31261

Dear Permit Holder(s):

Enclosed please find an Order Granting Petition for Reconsideration issued by the Department in reference to the above listed information. Also enclosed is a corrected permit issued in conjunction with the order.

The corrected permit is a **PRELIMINARY ORDER** issued by the Department pursuant to Section 67-5243, Idaho Code. It can and will become a final order without further action by the Department unless a party petitions for reconsideration or files an exception and/or brief within fourteen (14) days of the service date as described in the enclosed information sheet.

As a permit owner you must commence the excavation or construction of the diverting works within one year of the date the permit was issued, and you must proceed diligently until the project is completed. The date shown under condition no. 1 is the date when the project must be completed.

The Department will send you a 'Proof Due Notice' approximately 60 days prior to the above referenced date requesting you to file either a Proof of Beneficial Use form or a Request for Extension of Time form.

The right to drill a well is not a part of this permit to appropriate water. Beginning in July of 1987, a statute was enacted which requires a drilling permit for new well construction and deepening of existing wells. If the well(s) proposed for use under this water right permit were drilled or deepened after July 1, 1987, a separate drilling permit must be obtained from this Department. Please contact the Ground Water Protection Section located here at this office or our regional office nearest you.

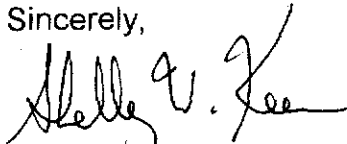

MICROFILMED

OCT 18 2001

Also, please note that water right owners are required to report any change of water right ownership and/or mailing address to the Department within 120 days of the change. Failure to report these changes could result in a \$100 late filing fee. Contact any office of the Department or visit the Department's homepage on the Internet to obtain the proper forms and instructions.

If you have any questions, please contact me at 208-327-7946.

Sincerely,

A handwritten signature in black ink, appearing to read "Shelley W. Keen". The signature is fluid and cursive, with the first name "Shelley" being more prominent.

**EXPLANATORY INFORMATION
TO ACCOMPANY A
PRELIMINARY ORDER**

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED

SEP 15 2001

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

SEP 26 2001

Department of Water Resources

September 25, 2001

Shelley Keen
Idaho Department of Water Resources
1301 North Orchard Street
Boise, ID 83706

Subject: Permit No. 63-31261

Dear Shelley:

On behalf of Daniel Hansen and Karen Hansen, I reviewed a copy of the above referenced permit that was approved on September 18, 2001. We appreciate the Department's prompt work in processing this application.

I noticed a typographical error in condition No. 7. The condition references water right "63-13933". The correct water right number is 65-13933. The basin boundary runs through the Hansen's property. The well that serves as the diversion point for 65-13933 is located in basin 65, while the well proposed for 63-31261 is located in basin 63. Although this is a minor error, I though I would bring it to your attention now to avoid potential confusion in the future.

Please contact me with any questions.

Sincerely,

Terry M. Scanlan

The accompanying order or approved document is a "Preliminary Order" issued by the department pursuant to section 67-5243, Idaho Code. It can and will become a final order without further action of the Department of Water Resources (department) unless a party petitions for reconsideration, files an exception and brief, or requests a hearing as further described below:

PETITION FOR RECONSIDERATION

Any party may file a petition for reconsideration of a preliminary order with the department within fourteen (14) days of the service date of this order. The department will act on a petition for reconsideration within twenty-one (21) days of its receipt, or the petition will be considered denied by operation of law. See Section 67-5243(3) Idaho Code.

EXCEPTIONS AND BRIEFS

Within fourteen (14) days after (a) the service date of a preliminary order, (b) the service date of a denial of a petition for reconsideration from this preliminary order, or (c) the failure within twenty-one (21) days to grant or deny a petition for reconsideration from this preliminary order, any party may in writing support or take exceptions to any part of a preliminary order and may file briefs in support of the party's position on any issue in the proceeding with the Director. Otherwise, this preliminary order will become a final order of the agency.

REQUEST FOR HEARING

Unless a right to a hearing before the department or the Idaho Water Resource Board (Board) is otherwise provided by statute, any person aggrieved by any final decision, determination, order or action of the Director of the department and who has not previously been afforded an opportunity for a hearing on the matter may request a hearing pursuant to section 42-1701A(3), Idaho Code. A written petition contesting the action of the Director and requesting a hearing shall be filed within fifteen (15) days after receipt of the denial or conditional approval.

ORAL ARGUMENT

If the Director grants a petition to review the preliminary order, the Director shall allow all parties an opportunity to file briefs in support of or taking exceptions to the preliminary order and may schedule oral argument in the matter before issuing a final order. If oral arguments are to be heard, the Director will within a reasonable time period notify each party of the place, date and hour for the argument of the case. Unless the Director orders otherwise, all oral arguments will be heard in Boise, Idaho.

CERTIFICATE OF SERVICE

All exceptions, briefs, requests for oral argument and any other matters filed with the Director in connection with the preliminary order shall be served on all other parties to the proceedings in accordance with IDAPA Rules 37.01.01302 and 37.01.01303 (Rules of Procedure 302 and 303).

MICROFILMED

SEP 1 1990

FINAL ORDER

The Director will issue a final order within fifty-six (56) days of receipt of the written briefs, oral argument or response to briefs, whichever is later, unless waived by the parties or for good cause shown. The Director may remand the matter for further evidentiary hearings if further factual development of the record is necessary before issuing a final order. The department will serve a copy of the final order on all parties of record.

Section 67-5246(5), Idaho Code, provides as follows:

Unless a different date is stated in a final order, the order is effective fourteen (14) days after its issuance if a party has not filed a petition for reconsideration. If a party has filed a petition for reconsideration with the agency head, the final order becomes effective when:

- (a) the petition for reconsideration is disposed of; or
- (b) the petition is deemed denied because the agency head did not dispose of the petition within twenty-one (21) days.

APPEAL OF FINAL ORDER TO DISTRICT COURT

Pursuant to sections 67-5270 and 67-5272, Idaho Code, if this preliminary order becomes final, any party aggrieved by the final order or orders previously issued in this case may appeal the final order and all previously issued orders in this case to district court by filing a petition in the district court of the county in which:

- i. A hearing was held,
- ii. The final agency action was taken,
- iii. The party seeking review of the order resides, or
- iv. The real property or personal property that was the subject of the agency action is located.

The appeal must be filed within twenty-eight (28) days of this preliminary order becoming final. See section 67-5273, Idaho Code. The filing of an appeal to district court does not itself stay the effectiveness or enforcement of the order under appeal.

Subject: Application for Permit in the Name of Daniel and Karen Hansen

Dear Gary:

On behalf of my clients, Daniel and Karen Hansen, this letter requests an exemption from the administrative hold on processing of new Applications for Permit in Basin 63. Hansen's enclosed Application for Permit proposes appropriation of 4.0 cfs of groundwater for irrigation of 200 acres within a 400-acre permissible place of use.

The proposed Permit would be linked to Permit 65-13933. Permit 65-13933 authorizes irrigation of 400 acres and a diversion rate of 8.0 cfs. The authorized place of use for 65-13933 is identical to the proposed permissible place of use on the enclosed Application. The Hansens would like to add an additional well into this system to supply a portion of the water requirement for 65-13933. Since the new diversion point would be located in Basin 63 (rather than Basin 65), we understand that a new Application for Permit is required, rather than an amendment of 65-13933. The Application and existing Permit in combination propose irrigation of 400 acres at a maximum diversion rate of 8.0 cfs. Therefore, the Application does not propose appropriation of more water, or irrigation of more land, than is currently authorized under Permit 65-13933.

An exemption from the Basin 63 administrative hold is requested because groundwater at the point of diversion proposed by the Application is tributary to the Payette River. Figure 1 is a computer generated water table contour map prepared by Department staff using water level data available from the Department's database. Figure 2 is a water table contour map excerpt from "Configuration of the Water Table and Depth to Water, Spring 1980, Water-Level Fluctuations, and Water Movement in the Snake River Plain Regional Aquifer System, Idaho and Eastern Oregon", by G.F. Lindholm and others (USGS Hydrologic Atlas HA-703, 1988). Both figures show that groundwater flow direction at the proposed point of diversion is northerly, toward the Payette River. The contours suggest that the groundwater divide between the Boise and Payette River basins is located approximately 2 miles southwest of the proposed point of diversion.

We understand that a primary purpose of the administrative hold in Basin 63 is to allow completion of the Treasure Valley Hydrologic Project. However, computer modeling conducted for the Treasure Valley Project does not extend into the area where the Application for Permit

Telephone (208) 383-4140
Facsimile (208) 383-4156

proposes to appropriate groundwater. The model boundary is located more than a mile to the south of the proposed point of diversion (Figure 3). Thus, we feel that this application should not be subject to the administrative hold because the Treasure Valley Hydrologic Project is unlikely to provide any significant data regarding groundwater conditions at this site.

Thank you for your consideration of this request. We look forward to your response.

Sincerely,

A handwritten signature in cursive script, reading "Terry M. Scanlan".

WATER RESOURCES
WESTERN REGION

☐ IN LOCAL PUBLIC INTEREST

Yes, I want my application processed and before it is advertised, I will amend my application to demonstrate that the proposed appropriation is in the local public interest including the need to preserve flows in the Snake River during the migration periods of anadromous fish.

☐ PROPOSE MITIGATION NOW

Yes, I want my application processed and before it is advertised, I will amend my application to include proposed mitigation to offset anticipated depletions to flows in the Snake River during the periods of anadromous fish migration.

☒ WILL AGREE TO MITIGATION IN THE FUTURE IF NECESSARY

Yes, I want my application processed at this time, and I will accept a condition of approval that will require mitigation should the Director of the Idaho Department of Water Resources determine that mitigation is necessary to offset depletions from this appropriation to flows in the Snake River during periods of anadromous fish migration. I understand that mitigation is not required now but may be in the future. I also understand that the Director will not require mitigation until I have an opportunity to review the process by which the need for mitigation is established and the amount of water required is quantified.
