Oct. 13, 1958- Mr. Farley called up in regard to this permit. He asked if it could be amended to include irrigation. He was told ~~it~~ could not- but another application would have to be made for irrigation. He then asked whether both uses could be combined in one permit, and was told that they could. He asked if that would require a new publication for proof, and was told that it would, as it would be a new permit. It was my understanding that they would not proceed with proofs on this permit(G-27211) but would file a new application. If a new application is filed, suggest that they relinquish this one- in order to clear the records.

Dear Mr. Farley:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-27211, in the name of Idaho Power Company. Final proof is to be made before you, as Notary, on the 10th day of October, 1958, at 10:00 A. M., at Boise, Idaho.

As of this date we have mailed the Notice to the Idaho Daily Statesman, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then to mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed on behalf of the permit holder and two disinterested witnesses, who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of publication.

Very truly yours,

GEO. N. CARTER
