Re: Permit No. G-26708

A. H. Bruck
Rt 1
Nampa, Idaho

Dear Mr. Bruck:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-26708 shows the well is ~~(xxx)~~ capable of conveying 30 miner's inches, or 0.6 c.f.s. of water for the irrigation of 54 acres.

Upon receipt of the statutory fees, totaling \$ 9.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 4.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of January 18, 1957 to the use of 0.6 second feet of subterranean water with the point of diversion in the SE 1/4 NE 1/4, Sec. 36 for irrigation of 54 acres and domestic use in the SE 1/4 NE 1/4, Sec. 36, T. 3 N., R. 3 W., B.M.

Since your permit does not include the SE 1/4 NE 1/4, Sec. 36 it will be necessary to amend the land list on the permit, if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above.

If you do not want the extra land included, the statutory fees will total \$7.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Very truly yours,

GEO. N. CARTER

Dear Mr. Bruck:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the Idaho Free Press, all submitted in proof of completion of works and beneficial use on Permit No.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Very truly yours,

Mr. A. E. Bruck,
Suite 2,
Nampa, Idaho.

Dear Mr. Bruck:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 0-26708. The proofs are to be made at 10:00 o'clock A.M., on the 23rd day of January, 1962, before John Brant, 206 1/2 - 18th Ave., South, Nampa, Idaho, Notary Public.

As of this date we have mailed the Notice to the Nampa Free Press, Nampa, Idaho, with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Very truly yours,

GEO. N. CARTER

Dear Mr. Bruck:

Returned herewith are the two Forms 36 and Form 11, you submitted to this office.

Our record of your permit shows the point of diversion, 4. on the form, is SE $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 36, and the place of use, 5 on form, is SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 36. Your two forms show different locations.

Kindly correct so both forms are the same and show correct description. If the point of diversion or the place of use has been changed from that shown on the permit, it will be necessary to amend the permit.

The date of January 21, 1962 you show for making the proofs is on a Sunday and should be changed.

Kindly return the three corrected forms at your earliest convenience.

Very truly yours,

Dear Mr. Bruck:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 26708 are due not later than

January 21, 1962

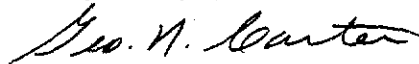

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
State Reclamation Engineer
