Dear Mr. Rettig:

O
In reviewing the above referenced file, it would appear that upon the Department's receiving a \$10 license fee, a license can be issued as recommended in the June 20, 1961 correspondence, a copy of which we are enclosing.

Until recent years, the Department did not have a follow-up procedure; and therefore, these issues were allowed to remain in the records without further action.

Gentlemen:

We are in receipt of your notification dated July 15, 1971 concerning pending cancellation of water permit listed above. Your letter indicates that our deficiency consists of failure to pay the license fee of \$10.00.

Would you please check and advise me if that is all that is required in order to finally dispose of this matter and obtain a license in this case. Our check will certainly be forthcoming if that is all that is required. Thank you.

Dear Mr. Syme:

We acknowledge receipt of the depositions of holder and two witnesses, also affidavit of publication in the News-Tribune, all submitted in proof of completion of works and beneficial use on Permit No. G-26293.

Before final action is taken in the matter, the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made, but our field engineer will try and contact you at the time he makes the examination so that arrangements may be made to show him over the grounds.

Mr. F. J. Wolterman,
Rt. #6,
Caldwell, Idaho,

Dear Mr. Wolterman:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. 26293. The proofs are to be made at 10:00 o'clock A.M., on the 25th day of April, 1961 before Chas. L. Shaffer, 110 S. Kimball Ave., Caldwell, Notary Public.

As of this date we have mailed the Notice to the Caldwell News Tribune with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the affidavit of publication and statement of costs to you.

It is important that the enclosed depositions be executed by you and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the place, on the date, and at the time and before the Notary, as advertised. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, the Notary's seal has been placed on each and that all depositions, (holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. Hendrickson:

We regret that you did not understand the procedure required for your permit to become a perpetual water right. The back of the permit shows the date when the proofs are due.

You can assign Permit No. G-26293 to the present owner or owners of the land where the water is used. The present owners can make the necessary proofs after the permit is in their name or names.

We are sending one assignment form to James Syme, Route 6, Caldwell, Idaho, the name you gave us in your letter, and a copy of this letter. He can have additional forms by request sent to this office.

Boise Ida,

Dear Sir:

I received your letter and thanks in regard to the well at Coldwell Idaho. I am now living at Walla Walla:

When I received the permit to dig the well I did not know about this procedure. When I received your letter I was surprised as I had no idea that there was anything further to do. I cannot understand why I was not notified before all of these years have elapsed. Now I have sold the land with the well and have no interest in it at all. I cannot even find the permit. Presumably it is with the papers that I turned over to the ones who bought it. The water is not used for irrigation purposes - not even for lawns. It is only for domestic use. There are a number of houses on the well and it is owned jointly by the users. James Lyne Rt 6 Coldwell Idaho I believe has been looking after it.

Now just what do you want me to do? Shall I send these papers to them or should I try and fill them out? It would be hard for me to do without any more data than I have. I do not know the output of the well and do not seem to have the permit. I do not know what is meant by point of diversion. The well has been (over)

Re: Permit No. G- 26293

Date: Feb. 1, 1961

A. L. Hendrickson
Route #6
Caldwell, Idaho

Dear Sir:

The date for proofs of Completion of Works and Application of Water to Benefi-
cial Use, as set out under the terms of Permit No. G- 26293 are due not later
than April 13, 1961.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the above mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use or the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Dear Mr. Hendrickson:

This is to acknowledge the receipt of your application for permit to appropriate the subterranean waters of the State of Idaho.

It is necessary for the filing fee to accompany the application for permit before the processing of same can be started or a priority date be given.

A statutory fee of \$5.00 is charged if the quantity of water claimed is one cubic foot per second (50 miners inches) or less, and 25 cents for each additional cubic foot per second, or fraction thereof. Therefore, the filing fee on your permit should be \$5.00.

In order to prevent any further delay in the processing of your application will you please send the filing fee of \$5.00 in by return mail?

Very truly yours,

MARK R. KULP
State Reclamation Engineer
