Dear Ms. Coulter:

I received your letter concerning the old well which was used for municipal purposes and is now used for a back-up to the new well.

Enclosed is an application for Transfer of a Water Right to be used to add the well mentioned in your letter to License No. 63-3075. I have partially completed the transfer form and marked the areas you need to complete. This form does not have to be in by June 30, 1983, as the original water right is filed. The fee for this transfer is \$50.00 which does not increase after this June 30th.

If you have any questions, or need assistance completing the transfer, please contact us.

Dear Ms. Grover:

Per phone conversation of 5-25-83, it is my understanding that it will not be necessary for the City of Notus to file a claim on the (stand-by only) groundwater well. The well located at the northeast corner of Notus Road and Gary Avenue in Notus should be added to license #63-3075.

Thank you for your help in this matter.

Dear Mayor Coulter:

Re: 63-3075

In reply to your letter of April 21, 1983, to Mr. Tuthill, our records show one water right on file with this department for the City of Notus from a groundwater source. License No. 63-3075, formerly License No. G26172, identifies 1.2 cfs from one well in the SW 1/4, Sec. 34, T. 5 N., R. 4 W. for municipal use and fire protection. Therefore, a filing will be necessary for a second well supplying additional water to your system.

A claim may be filed for groundwater placed to beneficial use prior to March 25, 1963. On or after March 25, 1963, an application for permit must be filed. Of course, no filing is necessary for water you are receiving for irrigation from Farmers Cooperative Ditch Company and Black Canyon Irrigation District. The organization records the water rights on behalf of all the water users in the system.

Enclosed are claim and application for permit forms with instructions for filing. The completed form with fee should be sent to Western Region.

If you have any questions or need additional assistance, please feel free to contact us.

Sincerely,

Dear Mr. Tuthill:

The City of Notus has two wells. We want to be sure that our wells are recorded.

We have one Permit No. G - 26172. Does this cover both wells?

We receive irrigation water from Farmers Cooperative Ditch Company and Black Canyon Irrigation District.

Please let us know if there is anything we need to do.

Dear Mr. Davenport:

Reference is made to your letter of December 7 in regard to well to be drilled for water supply to the Village of Natus.

We enclose a copy of the groundwater law from which you will note that an application for permit should be filed and we enclose a form of such application herewith together with a pamphlet giving regulations and instructions in regard to filing same.

When this application is approved, it will be signed by the proper State Officials and sent the applicant as a use permit under which he may proceed with the construction of the work described in the application.

In order to complete this water right, proofs of completion of works and application of the water to beneficial use are required. The time required for making these proofs should be indicated under Question 10.

Dear Sir:

We are handling the engineering work for the Village of Notus in connection with the improvement to the city water system. In regard to this improvement it is planned to drill a new well for municipal water uses in the North part of the Village of Notus. The well will be either 12" or 14" in diameter and will be required to have the capacity of at least 500 gallons per minute.

Please advise if there is any law or regulation which requires a permit to be issued from your office, or from any other governmental agency, before the construction of this well is started.
