ACTION OF DEPARTMENT OF WATER RESOURCES

This Permit is Approved.

If approved, this permit authorizes the construction of a well subject to the following conditions:

GENERAL CONDITIONS

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from its date of issuance for the start of construction and is valid for one (1) year from the date of issuance for completion of the well unless an extension has been granted.
3. This permit does not constitute the approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Issuance of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85°F or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.

SPECIFIC CONDITIONS

9. If the well being replaced is no longer to be used, it must be abandoned in accordance with the Well Construction Standards Rules and Regulations.

Dated this 31 day of May, 1989.

Re: Permit No. G-25709

Dear Mr. Porter:

On the 17th of August, 1960, the Department of Reclamation conducted a field examination in connection with the above referenced permit. The results of the examination were forwarded to you on August 30, 1960 in the form of a fee letter.

As of this date, we have not had a reply to our August 30, 1960 correspondence. The results of the field examination indicated that there were 38 acres irrigated in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, 38 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, and 10 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, sec. 10, T. 1 N, R. 2 W, B.M. Of the 86 acres found irrigated at the time of the examination, only 70 acres could be licensed as the permit called for 20 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, 10 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, and 40 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, sec. 10.

Before we can license the lands irrigated under the permit, you will be required to supply the department with an amendment to the land list. The application for amendment has been filled out and requires a \$5.00 filing fee along with your signature. As soon as the amendment has been received and approved, the department will be in the position to license your permit for 70 acres located as amended, and with the rate of diversion of 1.4 cubic feet per second.

A prerequisite to licensing is for the permit holder to submit a statutory licensing fee. In the case of this permit, if you amend the land list, the licensing fee would be \$11.00.

In order to facilitate the Department of Reclamation in correcting and clearing our records, you are requested to complete the above requirements within 45 days of the date of this letter. If you have not completed these requirements within this time, the permit will be held for cancellation. Please contact us if we may be of further assistance.

As of this date, we have not had a reply to our August 30, 1960 correspondence. The results of the field examination indicated that there were 38 acres irrigated in the NE 1/4, 38 acres in the NW 1/4, and 10 acres in the SW 1/4, sec. 10, T. 1 N., R. 2 E., S. 1 E. Of the 86 acres found irrigated at the time of the examination, only 70 acres could be licensed as the permit called for 20 acres in the SW 1/4, 10 acres in the NW 1/4, and 40 acres in the NE 1/4, sec. 10.

Before we can license the lands irrigated under the permit, you will be required to supply the department with an amendment to the land list. The application for amendment has been filled out and requires a \$5.00 filing fee along with your signature. As soon as the amendment has been received and approved, the department will be in the position to license your permit for 70 acres located as amended, and with the rate of diversion of 1.4 cubic feet per second.

A prerequisite to licensing is for the permit holder to submit a statutory licensing fee. In the case of this permit, if you amend the land list, the licensing fee would be \$11000.

In order to facilitate the Department of Reclamation in correcting and clearing our records, you are requested to complete the above requirements within 45 days of the date of this letter. If you have not completed these requirements within this time, the permit will be held for cancellation. Please contact us if we may be of further assistance.

Dear Mr. Porter:

On the 17th of August, 1960, the Department of Reclamation conducted a field examination in connection with the above referenced permit. The results of the examination were forwarded to you on August 30, 1960 in the form of a fee letter.

As of this date, we have not had a reply to our August 30, 1960 correspondence. The results of the field examination indicated that there were 38 acres irrigated in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, 38 acres in the NW $\frac{1}{4}$ NE $\frac{1}{4}$, and 10 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, sec. 10, T. 1 N, R. 2 W, B.M. Of the 86 acres found irrigated at the time of the examination, only 70 acres could be licensed as the permit called for 20 acres in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, 10 acres in the SE $\frac{1}{4}$ NE $\frac{1}{4}$, and 40 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, sec. 10.

Before we can license the lands irrigated under the permit, you will be required to supply the department with an amendment to the land list. The application for amendment has been filled out and requires a \$5.00 filing fee along with your signature. As soon as the amendment has been received and approved, the department will be in the position to license your permit for 70 acres located as amended, and with the rate of diversion of 1.4 cubic feet per second.

A prerequisite to licensing is for the permit holder to submit a statutory licensing fee. In the case of this permit, if you amend the land list, the licensing fee would be \$11.00.

In order to facilitate the Department of Reclamation in correcting and clearing our records, you are requested to complete the above requirements within 45 days of the date of this letter. If you have not completed these requirements within this time, the permit will be held for cancellation. Please contact us if we may be of further assistance.

G25709

Dear Mr. Porter:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-25709 shows the well is (~~amex~~) capable of conveying 70 miner's inches, or 1.4 c.f.s. of water for the irrigation of 86 acres.

Upon receipt of the statutory fees, totaling \$11.00, we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 6.00, based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of May 23, 1955 to the use of 1.4 second feet of subterranean water with the point of diversion in the NE1/4NW1/4 of Section 10 for irrigation of 86 acres in the E1/4NE1/4, NE1/4NW1/4 of Section 10, Township 1 North, Range 2 West, B.M.

Since your permit does not include the NW1/4NE1/4 of Section 10 it will be necessary to amend the land list on the permit, if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this office and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above. If you do not want the extra land included, the statutory fees will total \$9.00 and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Dear Mr. Porter:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 25709 are due not later than May 24, 1960.

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.

Very truly yours,

GEO. N. CARTER
