Dear Mr. Kadel:

After checking the file regarding your Permit, I believe it will be to your best interest to come out and check the out-put from both wells when you are irrigating next summer.

There is no record in the files of beneficial use proof having been made nor License issued on the other well. Regular notice of the date for proof was sent on September 2, 1952 but to date the necessary proofs have not been made.

I am calling this to your attention because you told me that the well belonged to your property and that all proofs had been made.
