Dear Mr. Neider:

We acknowledge receipt of your affidavit submitted as proof of beneficial use for Permit No. 63-7647.

Before a license can be issued, a field examination must be made by a representative of this Department. We cannot tell just when this examination will be made, but our examiner will try to contact you at the time he makes the exam so that you may show him the system.

We wish to advise you that the Department has no procedure for changing the record of ownership once a permit has been licensed. When a license is issued, it becomes appurtenant to the land and ownership is automatically conveyed with the land unless it is specifically withheld in the sale transaction.

We will file the four assignments you submitted for future reference as to present ownership. If you have any questions regarding this matter, please contact us.

Sincerely,

BOBBY D. FLEENOR

Dear Mr. Fiedler:

Our field engineer's report on his inspection of proof of completion of works and application of water to beneficial use under the terms of Permit No. G-25499 shows the well is (are) capable of conveying 79 miner's inches, or 1.58 c.f.s. of water for the irrigation of 109 acres.

Upon receipt of the statutory fees, totaling \$ 15.00 , we will issue the Certificate of Completion of Works (fee \$5.00) and the License and Certificate of Water Right (fee \$ 10.00 , based at the rate of \$2.00 for each 40-acre subdivision) confirming the right, with priority of March 4, 1955 to the use of 1.58 second feet of subterranean water with the point of diversion in NE¹/₄NE¹/₄ Sec. 3, for the irrigation of 109 acres in NE¹/₄, NE¹/₄SE¹/₄, Sec. 3, T. 1 N., R. 2 W., B. M.

Since your permit does not include the NE¹/₄NE¹/₄ Sec. 3, it will be necessary to amend the land list on the permit, if you want the extra land included in the license. Complete the enclosed form, submit it with the above mentioned statutory fees, plus an additional fee of \$1.00 for recording the amendment, to this department and the Certificate of Completion of Works and License and Certificate of Water Right will be issued as shown above. If you do not want the extra land included the statutory fees will total \$13.00, and the land list will be restricted to the lands shown on the permit which are actually irrigated.

Permit No. G-25499

Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. Charles M. Fiedler, I live 1/2 miles west of Bowmont, Idaho. I am a farmer and stockman. My Postoffice address is Rt. 3, Nampa, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. I am acting as an individual

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit.

Ans. Permit #G-25499 dated 3/10/55. The date of priority is 3/4/55.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. The source is subterranean water raised through a drilled well located in the NW 1/4 NE 1/4, Section 3, T 1 N - R 2 W., B.M. (The well is actually designated as Lot 2 which is the same as the NW 1/4 NE 1/4).

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. This is carried through my private ditches which are capable of conveying 150" of water. The well is drilled to a depth of 350', it is cased all the way w/12" steel casing, the water will stand at 175' & pumps to a depth of 117', the approx. draw-down is 182'. The pump is equipped w/a turbine type motor, 50 h.p. & is designed to discharge 100", but the measurement I've had from the Pump Co. shows about 65" & that would be my best judgement from having seen the water measured. All irrigation is by gravity, there's no sprinkler.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The purpose of this water is for agricultural use in the (32 ac.)(35 ac.)(75 ac.) NW 1/4 NE 1/4, SE 1/4 NE 1/4, E 1/2 SE 1/4, Sec. 3, T1N-R2W., B.M. There is no natural meadow. The land has all been cultivated and all the improvements have been made as a direct result of this use for agriculture. I've spent \$15,000 in this work.

Ques. 6-a If this is a ground water permit, give name and address of person that drilled the well.

Ans. A. E. Hosack & Son, Nampa, Idaho

G25499

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc.

Ans. This water is used for irrigation only.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. This is not nearly enough water to irrigate the land I have here, and I could use more water from this well.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the same person that originally took out this permit.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. I started work on this immediately after I got the permit and I have continued developing the water for use in irrigating this land, to raise agricultural crops.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. There is no other water

Permit No. G-25499

**Proof of Application of Water to Beneficial Use
and Completion of Works
Deposition of Witness**

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Connie A. Neider. I am 22 years old, I live 1/2 mi. west of Bowmont or
approximately 13 mi. south of Nampa. I am a housewife. My postoffice address is Rt. 3
Nampa, Idaho

Ques. 2. Are you acquainted with Charles M. Fiedler, the
holder of Permit No. G-25499? How long have you known him and where does
he reside?

Ans. I have known him all my life and know that he resides at 1/2 mile west of
Bowmont

Ques. 3. Have you read or heard read said Permit No. G-25499, and are you
familiar with its provisions and conditions?

Ans. Yes, and I am familiar with its provisions and conditions.

Ques. 4. State source of water supply, place of diversion, and describe works for con-
veying water from point of diversion to place of use.

Ans. The water is pumped from a drilled well in the NW 1/4, Sec. 3, T1N-R2W. The well
is 350' deep, cased with 12" steel casing and pumps to a depth of 117'. The water will
stand at 175' and the approx. drawdown is 182'. The water is carried by ditches. The
well is equipped with a turbine type motor - 50 h.p.

Ques. 5. How many second feet of water do you estimate said works will safely con-
duct to place of use, and how much water have you seen being so conveyed?

Ans. The ditches will safely conduct 150" and I have seen that much conveyed.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons
per minute have you seen the pump deliver, and how did you measure or estimate the
amount?

Ans. I have seen the pump deliver about 652, but according to the Pump Co. that
measured the well it is designed to discharge 100".

J25499

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is used for irrigation in the $W\frac{1}{2}NE\frac{1}{4}$ (32 ac.), $SE\frac{1}{4}NE\frac{1}{4}$ (35 ac.), $E\frac{1}{2}SE\frac{1}{4}$ (75 ac.). There is no natural meadow and all the improvements have been made as a direct result of this use.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. This water is used for irrigation only.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. The soil is sandy, loam and more water could be used on this land for profitable irrigation.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the works, water or lands.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I was familiar with the land even before the well was drilled here and I have seen it during the entire process, seen the water used for irrigation and have seen the whole operation as I live right next to it.

Dear Mr. McDowell:

This acknowledges the Notice of Proof of Completion of Works and Application of Water to Beneficial Use under Permit No. G-25499, in the name of Charles M. Fiedler, Bowmont, Idaho. Final Proof is to be made before you, as Notary on the 29th day of February, 1959, at 2:00 o'clock P.M., at Boise, Idaho. 60

As of this date we have mailed the Notice to the Nampa Free Press with instructions to publish it once a week for four consecutive weeks prior to the date set for final proof and then mail the Affidavit of Publication and statement of costs to you.

It is important that the enclosed depositions be executed by the permit holder and two disinterested witnesses who are familiar with the terms of the permit and the work done thereunder, at the time, on the date and before you, as Notary, as stated in the publication notice. It is very important and necessary that each question be answered in detail.

In returning the depositions to this office, be sure that all copies have been signed, that your Notary's seal has been placed on each and that all depositions, (Holder and two witnesses) are being returned. Also be sure to enclose the Affidavit of Publication.

Dear Mr. Fieldler:

The date for proofs of Completion of Works and Application of Water to Beneficial Use, as set out under the terms of Permit No. G- 25499 are due not later than March 10, 1960.

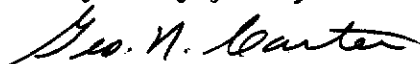

Before these proofs can be made, the statutory requirement is that a notice of your intention of proof be published once a week for four consecutive weeks in a newspaper within the county in which the land is located. In completing the Notice of proof for publication, the information should be taken from your Permit, including any amendments made in connection with a change of point of diversion or land list which has been recorded in this department. If changes have been made and no amendments are on record, we advise that you request a form for this purpose before your Notice is published.

We enclose Form 36, in duplicate, which is to be filled out and returned to this department at least forty (40) days before the mentioned date, (allowing for four weeks publication). Please give the name of the town, the address of the place where the depositions will be executed, and, the name of the notary public before whom you will appear to make the depositions of proof (this may be at any place convenient for you and your two two witnesses), the quantity of water filed; for what purpose it is used; the point of, or points of diversion; and the location of use of the lands which are irrigated -- all by legal land description.

Enclosed also is Form 11, which is the authorization for us to have the notice published in the designated county newspaper at your expense. This is to be returned with Form 36.

At the time we send the notice to the newspaper we will send to you the forms for the depositions of holder and two disinterested witnesses. It is important that the depositions be executed at the time, on the date set, at the place named and before the notary public, as advertised in the publication notice.
