**NOTICE OF PROOF OF COMPLETION
OF WORKS
NOTICE OF PROOF OF COMPLETION
OF WORKS
and
APPLICATION OF WATER
TO BENEFICIAL USE**

Notice is hereby given that at 10:30 P. M., on the 12th day of April, 1955, at Boise, County of Ada, State of Idaho, before Leo Neher, Notary Public, proof will be submitted of the completion of works for the diversion of 300 gallons per minute of the waters of Subterranean to 60' and of the application to beneficial use of said water, in accordance with the terms and conditions of Permit No. G 25458 heretofore issued by the Department of Reclamation of the State of Idaho.

1. The name and postoffice address of the person or corporation holding said permit are The Idaho First National Bank, Boise, Idaho.
2. Said works of diversion will be fully completed on the date set for such completion, and the amount of water which said works are capable of conveying to the place of use, in accordance with the plans accompanying the application for such permit, is 300 gallons per minute.
3. The use to which said water has been applied is Air and Condenser Cooling purposes, and the amount applied to beneficial use is 300 gallons per minute.
4. The place where said water is used is in the First National Bank Building, 205 N. 10th Street, Boise, Idaho, and the well is located in the NE1/4NW1/4, Section 10, Township 3 North, Range 2 East B. M.
5. The date of priority which said user is prepared to establish is February 16, 1955.

MARK R. KULP.
State Reclamation Engineer.

Permit No. G-25458

This proof is for Completion of Works & Beneficial Use In Water District No. _____

1. Name of applicant Idaho First National Bank, F.M. Baker, Vice-President, Boise, Idaho
2. Source of water supply: Subterranean from a well
3. Location of point of diversion: Is in the NE $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 10
T. 3 N. R. 2 E. County of Ada

as they exist, giving capacities of same:

Location of the well is actually under the sidewalk on City property approximately 10' out from the wall of the Idaho First National Bank Building and approximately 38' Westward from the bank corner. The water is used as a coolant on the fourth floor of the bank building where it passes through the coils of a large capacity air cooling system for the building. From there water is carried to the basement and is used as a coolant for the large compressors in the basement and delivered through a 10" steel pipe line Westward on Idaho Street to the corner of 11th, thence South on 11th to where it is emptied into the Boise City Canal under the concrete paving on the corner of 11th street and Main. There is also a 2" line extending from the well down Idaho Street to the West to Lots 1 and 2 in Block 46 where it is intended to use some water for irrigation of shrubbery.

Amount of water needed and used for the system is somewhere between 305 and 315 gallons per minute.

Well is 12" diameter by 59' deep, cased to the bottom. H=7'. Lift is 34'. Motor is a 15 hp U. S. Motor, serial no. 2373368. Pump is a Worthington 8QFE5, serial no. T 1472187.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: _____

This examination was made on the 15th day of July, 1955.

(Signed) E. N. Humphrey Examiner.

25458

5. Water is used for: Air and condenser cooling purposes

6. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Office portion of First National Bank Building, 10th Main Sts., Boise, Idaho

See the map

(Submit map on attached plat, showing location and details of above description.)

INSTRUCTIONS TO EXAMINERS

1. Always carefully note the location of the point of diversion and accurately plat same.
2. When proof is for beneficial use, carefully check up the number of acres actually irrigated in each forty and accurately plat same.
3. Make a map showing the correct location of streams and ditches, and the irrigated lands, and any adjacent permanent landmarks, such as towns, lakes, large streams and public roads.
4. If any unusual conditions are discovered, make plain statement of them under remarks.
5. Always see the holder, if possible, and go over the whole ground with him and make your report only upon actual existing facts and conditions.
6. Give general characteristics of soils, topography, and crops raised.

Mr. Mark R. Kulp,
State Reclamation Engineer,
Department of Reclamation,
State House,
Boise, Idaho.

Dear Mr. Kulp:

For your information, the well which was drilled on our property under your permit No. G25458 and referred to in your letter of April 12, 1955, has been completed and is ready for final inspection by an engineer from your department.

We have been previously advised that you have assigned your engineer, Mr. Elmer N. Humphrey, to make this final inspection, which he no doubt will arrange to do as soon as possible in order that final action may be taken in connection with our permit.

Yours very truly,

F. M. Baker,
Vice - President.

RE: Permit No. G-25458

Idaho First National Bank
10th and Idaho
Boise, Idaho

ATTENTION: Mr. F. M. Baker, Vice-President

Dear Mr. Baker:

We have placed on file the depositions of yourself and two witnesses together with affidavit of publication in the Idaho Daily Statesman which completes proof of completion of works and beneficial use on Permit No. G-25458.

Before final action is taken in the matter the law requires that a field examination be made by an engineer from this department.

We cannot tell just when this examination will be made but our field engineer will try and contact you or some other representative of the Permit Holder so that arrangements may be made to show him over the grounds.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

J25458

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO

Permit No. G 25458

Proof of Application of Water to Beneficial Use
and Completion of Works

Deposition of Holder

Ques. 1. State your name, residence, occupation and postoffice address.

Ans. F. M. Baker, 6624 Randolph Drive, Boise, Idaho. Occupation, Banking;

Post Office Address, Box 140, Boise, Idaho.

Ques. 2. If acting in behalf of corporation, state its name, principal place of business (if a foreign corporation, give name of postoffice of statutory agent), your position with reference to same, and your authority for appearing in its behalf.

Ans. The Idaho First National Bank, 205 No. 10th Street, Boise, Idaho. I am a Vice-President of the bank and have been invested with the authority to act in their behalf.

Ques. 3. State number and date of permit, and date of priority you propose to establish under the permit. Ans. Permit No. G 25458, dated February 23, 1955. Date of priority we propose

Ans. to establish under the permit is February 16, 1955.

Ques. 4. State source of water supply and give exact location of point of diversion.

Ans. A well is the source of the water supply, and it is located in the NE $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 10, Township 3 North, Range 2 East, B. M. Adjoins property known as Lot Six (6) and the East Half (E $\frac{1}{2}$) of Lot Five (5) in Block Forty-six (46) of the Original Townsite of Boise City, in Ada County, State of Idaho.

Ques. 5. Describe your works of diversion, and state amount of water they are capable of conveying from point of diversion to place of use, and give name of canal or ditch or other works by which water is conducted to such place of use. If a well, state depth of well, depth and size of casing and depth to water. If pump is used, state discharge of pump and tell how it was measured or determined. If sprinkler irrigation, give number and size of nozzles and operating pressure.

Ans. The well, 60 feet deep, is incased in a twelve inch casing which is also 60 feet in depth. Depth to water from sidewalk level is approximately 15 feet. A deep well turban pump with a capacity of 300 gallons per minute is used, measurement of water flow was determined by a Circular Orifice Weir.

Ques. 6. State for what purpose water is used and describe place of use. (If for irrigation, name each subdivision in which used, and number of acres in each subdivision that have actually been irrigated with said water.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water will be used for air and condenser cooling in the office portion of the First National Bank Building, 205 North 10th Street, Boise, Idaho.

J 25458

Ques. 7. If for other than irrigation purposes; state how applied, amount of horse power generated, etc. Ans. The water is circulated through air cooling coils and through

Ans. a refrigeration condenser and thence to the storm sewer by a 15 horsepower turban pump.

Ques. 8. What is the minimum amount of water required for the purpose specified above?

Ans. Minimum amount of water required is 280 gallons per minute.

Ques. 9. If you are not the person or representative of the corporation to whom above mentioned permit was originally issued, please state how ownership was acquired by present holder.

Ans. I am the representative of the corporation to whom the permit was originally issued.

Ques. 10. State when, how, in what amount and to what extent the water diverted under above mentioned permit has been used.

Ans. Water in the amount as applied for in this permit has not been previously used.

Ques. 11. State when, how, in what amount and to what extent waters other than those diverted under the above mentioned permit have been diverted and applied to beneficial use upon the lands herein described. Give full particulars regarding such other appropriations and rights claimed thereunder.

Ans. No waters other than those diverted under this permit have been diverted or applied for the use herein above described.

(Sign)

F. M. Baker, Vice - President

I hereby certify that the foregoing testimony was read to the above subscribed before its signing, that I believe him to be the person he represents himself to be, and that said testimony was subscribed and sworn to before me, at my office in Boise, County of Ada,

State of Idaho, on this 12th day of April, A. D. 1955.

Permit No. G 25458

Proof of Application of Water to Beneficial Use

Deposition of Witness and Completion of Works

The deposition of two witnesses, on this form, taken separately, required in each case.

Ques. 1. State your name, age, residence, occupation and postoffice address.

Ans. Theo H. Wegener; Age, 61; Residence, 914 Houston Road; Boise, Idaho
Occupation, Stock & Real Estate Broker; P. O. Address, Box 1188, Boise, Idaho

Ques. 2. Are you acquainted with The Idaho First National Bank, Boise, Idaho the holder of Permit No. G 25458? How long have you known him and where does he reside?

Ans. I am acquainted with The Idaho First National Bank, 205 No. 10th Street, Boise, Idaho, and I have known them for the past 33 years.

Ques. 3. Have you read or heard read said Permit No. G 25458, and are you familiar with its provisions and conditions?

Ans. Yes

Ques. 4. State source of water supply, place of diversion, and describe works for conveying water from point of diversion to place of use.

Ans. A drilled well located on property adjoining the bank building, the water to be conveyed to the bank building through pipe.

Ques. 5. How many second feet of water do you estimate said works will safely conduct to place of use, and how much water have you seen being so conveyed?

Ans. Well will produce approximately 300 gallons per minute, a test pump was applied to measure the flow.

Ques. 6. (Pumps) How much water in cubic feet per second, miner's inches, or gallons per minute have you seen the pump deliver, and how did you measure or estimate the amount?

Ans. A test pump was installed to measure the volume which registered a flow of approximately 300 gallons per minute. The equipment used was a Circular Orifice Weir.

J 25458

Ques. 7. State for what purpose water is used and at what place. (If for irrigation, give each subdivision in which water has been used and number of acres irrigated in each subdivision.) State whether cultivated or natural meadow land and the nature of all improvements which have been made as a direct result of said use.

Ans. The water is to be used for air and condenser cooling in the office portion of the First National Bank Building, 205 North 10th Street, Boise, Idaho.

Ques. 8. If for power or other purposes than irrigation, state how water has been applied and to what extent.

Ans. Water will be used as listed under question No. 7 above.

Ques. 9. (If for irrigation) state character of land that has been reclaimed, and give your estimate of the amount of water required for its profitable cultivation.

Ans. Not to be used for irrigation purposes.

Ques. 10. Have you any interest in the works, water or lands above mentioned? If so, in what way and to what extent?

Ans. I have no interest in the works, water or lands herein described.

Ques. 11. State when, how, in what amount and to what extent you have witnessed the application to beneficial use of water diverted under said permit.

Ans. I witnessed the drilling of the well, and I observed the water flow during the time the test was made to determine the volume available.

RE: Permit No. G-25458

The Idaho First National Bank
Box 1401
Boise, Idaho

ATTENTION: Mr. F. M. Baker

Dear Mr. Baker:

We enclose Permit No. G-25458.

The application states that the the works are completed, but you will note that we have allowed two years, or until February 23, 1957, within which to make the statutory proofs of completion of works and beneficial use required to complete the water right.

However, it is our understanding that you wish to make these proofs at once and if that is the case, you may fill out in duplicate, Form 36 enclosed herewith, setting the time and place and naming the Notary Public before whom these proofs are to be made.

The law requires publication once a week for four weeks prior to making the proofs, so the date should be set far enough ahead to allow for four weeks publication.

Both copies of Form 36 to be returned to this department together with Form 11 which is your authorization for us to have the notice published at your expense in the designated county newspaper.

Very truly yours,

MARK R. KULP
State Reclamation Engineer

State House
Boise, Idaho

Dear Sir:

We are enclosing in duplicate our Application For Permit to appropriate the subterranean waters of the State of Idaho in connection with a well which was recently drilled adjoining our property. There is also enclosed our filing fee in the amount of \$5.00.

After this permit has been approved, please return the duplicate copy to us for our files.

Yours very truly,

F. M. Baker
Vice - President
